

**MOBILE SOURCE AIR POLLUTION REDUCTION REVIEW COMMITTEE
MSRC AGENDA
Thursday, January 18, 2018 at 2:00 p.m.**

LOCATION

South Coast Air Quality Management District
21865 Copley Drive, Conf. Room CC8, Diamond Bar, CA 91765

TELECONFERENCE LOCATION

Los Angeles County MTA (LA Metro) Headquarters, Henry Huntington Room, 3rd Floor
One Gateway Plaza, Los Angeles, CA 90012
(Public may attend either of the above locations)

MSRC Committee Members

MSRC Chair

Greg Pettis
Commissioner, RCTC
Representing Riverside County Transportation
Commission
Alternate: Brian Berkson, Commissioner, RCTC

Jack Kitowski, CARB Staff
Representing California Air Resources Board
Alternate: Michael Carter, CARB Staff

Ben Benoit
Member, SCAQMD Governing Board
Representing South Coast Air Quality
Management District

MSRC Vice-Chair

Larry McCallon
Member, SBCTA Board of Directors
Representing San Bernardino County
Transportation Authority
Alternate: Vacant

Vacant
Representing Regional Rideshare Agency
Alternate: Dolores Roybal Saltarelli, MTA Staff

Steve Veres, Member, LACCD Board of
Trustees
Representing Los Angeles County MTA
Alternate: Mark Yamarone, MTA Staff

Greg Winterbottom
Board of Directors, OCTA
Representing Orange County Transportation
Authority
Alternate: Tim Shaw, Board of Directors, OCTA

Michele Martinez
Member, SCAG Regional Council
Representing Southern California Association of
Governments
Alternate: Rex Richardson, SCAG Reg. Council

CALL TO ORDER

Opening Comments: Greg Pettis, MSRC Chair
Other MSRC Members
Fred Minassian, Asst. DEO/Science & Technology Advancement

STATUS REPORT

Clean Transportation Policy Update **Hardison**
The Clean Transportation Policy Update provides information on key legislative and regulatory initiatives of potential interest to the MSRC. The report can be viewed at www.cleantransportationfunding.org.

CONSENT CALENDAR (Items 1 through 9)

Receive and Approve

1. Minutes for the November 16, 2017 MSRC Meeting **Cedillo**
Minutes to be distributed at the meeting.

2. Summary of Final Reports by MSRC Contractors **Gorski**
p. 2
 - SCRRRA (Metrolink), MS16100 (\$80,455 - Provide Metrolink Service to Autoclub Speedway)
 - Transit Systems Unlimited, Inc., MS16088 (\$17,000 - Expansion of Existing CNG Station)

Information Only - Receive and File

3. MSRC Contracts Administrator’s Report **Ravenstein**
p. 9
This report covers key issues addressed by MSRC staff, status of open contracts, and administrative scope changes from October 26, 2017 through January 3, 2018.

4. Financial Report on AB 2766 Discretionary Fund **Kampa**
p. 40
Financial Report for December 2017.

For Approval – As Recommended

5. Consider Modification of 2018 MSRC-TAC Meeting Schedule Cedillo
p. 42
- In November 2017, the MSRC approved 2018 meeting schedules for the MSRC-TAC and MSRC. The MSRC-TAC schedule showed an incorrect date for the March meeting. Staff recommends that the March 8 MSRC-TAC meeting be moved to March 1. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL.**
6. Consider Eight-Month Term Extension by City of Beverly Hills, Contract #ML09033 (\$550,000 – Purchase 10 Heavy-Duty CNG Vehicles and Install CNG Station) Ravenstein
p. 45
- The City requests an eight-month term extension due to delays associated with the City’s vehicle replacement schedule. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL.**
7. Consider Approximately Four-Month Term Extension by City of Corona, Contract #ML14019 (\$178,263 – Install EV Charging, Bicycle Racks, and Bicycle Lockers) Ravenstein
p. 49
- The City requests a term extension to March 6, 2023—approximately four months—due to unexpected delays in Southern California Edison meter installation at two of the EV charging station locations. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL.**
8. Consider Modified Statement of Work for City of Long Beach, Contract #ML16017 (\$1,445,400 – Purchase 48 Medium-Duty and up to 16 Heavy-Duty Natural Gas Vehicles and Install CNG Station) Ravenstein
p. 54
- The City requests to purchase 50 medium-duty and 19 heavy-duty vehicles with no change in the overall funding amount; some vehicles would receive lower incentives. The City also requests to substitute a number of specific vehicles. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL.**
9. Consider Two-Year Term Extension by San Bernardino County Transportation Authority (SBCTA), Contract #MS14072 (Implement Various Signal Synchronization Projects) Ravenstein
p. 59
- SBCTA (formerly San Bernardino Associated Governments) requests a two-year term extension due to delays in the modification of signals at three intersections, which must be completed before interconnecting the traffic signals. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL.**

ACTION CALENDAR (Items 10 through 13)

FYs 2016-18 WORK PROGRAM

- 10. Consider Funding for Applications Received under the Natural Gas Infrastructure Program Kato
p. 64

As an element of their FYs 2016-18 Work Program, the MSRC allocated \$4 million to fund new and expanded CNG and LNG refueling stations, as well as modifications to vehicle maintenance facilities and technician training. A Program Announcement was released on June 2, 2017. The MSRC has previously funded applications totaling \$118,500. The MSRC has received two additional applications requesting \$300,000. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL OF A \$225,000 AWARD TO THE CITY OF BANNING AND A \$75,000 AWARD TO THE CITY OF NORWALK**

- 11. Consider Funding for Application Received under the Major Event Center Transportation Program Lynn
p. 68

As an element of their FYs 2016-18 Work Program, the MSRC allocated \$5 million to fund projects assisting venues not sufficiently served by transportation service. A Program Announcement was released on March 3, 2017. To date, the MSRC has awarded a total of \$3,055,754. One additional application is being brought forward for consideration: Southern California Regional Rail Authority (SCRRA) and the Auto Club Speedway are requesting \$87,764 for special train service in support of the 2018 Auto Club 400 NASCAR race. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL OF AN \$87,764 AWARD TO SCRRA.**

- 12. Consider Funding for Applications Received under the Local Government Partnership Program Patchan
p. 72

As an element of their FYs 2016-18 Work Program, the MSRC allocated \$21,180,650 for a funding partnership with cities and counties to jumpstart implementation of the SCAQMD's 2016 Air Quality Management Plan. A Program Opportunity Notice was released on September 1, 2017. Per the Program Opportunity Notice, each city and county within SCAQMD that participates in the AB 2766 Subvention Fund Program has a funding allocation reserved for its use. The primary eligible project categories focus upon zero- and near-zero-emission vehicles and their supporting infrastructure, with a few additional categories open to the smallest jurisdictions. Four applications have been received to date requesting a total of \$217,541. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL OF FOUR AWARDS TOTTALLING \$217,541, AS DESCRIBED IN THE ATTACHED STAFF REPORT.**

13. Consider Work Plans Received under the CTC Partnership Program

Lynn
p. 75

As an element of their FYs 2016-18 Work Program, the MSRC allocated \$8,000,000 for a program to partner with the region's County Transportation Commissions (CTCs) to implement transportation-related air quality improvement projects within their respective jurisdictions. The MSRC approved a solicitation document in November 2017 seeking work plans from CTCs to partner with the MSRC. \$2,000,000 is reserved for each CTC. To date, two work plans requesting a total of \$2,000,000 have been received from Riverside County Transportation Commission (RCTC): \$1,500,000 for a new Vanpool Subsidy Program and \$500,000 for new weekend Freeway Service Patrols. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL OF TWO AWARDS TALLING TO \$2,000,000 TO RCTC.**

OTHER BUSINESS

14. **Any member of the committee, on his or her own initiative or in response to questions posed by the public, may ask a question for clarification, may make a brief announcement or report on his or her own activities, provide a reference to staff regarding factual information, request staff to report back at a subsequent meeting concerning any matter, or may take action to direct staff to place a matter of business on a future agenda. (Govt. Code Section 54954.2)*

Pettis
p. 82

PUBLIC COMMENT PERIOD - (Public Comment on Non-Agenda Items, Pursuant to Government Code Section 54954.3)

Members of the public may address this body concerning any agenda item before or during consideration of that item (Govt. Code Section 54954.3(a)). All agendas for regular meetings are posted at District Headquarters, 21865 Copley Drive, Diamond Bar, California, at least 72 hours in advance of a regular meeting. At the end of the regular meeting agenda, an opportunity is also provided for the public to speak on any subject within the MSRC's authority. Speakers may be limited to three (3) minutes each.

ADJOURNMENT

NEXT MEETING: Date: February 15, 2017, 2:00 p.m., Room CC8

Americans with Disabilities Act

The agenda and documents in the agenda packet will be made available, upon request, in appropriate alternative formats to assist persons with a disability (Govt. Code Section 54954.2(a)). Disability-related accommodations will also be made available to allow participation in the MSRC meeting. Any accommodations must be requested as soon as practicable. Requests will be accommodated to the extent feasible. Please contact Penny Shaw Cedillo at (909) 396-3179 from 7:00 a.m. to 5:30 p.m., Tuesday through Friday, or send the request to pcedillo@aqmd.gov.

Pursuant to SB 343

All documents (i) constituting non-exempt public records, (ii) relating to an item on an agenda for a regular meeting, and (iii) having been distributed to at least a majority of the Committee after the Agenda is posted, are available prior to the meeting for public review at the South Coast Air Quality Management District, Public Information Center, 21865 Copley Drive, Diamond Bar, CA 91765.

Contacts: Cynthia Ravenstein, MSRC Contracts Administrator - (909) 396-3269
Ray Gorski, MSRC Technical Advisor – (909) 396-2479
Penny Shaw Cedillo, MSRC Administrative Liaison – (909) 396-3179

AGENDA ITEM #2

Summary of Final Reports by MSRC Contractors

MSRC Agenda Item No. 2

DATE: January 18, 2018
FROM: Ray Gorski, MSRC Technical Advisor
SUBJECT: Final Reports Received and Reviewed

DISCUSSION: Two final reports were submitted for MSRC review and approval during November and December 2017:

- SCRRRA (Metrolink), MS16100 - \$80,455 - Provide Metrolink Service to Auto Club Speedway;
- Transit Systems Unlimited, Inc., MS16088 - \$17,000 – Expansion of Existing CNG Station

The MSRC-TAC has reviewed the above Final Reports and recommends approval.

Project Name: Special Train Service to the Auto Club Speedway
Project Implementer: Southern California Regional Rail Authority
Contract Number: MS16100
Contract Amount: \$80,455

Project Description: Discussion: SCRRRA and the Auto Club Speedway partnered to provide special Metrolink train service on behalf of Southern California race fans, encouraging use of public transportation resulting in a reduction of automobile trips and traffic congestion. Fans have experienced delays of up to several hours leaving the main parking lot at the Speedway after the event has concluded. Offering free special train service to the Speedway provided a financial incentive to encourage use of public transportation to race fans attending a major event destination and use alternative transportation. Through the use of MSRC Clean Transportation Funding™, major event venues such as the Auto Club Speedway and Metrolink as a transportation provider will continue to change behavior of Southern California drivers.

The scope of the special Metrolink trains to the Auto Club Speedway for the March 26, 2017 race was the same as the 2016 operations plan. Special Metrolink trains provided NASCAR fans the opportunity to leave their cars at home and utilize public transportation to the Speedway. Three routes were identified based on prior ticket sales provided by the

Speedway. The selected routes were from Lancaster, Oxnard and Oceanside to the Speedway on dedicated Metrolink trains. The Lancaster route stops included Lancaster, Santa Clarita, Sylmar/San Fernando, Burbank, and Los Angeles Union Station to the Speedway. The Oxnard route stops included Oxnard, Moorpark, Chatsworth, Van Nuys, Covina, Montclair, and Rancho Cucamonga to the Speedway. The Oceanside route started at Oceanside, with stops at San Clemente, Irvine, Orange, Riverside-La Sierra, and San Bernardino to the Speedway. Total seat availability was 1,750 seats.

Metrolink and the Auto Club Speedway continue to focus on increasing train ridership, resulting in more vehicle trips removed for the annual NASCAR event. In 2017, Metrolink and the Auto Club Speedway continued with the ridership strategy of offering limited free rides on

Metrolink as part of a NASCAR ticket package. Metrolink and the Auto Club Speedway began planning for the special train service in late fall 2016. Upon approval of the MSRC award in October 2016, the Auto Club Speedway began offering the special train service to the Auto Club 400 NASCAR race free of charge in lieu of ticket sales to increase awareness of Metrolink service, and expose race guests to an alternative transportation option instead of driving. The Auto Club Speedway opted to use the monies from the train ticket sales to increase their promotional efforts to encourage vehicle drivers to take the train to the race. NASCAR ticket sales traditionally start slow and pick up in the two months before the race date.

The Auto Club Speedway committed their support and resources to increase the marketing and advertising to \$185,000 in 2016 for the special train service. Metrolink also committed to a co-funding amount of \$80,000 for marketing and advertising efforts. Targeting a younger demographic of NASCAR fans, social media efforts were increased for the 2016 race with paid media to expand the advertising reach for the special train service. Both

Metrolink and the Auto Club Speedway used Facebook, Twitter and Instagram to reach the racing audience with the free Metrolink ticket offer. All customers who purchased online NASCAR tickets were offered the free Metrolink train ride offer. The Auto Club Speedway leveraged their print advertising buys in local publications to promote the Metrolink train service and mentioned the Metrolink service in media opportunities.

The Metrolink Operations and Equipment departments confirmed availability of equipment and train crews to operate the special train schedules for the March 26th race. Based on tickets sales in 2016, the same train schedule was proposed for the 2017 race with three trains originating from Lancaster, Oxnard and Oceanside with 15 intermediate stops to drop fans off just outside the Auto Club Speedway gates.

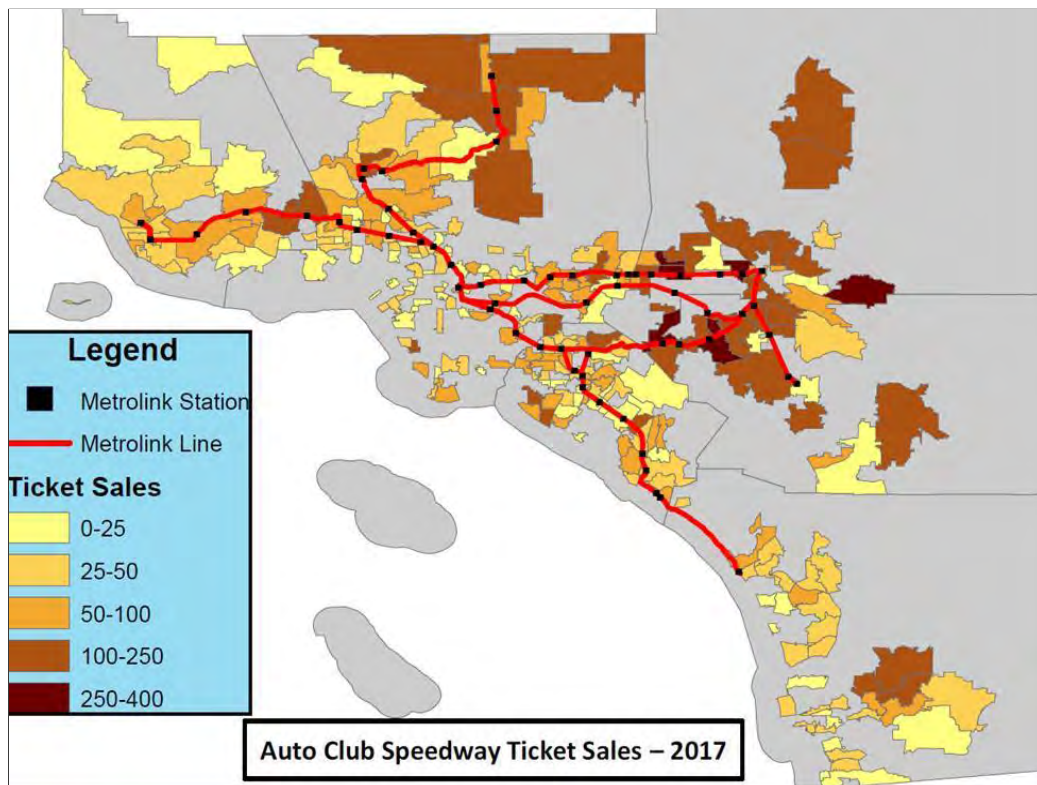

Metrolink customer service staff accompanied each special train to assist race fans during their trip. Once passengers arrived at the Speedway, the Auto Club Speedway provided dedicated Metrolink trams to transport race guests from the train platform to the race entrance promoting a seamless connection. Race fans returning to the Metrolink trains were assisted by customer service staff to board the correct train. Metrolink Sheriffs checked train tickets and rode the trains back with fans to ensure a safe trip home.

Project Results: The following Table shows special train ridership for years 2015, 2016, and 2017. Ridership was down approximately 5% from last year and approximately 9% from 2015 ridership levels.

Special Train Service Ridership Comparison – 2015-2017

Route	2017	2016	2015
Oxnard	1,020	994	963
Oceanside	876	883	1,063
Lancaster	670	773	818
Total Ridership	2,566	2,695	2,844

Below is the geo-map showing the 2017 Auto Club Speedway ticket sales by zip codes for the special train service. The map covers the 6-county Metrolink service area along our 3 routes to the Auto Club Speedway race. Metrolink provides a regional service to a major event center reducing traffic congestion along the local streets and along the 1-10, I-15 and I-201 freeway arterials. Using this data, we can geo-target NASCAR fans through social media outlets to promote the special train service.

In 2018, Metrolink will operate Tier 4 locomotives only to the Auto Club Speedway race. It will be the first time Tier 4 locomotives will be used to provide service to a Major Event Transportation Center for the Auto Club 400 NASCAR race in March. The MSRC is currently considering co-funding the 2018 race event. As noted in the Final Report, the South Coast Air Quality Management District played a major role with funding for the Tier 4 locomotives.

New Tier 4 Metrolink Locomotive

Project Name: Expansion of an Existing Compressed Natural Gas Refueling Station
Project Implementer: Transit Systems Unlimited, Inc.
Contract Number: MS16088
Contract Amount: \$17,000

Project Description: The objective of the Transit Systems Unlimited (TSU) CNG station expansion project was to install a second Type A approved CNG dispenser unit. This additional dispenser affords TSU the ability to allow station access to other operators of CNG vehicles and expands the throughput on the existing station, improving overall station economics. A Type-approved dispenser is required per the requirement of the Los Angeles Weight and Measures Department.

The project consisted of pouring a foundation, installing the high pressure tubing to the dispenser unit, securing the Kraus Global dispenser, and programming the unit.

Problems Encountered - There were no problems encountered. The experience of having installed one dispenser already was helpful in the quick setup of a second one.

Emissions Benefits - Transit Systems Unlimited has now operates over 90 pieces of equipment that run on dedicated CNG. The availability of a second dispenser in the Sun Valley area provides the community convenient access to CNG. Without the second dispenser, users would have to have drive to Burbank to access the closest publicly accessible CNG station.

Photographs & Outreach - Marketing of TSU's expanded publicly accessible CNG availability was via the TSU website www.transitsystems.biz under "What's New". Transit Systems Unlimited made the decision to be proactive and offer great customer service with additional safety in mind. This was accomplished by the hiring of full time service attendants that would fuel the equipment, therefore avoiding user error issues and potential injuries. At the same time, the service attendants would make the operators feel at home by offering them a drink or snack from our vending machines at no charge. The result was an increase in use that sometimes had six to seven pieces of equipment waiting to be fueled. The facilities also offered two bathrooms that we kept clean, and I am sure that helped as well.

AGENDA ITEM #3

MSRC Contracts Administrator's Report

MSRC Agenda Item No. 3

DATE: January 18, 2018

FROM: Cynthia Ravenstein

SUBJECT: AB 2766 Contracts Administrator's Report

SYNOPSIS: This report covers key issues addressed by MSRC staff, status of open contracts, and administrative scope changes from October 26, 2017 to January 3, 2018.

RECOMMENDATION: Receive and file report

WORK PROGRAM IMPACT: None

Contract Execution Status

2016-18 Work Program

On July 8, 2016, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On October 7, 2016, the SCAQMD Governing Board approved three awards under the Event Center Transportation Program and one award for a Regional Active Transportation Partnership Program. These contracts are with the prospective contractor for signature or executed.

On January 6, 2017, the SCAQMD Governing Board approved an award for development, hosting and maintenance of a new MSRC website. This contract is executed.

On April 7, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On June 2, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is with the prospective contractor for signature.

On July 7, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On September 1, 2017, the SCAQMD Governing Board approved one award under the Event Center Transportation Program and one award under the Natural Gas Infrastructure Program. These contracts are with the prospective contractor for signature.

On October 6, 2017, the SCAQMD Governing Board approved two awards under the Event Center Transportation Program and one award under the Natural Gas Infrastructure Program. These contracts are under development or undergoing internal review.

On December 1, 2017, the SCAQMD Governing Board approved sole source awards for a Hydrogen Infrastructure Partnership Program, for a Southern California Future Communities Partnership Program, and for electric vehicle charging infrastructure planning analysis. They also approved an option to extend the contract with the Better World Group for MSRC programmatic outreach services. These contracts are under development or undergoing internal review. The SCAQMD Governing Board also approved an Invitation to Negotiate for a CTC Partnership Program.

2014-16 Work Program

On December 5, 2014, the SCAQMD Governing Board approved an award under the AB118 Enhanced Fleet Maintenance Program. This contract is executed.

On June 5, 2015, the SCAQMD Governing Board approved two awards under the Event Center Transportation Program and one award to provide low-emission transportation services to the Special Olympics World Games. These contracts are executed.

On September 4, 2015, the SCAQMD Governing Board approved 25 awards under the Local Government Match Program and one award under the Transportation Control Measure Partnership Program. These contracts are executed.

On October 2, 2015, the SCAQMD Governing Board approved 11 awards under the Local Government Match Program and one award under the Alternative Fuel Infrastructure Program. These contracts are executed.

On November 6, 2015, the SCAQMD Governing Board approved 37 awards under the Local Government Match Program. These contracts are with the prospective contractor for signature or executed.

On December 4, 2015, the SCAQMD Governing Board approved one award under the Major Event Center Transportation Program, one award under the Alternative Fuel Infrastructure Program, and one award under the Transportation Control Measure Partnership Program. These contracts are executed.

On January 8, 2016, the SCAQMD Governing Board approved two awards under the Major Event Center Transportation Program, one award under the Local Government Match Program, and one award under the Transportation Control Measure Partnership Program. These contracts are executed.

On March 4, 2016, the SCAQMD Governing Board approved two awards under the Alternative Fuel Infrastructure Program. These contracts are executed.

On April 1, 2016, the SCAQMD Governing Board approved one award under the Major Event Center Transportation Program and five awards under the Transportation Control Measure Partnership Program. These contracts are executed.

On May 6, 2016, the SCAQMD Governing Board approved one award under the Major Event Center Transportation Program and one award under the Transportation Control Measure Partnership Program. These contracts are executed.

On June 3, 2016, the SCAQMD Governing Board approved one award under the Alternative Fuel Infrastructure Program. This contract is executed.

On October 7, 2016, the SCAQMD Governing Board approved ten awards under the Alternative Fuel Infrastructure Program and five awards under the Near-Zero Natural Gas Engine Incentives Program. These contracts are under development, with the prospective contractor for signature, or executed.

On January 6, 2017, the SCAQMD Governing Board approved an award under the Alternative Fuel Infrastructure Program and an award under the Near-Zero Natural Gas Engine Incentives Program. These contracts are executed.

Work Program Status

Contract Status Reports for work program years with open (including “Open/Complete”) and/or pending contracts are attached.

FY 2004-05 Work Program Contracts

One contract from this work program year is open.

FY 2004-05 Invoices Paid

No invoices were paid during this period.

FY 2006-07 Work Program Contracts

No contracts from this work program year are open; and one is in “Open/Complete” status.

FY 2006-07 Invoices Paid

No invoices were paid during this period.

FY 2007-08 Work Program Contracts

4 contracts from this work program year are open; and 4 are in “Open/Complete” status.

FY 2007-08 Invoices Paid

No invoices were paid during this period.

FY 2008-09 Work Program Contracts

2 contracts from this work program year are open; and 5 are in “Open/Complete” status. Three contracts closed during this period: City of Los Angeles, Dept of Public Works, Contract #ML09023 – Purchase 2 Heavy-Duty Natural Gas Vehicles; City of Los Angeles, Dept of General Svcs, Contract #ML09031 – Purchase 33 Heavy-Duty Natural Gas Vehicles; City of Los Angeles, DWP, Contract #ML09042 – Purchase 56 Heavy-Duty Natural Gas Vehicles.

FY 2008-09 Invoices Paid

No invoices were paid during this period.

FY 2010-11 Work Program Contracts

7 contracts from this work program year are open; and 36 are in “Open/Complete” status.

FY 2010-11 Invoices Paid

1 invoice totaling \$9,749.50 was paid during this period.

FY 2011-12 Work Program Contracts

15 contracts from this work program year are open, and 33 are in “Open/Complete” status.

FY 2011-12 Invoices Paid

1 invoice totaling \$30,000 was paid during this period.

FYs 2012-14 Work Program Contracts

39 contracts from this work program year are open, and 23 are in “Open/Complete” status. One contract moved into “Open/Complete” status during this period: City of Fullerton, Contract #ML14028 – Expansion of existing CNG infrastructure.

FYs 2012-14 Invoices Paid

No invoices were paid during this period.

FYs 2014-16 Work Program Contracts

81 contracts from this work program year are open, and 13 are in “Open/Complete” status.

FYs 2014-16 Invoices Paid

8 invoices totaling \$627,564.90 were paid during this period.

FYs 2016-18 Work Program Contracts

5 contracts from this work program year are open.

FYs 2016-18 Invoices Paid

No invoices were paid during this period.

Administrative Scope Changes

4 administrative scope changes were initiated during the period of October 26, 2017 through January 3, 2018:

- City of Pomona, Contract #ML16008 (Purchase Four Medium-Duty and Nine Heavy-Duty Natural Gas Vehicles) – Reduced scope to the purchase of three medium-duty and one heavy-duty vehicles, reduced value from \$310,000 to \$60,000, plus twelve-month term extension
- American Honda Motor Co., Inc., Contract #MS14078 (Install Public Access CNG Station) – citing insurmountable obstacles to public access, Honda requested to return the funds.
- City of Ontario, Contract #ML16056 (Expand CNG Station) – One-year no-cost term extension
- City of Highland, Contract #ML14055 (Bicycle Lanes & Outreach) – One-year no-cost term extension

AGENDA ITEM #5

Modified 2018 MSRC-TAC Meeting Schedule

MSRC Agenda Item No. 5

DATE: January 18, 2018

FROM: Penny Shaw Cedillo

SUBJECT: 2018 Revised Meeting Schedule

SYNOPSIS: Annually the MSRC considers a proposed meeting schedule for the upcoming year. The schedule continues with meetings on the first and third Thursdays, respectively, for the MSRC-TAC and MSRC, with two exceptions. Staff recommends the MSRC-TAC meeting in January and December be held on the second Thursday of the month to avoid a conflict with the holidays.

RECOMMENDATION(S):

The MSRC-TAC recommends adoption of the revised 2018 meeting schedule.

WORK PROGRAM IMPACT: Not applicable.

BACKGROUND:

See Synopsis

ATTACHMENT:

Revised 2018 Meeting Schedule

REVISED 2018 MEETING SCHEDULE

TAC Meeting Dates

Thursday, January 11
(second Thursday)

Thursday, February 1

Thursday, March 1
(at 2:30 p.m., followed by MSRC-TAC Dinner)

Thursday, April 5

Thursday, May 3

Thursday, June 7

Thursday, July 5

Thursday, August 2

Thursday, September 6

Thursday, October 4

Thursday, November 1

Thursday, December 13
(second Thursday)

MSRC Meeting Dates

Thursday, January 18

Thursday, February 15

Thursday, March 15

Thursday, April 19

Thursday, May 17

Thursday, June 21

Thursday, July 19

Thursday, August 16

Thursday, September 20

Thursday, October 18

Thursday, November 15

Thursday, December 20

All regularly scheduled MSRC-TAC meetings are held on the first Thursday of every month at 1:30 p.m. in Conference Room CC8, unless otherwise noted. All regularly scheduled MSRC meetings are held on the third Thursday of every month at 2:00 p.m. in Board Conference Room CC8, unless otherwise noted.

Meeting agendas can be viewed on the MSRC's website at <http://www.cleantransportationfunding.org/>.

AGENDA ITEM #6

Contract Modification Request by
City of Beverly Hills

MSRC Agenda Item No. 6

DATE: January 18, 2018

FROM: Cynthia Ravenstein

SUBJECT: Eight-Month No-Cost Term Extension by City of Beverly Hills, Contract #ML09033

SYNOPSIS: The City requests an eight-month contract term extension as part of the FY 2008-09 Local Government Match Program due to delays associated with the City's replacement schedule.

FINANCIAL IMPACT: None

RECOMMENDATIONS: The MSRC-TAC considered the request and recommends approval

ATTACHMENTS: Contractor's letter requesting modification

DISCUSSION:

Contractor: City of Beverly Hills

Project Title: Purchase 10 Heavy-Duty CNG Vehicles and Install CNG Station

MSRC Funding: \$550,000

Project Term: March 4, 2011 to May 3, 2018

Current Request: Eight-month term extension

Previous Requests: Substitute vehicles; one-year contract term extension

Project Description: The City was awarded funding to install a limited-access CNG station and purchase 10 heavy-duty CNG vehicles: three refuse trucks, one dump truck, one water vacuum truck, and five street sweepers. Contract #ML09033 was executed to effectuate the award, and subsequently modified to substitute refuse trucks for the dump truck and one of the street sweepers. \$100,000 has been paid to date on this contract. All vehicles have been placed into service.

Previous Requests: The City indicated that construction of the CNG station was delayed due to issues encountered during the approval process and award of a contract by City Council, and requested a one-year contract term extension. Later, the City indicated that their vehicle replacement priorities had changed, and requested to substitute two CNG refuse trucks for the dump truck and one of the street sweepers. Both modifications were processed administratively.

Contract Request: The City indicates that their standard practice dictates for vehicles within the same classification and program to be replaced on an alternating schedule, in order to minimize the chances of maintenance and warranty issues taking too much of the fleet out of service at one time. This delayed some of their vehicle purchases so that the last vehicles purchased were not placed into service until December 2013. The City requests an eight-month contract term extension to allow fulfillment of the contract's five-year operational requirement.

Recommendations: The MSRC-TAC considered the request and recommends approval.

Craig Crowder, Fleet Manager
Department of Public Works

October 20, 2017

Cynthia Ravenstein,
Contract Administrator
MSRC
21685 Copley Drive
Diamond Bar, CA 91765

RE: MSRC Contract ML09033 - Request for Contract Extension

Dear Ms. Ravenstein:

The City of Beverly Hills requests an extension to the overall contract term to consider the purchase date and five (5) year term of service for the last CNG refuse vehicles purchased as part of this ten (10) vehicle matrix. Fleet best practice indicates vehicles within the same classification and program be replaced on an alternating schedule in order to alleviate concerns that maintenance and warranty issues occur on similar time tables. The CNG refuse vehicles purchased as part of this matrix were purchased on the following schedule; two (2) in fiscal year 2011, two (2) in fiscal year 2012 and two (2) in fiscal year 2013 in order to uphold this best practice model. The last CNG refuse vehicles purchased as part of this matrix were model year 2013, purchased October 29, 2012 and received and placed into service on December 20, 2013, therefore the contract time frame is requested to be extended until December 20, 2018 to encompass the five (5) year term of service after the vehicle purchase and installation into service.

Sincerely,

A handwritten signature in blue ink, appearing to read "Craig Crowder", is written over the word "Sincerely,".

Craig Crowder, Fleet Manager
Department of Public Works

CC: Shana Epstein, Director of Public Works
Erick Lee, Deputy Director of Public Works

AGENDA ITEM #7

Contract Modification Request by
City of Corona

MSRC Agenda Item No. 7

DATE: January 18, 2018

FROM: Cynthia Ravenstein

SUBJECT: Four-Month No-Cost Term Extension by City of Corona, Contract #ML14019

SYNOPSIS: The City requests a contract term extension until March 6, 2023—approximately four months—as part of the FYs 2012-14 Local Government Match Program due to unexpected delays in Southern California Edison meter installation at two of the EV charging station locations.

FINANCIAL IMPACT: None

RECOMMENDATIONS: The MSRC-TAC considered the request and recommends approval

ATTACHMENTS: Contractor’s letter requesting modification

DISCUSSION:

Contractor: **City of Corona**

Project Title: Install EV Charging and Bicycle Infrastructure

MSRC Funding: \$178,263

Project Term: December 5, 2014 to November 4, 2022

Current Request: 4-month term extension

Previous Requests: 5-month term extension; reduce EV charging locations while increasing capacity, and 2-year contract term extension

Project Description: The City was awarded funding to: install EV charging infrastructure in four locations, capable of charging at least 10 vehicles, as well as to install bicycle racks and lockers. Contract #ML14019 was executed to effectuate the award, and subsequently modified to decrease the number of locations but increase capacity. \$15,468.52, for the installation of bicycle racks and bike lockers, has been paid to date on this contract. The charging stations at two of the four locations were fully installed and operational in October.

Previous Requests: The City indicated that they were experiencing difficulties reaching agreements with some of their proposed station sites. The City therefore proposed to reduce the minimum number of sites to two, but they also proposed to install a greater number of

stations: a total of three “fast” chargers and six dual-hose Level II chargers, providing the ability to charge 15 vehicles in total. Due to the FYs 2012-14 Local Government Match Program’s longer operational requirement for fast chargers, MSRC staff recommended a two-year no-cost contract term extension if the MSRC approved the City’s request. The MSRC approved the request at their September 2015 meeting.

Subsequently, although they were able to secure four locations after all, the City indicated that various tasks took longer than expected. The City requested a five-month no-cost term extension to allow them to complete the work and fulfill the required operational period. The MSRC approved the request at their September 2017 meeting.

Contract Request: Due to unexpected delays in Southern California Edison meter installation at two of the EV charging station locations, two locations are still not operational. The City finds that the extension approved in September is not sufficient to allow meeting operational requirements for these locations. The City requests a four-month no-cost term extension.

Recommendations: The MSRC-TAC considered the request and recommends approval.

Diamond Bar, CA 91765

RE: **Contract No. ML14019 - Request for Contract Term Extension**

Dear Ms. Ravenstein:

The City of Corona Department of Water and Power (DWP) is hereby requesting a ***no-cost term extension to March 6, 2023*** and revision to Attachment 1B - Statement of Work, Project Schedule, to reflect an additional four (4) months for completion of the following tasks: 1) Complete EV station installation and enter into service, 2) Implement Public Outreach Plan, and 3) Final Report.

As previously reported with the no-cost extension request submitted by the City in August, there have been several unanticipated delays with the installation of the new electric vehicle charging stations. In August, the project manager projected that a five-month extension to November 15, 2017 would give the City and its contractors sufficient time to complete installation of the charging stations and enter them into service. While the stations at two of the four locations were fully installed and operational in October, the stations at the other two locations (City Hall and Corporation Yard) are installed but not yet operational. The City and its contractor completed installation and all other associated work; however Southern California Edison is not able to complete the final meter installation for these chargers until December 19th. Because of this, the City will not be able to meet the deadline for completing Public Outreach and submitting the Final Report.

This extension would allow the City to complete all work required under the contract, and to fulfill the five-year operational requirement. The City would appreciate the opportunity to fully comply with the terms of the contract, and is grateful for the SQAMD's consideration of this request.

Cynthia Ravenstein

If you have any questions regarding this request, please contact Tracy Martin (951-817-5880; email tracy.martin@CoronaCA.gov) or me (951-739-4983; email Jacqueline.zukeran@CoronaCA.gov).

Sincerely,

Jacqueline Zukeran

AGENDA ITEM #8

Contract Modification Request by
City of Long Beach

MSRC Agenda Item No. 8

DATE: January 18, 2018

FROM: Cynthia Ravenstein, MSRC Contracts Administrator

SUBJECT: Modified Statement of Work by City of Long Beach, Contract #ML16017

SYNOPSIS: The City requests to increase the total number of vehicles to be purchased, and to substitute a number of specific vehicles. The contract calls for the purchase of 48 medium-duty and 16 heavy-duty vehicles. The City now proposes to purchase 50 medium-duty and 19 heavy-duty vehicles, with no change to the overall funding amount, as part of the FYs 2014-16 Local Government Match Program, due to changes in the City's vehicle replacement schedule.

FINANCIAL IMPACT: None

RECOMMENDATIONS: The MSRC-TAC reviewed the request and recommends approval

ATTACHMENTS: Contractor's letter requesting modification

DISCUSSION:

Contractor: City of Long Beach

Project Title: Purchase 48 Medium-Duty and 16 Heavy-Duty Natural Gas Vehicles and Install CNG Station

MSRC Funding: \$1,445,400

Project Term: February 2, 2016 to August 4, 2023

Current Request: Increase number of vehicles and substitute vehicles

Previous Requests: None

Project Description: The City was awarded funding to purchase 48 medium-duty and 16 heavy-duty natural gas vehicles and install a CNG Station. Contract #ML16017 was executed to effectuate the award. \$809,643 has been paid to date on this contract; the CNG station and 25 vehicles have been placed into service.

Contract Request: The City indicates that due to changes in their vehicle replacement schedule, in addition to manufacturer production changes, the City wishes to make several changes to the list of vehicles to be purchased. Additionally, the substitutions are not strictly one-for one. The contract calls for the purchase of 48 medium-duty and 16 heavy-duty vehicles. The City now proposes to purchase 50 medium-duty and 19 heavy-duty vehicles, with no change to the overall funding amount. They understand that they would be accepting a lower per-vehicle incentive in some cases. All the proposed substitute vehicles meet FYs 2014-16 Local Government Match Program requirements.

Recommendations: The MSRC-TAC reviewed the request and recommends approval.

CITY OF LONG BEACH

Mobile Air Source Pollution Reduction Review Committee
South Coast Air Quality Management District (SCAQMD)
21865 East Copley Drive
Diamond Bar, CA 91765

Re: Contract #ML 16017 – Sixth Quarter Report and Grant Modification Request

Dear Ms. Ravenstein:

The City of Long Beach hereby submits its sixth quarterly report for grant funds under the MSRC Local Government Match Program 2015.

Construction of the CNG fuel station is now complete and funding of \$500,000 for the station CNG compressor unit has been received. A press release showing the station in operation was published on August 31st, 2017 and a link to the website posting was sent to you via email by Patti Mobile on September 1st.

The grant provides funding of \$945,400 for acquisition of CNG-fueled vehicles. We submitted and received payment for \$269,642.73 in previous quarters. We are now submitting a request for payment for three vehicles placed into service during the last quarter (see attached invoice) for \$40,000. The total amount billed is now \$309,642.73 with a remaining balance of \$635,757.27.

Due to changes in the vehicle replacement schedule, in addition to manufacturer production changes, the City of Long Beach is submitting a revised vehicle list. All of the vehicles have funding allotment from the AB2766 program to assist with the incremental cost of CNG unit purchases. We are submitting a spreadsheet to show the vehicles that have already received funding under this grant program, units that have been removed, units in the original list that are pending purchase, and new units that were not in the original grant submittal, but have been purchased with AB2766 funds or are scheduled for future purchase with AB2766 funds. We are also submitting the new vehicle list for review and approval for the first amendment to Grant ML 16017. Should further changes to vehicle models, sizes or operational uses be needed, we will notify you and work with the MSRC to revise the grant agreement again.

Page 2
MSRC 6th Quarter Report and Grant Modification Request

Should you need any additional documentation to process our grant modification request, please contact Patti Mobile, Administrative Analyst. She can be reached at (562) 570-5403 or via email at patti.mobile@longbeach.gov. She will work with you to ensure that processing of our request will move forward.

We look forward to working together to clean the air in California.

Regards,

Dan Berlenbach, Manager
Fleet Services Bureau

AGENDA ITEM #9

Contract Modification Request by
San Bernardino County Transportation Authority

MSRC Agenda Item No. 9

DATE: January 18, 2018

FROM: Cynthia Ravenstein

SUBJECT: Two-Year No-Cost Term Extension by San Bernardino County Transportation Authority (SBCTA), Contract #MS14072

SYNOPSIS: SBCTA (formerly San Bernardino Associated Governments) requests a two-year term extension due to delays in the modification of signals at three intersections, which must be completed before interconnecting the traffic signals, as part of the FYs 2012-14 Signal Synchronization Partnership Program.

FINANCIAL IMPACT: None

RECOMMENDATIONS: The MSRC-TAC reviewed the request and recommends approval

ATTACHMENTS: Contractor’s letter requesting modification

DISCUSSION:

Contractor: San Bernardino County Transportation Authority

Project Title: Signal Synchronization Partnership Program

MSRC Funding: \$1,250,000

Project Term: March 27, 2015 to March 26, 2018

Current Request: Two-year term extension

Previous Requests: None

Project Description: SBCTA was awarded funding to implement a variety of signal synchronization and modification projects in partnership with cities and Caltrans. Nothing has been paid to date. Work on the various project elements is in various stages of completion, with some nearly operational, but nothing has been fully completed to date.

Contract Request: One of the project elements, the Mt. Vernon Avenue/Washington Street project in partnership with the City of Colton, will install new communications equipment allowing 14 signals to communicate with the City’s central traffic management center. SBCTA indicates that the signals at three of the affected intersections first need to be modified, as part of a separate project not funded by the MSRC, before the new equipment can be installed. The

signal modification project has encountered funding issues. Therefore, SBCTA requests a two-year contract term extension while they work with Caltrans.

If the MSRC approves the modification, MSRC staff recommends that the contract be modified to reflect the change from San Bernardino Associated Governments to SBCTA.

Recommendations: The MSRC-TAC reviewed the request and recommends approval, including the name change.

December 11, 2017

Re: Mt Vernon Ave – Washington St. Traffic Signal Interconnect Project

Dear Matt,

The design of the project is 100% complete but can't be advertised for bid due to the delay encountered on the traffic signal modification project funded by Highway Safety Improvement Program (HSIP). Three of the six intersections along Mt. Vernon Avenue (Cooley, Santo Antonio and Centerpoint Drive) are part of the signal modification and the traffic signal upgrades need to be completed before implementation of the traffic signal interconnect project.

The traffic signal modification project already has been bid and we are working diligently with Caltrans to resolve the funding issue. Due to this delay, we are requesting MSRC to extend the funding term by an additional twenty-four months.

Please feel free to contact me at 909-709-5453 if you need additional information.

Sincerely,

A handwritten signature in black ink, appearing to read 'Cameron Brown', with a long horizontal flourish extending to the right.

Cameron Brown
Senior Planner
San Bernardino County Transportation Authority

AGENDA ITEM #10

Consider Applications Received Under the
Natural Gas Infrastructure Program

MSRC Agenda Item No. 10

DATE: January 18, 2018

FROM: John Kato, Chair, Infrastructure Subcommittee

SUBJECT: Consider Funding for Application Received under the Natural Gas Infrastructure Program

SYNOPSIS: As an element of their FYs 2016-18 Work Program, the MSRC allocated \$4.0 million of **Clean Transportation Funding™** for the implementation of new and expanded CNG and LNG refueling stations, modification of maintenance facilities to accommodate gaseous-fueled vehicles, and technician training. A Program Announcement, #PA2017-07, was developed and released on June 2, 2017, with a final submission deadline of June 29, 2018. Projects are to be considered throughout the application submission period on a first-come, first-served basis.

The MSRC has previously awarded a total of \$118,500. Two additional applications have been received, requesting \$300,000. The MSRC-TAC Infrastructure Subcommittee reviewed the applications and recommended approval.

RECOMMENDATION: The MSRC-TAC considered, and recommends approval of, the application from the City of Banning requesting \$225,000, and the application from the City of Norwalk requesting \$75,000, in **Clean Transportation Funding™**.

FISCAL IMPACT **Clean Transportation Funding™** for the Alternative Fuel Infrastructure Program awards is an element of the MSRC's FYs 2016-18 Work Program. If the MSRC approves the recommended award, \$3,581,500 will remain available to meet geographical funding minimums.

BACKGROUND: As an element of their FYs 2016-18 Work Program, the MSRC allocated \$4.0 million of **Clean Transportation Funding™** for the implementation of new and expanded CNG and LNG refueling stations, modifications to maintenance facilities, and technician training. A Program Announcement, #PA2017-07, was developed and released on June 2, 2017. The

Program Announcement set a final submission deadline of June 29, 2018. Projects are to be considered throughout the application submission period on a first-come, first-served basis.

The Program Announcement includes the following Requirements and Conditions:

- **Allowable Project Categories** – For the purpose of this solicitation, allowable alternative fuels include CNG, LNG, and liquefied/compressed natural gas (L/CNG). Funding is available for the following Alternative Fuel Infrastructure project categories:
 - New construction alternative fuel refueling stations
 - Alternative fuel refueling station upgrade and expansion projects. For the purpose of this solicitation, all upgrade and expansion projects must result in an increase fuel throughput and increased station utilization.
 - Modification of existing facilities used for vehicle maintenance and repair
 - Training of technicians in the maintenance of natural gas-fueled vehicles and infrastructure

- **Incentive Levels** – In no case could an MSRC funding award exceed 50% of the combined cost of the station/upgrade capital equipment, site construction, signage, and reasonable project management costs. The incentive levels available also vary as a function of the type of infrastructure proposed and type of entity requesting funding assistance. The following maximums apply:

Entity	Fuels	Limited Access	Public Access	Facility Mods	Technician Training	Renewable Natural Gas
Private	Single Fuel	\$100,000	\$150,000	\$75,000	\$15,000	\$100,000
	Multi-Fuel	\$150,000	\$200,000			
Public	Single Fuel	\$175,000	\$225,000			\$100,000
	Multi-Fuel	\$225,000	\$275,000			

- **Other Funding Provisions** – To ensure broad-based participation, the MSRC has established the following parameters:
 - A geographical funding minimum amount has been set at \$500,000 for each county within the SCAQMD. This guarantees a minimum level of funding for each county to implement alternative fuel infrastructure projects.
 - The maximum total funding award to any public or private entity under this solicitation shall not exceed 20% of the total Available Funding. This maximum funding restriction can be waived by the MSRC in the event the MSRC does not receive meritorious applications from other applicants that meet or exceed 80% of the total available funds, or if the MSRC allocates additional funds to the program.

ASSESSMENT OF APPLICATIONS RECEIVED:

Two additional applications have been received and reviewed by the Infrastructure Subcommittee. As specified in the Program Announcement, the following ranking methodology was used:

1. Determine compliance with all mandatory requirements - The applications were first evaluated for compliance with minimum requirements. The proposed projects were found to meet all the requirements set forth in the Program Announcement.
2. Meet geographical funding minimums – As noted above, the Program Announcement established a funding minimum of \$500,000 per county. While the County geographic minimums have not yet been met, because the Program is not yet fully subscribed, \$1,581,500 can be reserved for this purpose without any need to delay consideration of other awards.
3. Ensure all eligible “first day” applications receive funding – This requirement was previously met.

RECOMMENDATIONS: The MSRC-TAC considered the recommendations of its Infrastructure Subcommittee and recommends funding of two applications as shown in Table 1.

Table 1: Alternative Fuel Infrastructure Funding Recommendations

Prop. No.	Proposer	MSRC Request	Cumulative	Project County	Notes
3	City of Banning	\$225,000	\$225,000	Riverside	Expand public access CNG station
4	City of Norwalk	\$75,000	\$300,000	Los Angeles	Modify maintenance facility

NEXT STEPS: Following review and approval by the MSRC, the funding award will be forwarded to the SCAQMD Board for consideration at their February 2018 meeting.

AGENDA ITEM #11

Consider Application Received Under the
Major Event Center Transportation Program

MSRC Agenda Item No. 11

DATE: January 18, 2018

FROM: Kelly Lynn, MSRC-TAC TCM Subcommittee Chair

SUBJECT: Consider funding award of \$87,764 in MSRC **Clean Transportation Funding™** under the FY 2017-'18 Major Event Center Transportation Program for Implementation of Special Train Service to the Auto Club Speedway.

SYNOPSIS: In response to MSRC Program Announcement PA2017-05, Major Event Center Transportation Programs, one additional proposal has been received and reviewed by the MSRC-TAC TCM Subcommittee. The Auto Club Speedway and Metrolink request funding to implement Special Train Service for the 2018 Auto Club 400 NASCAR race to be held on March 18, 2018. The amount requested is \$87,764.

RECOMMENDATION: The MSRC-TAC recommends the Auto Club Speedway – Metrolink Special Train Service project be awarded \$87,764 in MSRC **Clean Transportation Funding™**.

WORK PROGRAM IMPACT: **Clean Transportation Funding™** to co-fund the recommended Event Center project would be allocated from the FY 2016-'18 MSRC Discretionary Fund.

Auto Club Speedway and Metrolink Special Train Service – Overview

The Auto Club Speedway is a motorsports event center located halfway between Los Angeles and Palm Springs in unincorporated San Bernardino County. The Speedway borders touch the cities of Fontana, Rancho Cucamonga, and Ontario with close access to the I-10, I-210 and I-15 freeways. The 563 acre facility can accommodate more the 100,000 guests and has approximately 27,000 paved parking spaces.

The Auto Club Speedway will host the NASCAR Sprint Cup Series on Sunday, March 18, 2018. The NASCAR Sprint Cup Series event typically draws crowds in excess of 100,000. Due to its location and proximity to local highways, the Speedway works in conjunction with the County of San Bernardino and the cities of Fontana, Ontario, and Rancho Cucamonga to implement traffic strategies that manage the high volume of traffic during the major event weekend.

SCRRA, in partnership with the Auto Club Speedway, is proposing to implement dedicated Metrolink rail service during the NASCAR Spring Cup Series weekend. Metrolink and the Auto Club Speedway propose

to use the same schedule as the 2017 race. Special trains will originate out of Oceanside with station stops at San Clemente, Irvine, Orange, Riverside-La Sierra, and San Bernardino; Oxnard with station stops at Moorpark, Chatsworth, Van Nuys, Covina, Montclair, and Rancho Cucamonga; and from Lancaster with station stops at Santa Clarita, Sylmar/San Fernando, Downtown Burbank, and Los Angeles Union Station; and from with a final stop at the Speedway station. The proposed schedule is shown below:

Line	Station	Departure Time
Oceanside Route #1	Oceanside	6:10 AM
	San Clemente	6:34 AM
	Irvine	6:56 AM
	Orange	7:13 AM
	La Sierra	7:58 AM
	Riverside	8:10 AM
	San Bernardino	8:40 AM
	Speedway	9:10 AM
Oxnard Route #2	Oxnard	6:15 AM
	Moorpark	6:35 AM
	Chatsworth	7:00 AM
	Van Nuys	7:12 AM
	Covina	8:15 AM
	Montclair	8:35 AM
	Rancho Cucamonga	8:50 AM
	Speedway	9:15 AM
Lancaster Route #3	Lancaster	6:15 AM
	Santa Clarita	7:15 AM
	Sylmar	7:35 AM
	Burbank	7:50 AM
	L.A. Union Station	8:25 AM
	Speedway	9:35 AM

As passengers arrive at the Speedway station, they will disembark the train and walk to the Speedway tram pickup area. The Speedway will provide the transit link to the race track with a dedicated tram service. The tram service will start with the arrival of the first Metrolink special train beginning at 9:10 a.m. The headways for the tram service are approximately 10-15 minutes, depending on the passenger load. Each tram can hold up to 80 passengers. During the race, there is tram service operating around the perimeter of the track to service the Metrolink platforms and the surrounding parking lots. At the conclusion of the race, the dedicated tram services pick up Metrolink passengers at a special queue and drop off passengers at the base of the train platforms. Tickets are checked at the Calabash gate before passengers are allowed to board their return train. All three special Metrolink trains will wait up to 60 minutes after the conclusion of the race before departing. The relative locations of Metrolink platform and trams are shown in the following photograph:

Trains

The three Auto Club Speedway special trains will each utilize a Tier 4 locomotive. The Tier 4 locomotive is an EMD F125 engine with up to 57% greater horsepower than previous locomotives. Importantly, these state-of-the-art locomotives reduce particulate matter and nitrogen oxide emissions by up to 85%.

Fares

Metrolink and the Speedway are proposing to offer the special service to the Auto Club 400 NASCAR Free of Charge for 2018. This strategy is intended to increase awareness, expose a greater number of race attendees to the special service, increase demand for the service, and provide greater opportunity to attract sponsorship revenue at a higher rate to offset costs.

Advertising, Marketing, Outreach, and Promotion

Promotions and marketing efforts by both Metrolink and the Auto Club Speedway will include, but not limited to:

- Print Campaign
- Newspaper
- Magazine
- Website
- Newsletters
- Press Release
- Public Relations Event
- Social Media
- Promotional Ticket Packages
- Radio Campaign
- Outdoor Campaign
- Event Marketing
- Military Campaign
- College Campaign

Funding Request: The amount of **Clean Transportation Funding™** requested is \$87,764. This will be matched by co-funding provided by the Auto Club Speedway and Metrolink in an amount not less than \$245,000. Total project cost is \$332,764.

Emission Reduction Benefits: Assuming 2018 ridership levels are consistent with past Auto Club Speedway – Metrolink special train service, this Major Event Center Program will result in direct and tangible emission reductions by eliminating automobile vehicle miles traveled (VMT) and automobile trips. The use of Tier 4 locomotives is essential to achieving reductions in oxides of nitrogen (NOx) and particulate matter emissions.

MSRC-TAC Recommendation: The MSRC-TAC recommends approval of the Auto Club Speedway Metrolink Special Train Service project in the amount of \$87,764.

AGENDA ITEM #12

Consider Applications Received Under the
Local Government Partnership Program

MSRC Agenda Item No. 12

DATE: January 18, 2018

FROM: Stephen Patchan, Chair
MSRC-TAC Local Government Match Subcommittee

SUBJECT: Review FYs 2016-18 Local Government Match Program Applications to Date & Recommend Funding Awards

SYNOPSIS: The MSRC allocated a total of \$21,180,650 of MSRC **Clean Transportation Funding™** to the FYs 2016-18 Local Government Partnership Program. Per the Program Opportunity Notice, each city and county within SCAQMD that participates in the AB 2766 Subvention Fund Program has a funding allocation reserved for its use. While the last day to submit an application is March 2, 2018, applications are to be considered as they are received. To date, the MSRC has received four applications requesting a total of \$217,541.

RECOMMENDATION: The MSRC-TAC recommends approval of four awards in the amount of \$217,541.

FISCAL IMPACT: A total of \$21,180,650 in MSRC Discretionary funding was reserved for the Local Government Partnership Program under the FYs 2016-18 Work Program. If the Subcommittee’s recommendation is approved, \$20,963,109 will remain available.

DISCUSSION: As an element of their FYs 2016-18 Work Program, the MSRC developed and implemented the Local Government Partnership Program. This Program represents a significant departure from prior MSRC programs such as the Local Government Match Program, in that it is not competitive. Each city and county within SCAQMD which participates in the AB 2766 Subvention Fund Program has a pro-rata funding allocation reserved for its use. The Program directly supports the SCAQMD’s 2016 Air Quality Management Plan (AQMP) by focusing MSRC investments on AQMP measures, and local government leadership will be educated on the region’s air quality challenges and the regional blueprint for achieving healthful air. A total of \$21,180,650 in MSRC Discretionary Funds was allocated. The Program offers to co-fund qualifying light-, medium- and heavy-duty zero-emission vehicles; near-zero-emission heavy-duty vehicles; alternative fuel Infrastructure projects; and electric vehicle charging infrastructure. Cities with smaller populations—those who are eligible for a maximum MSRC funding contribution of \$50,000—may propose projects within any of the above categories but also for traffic signal synchronization, bicycle active transportation, and first mile/last mile strategies.

The solicitation mechanism is a Program Opportunity Notice (PON). The PON was released on September 1, 2017 concurrent with SCAQMD Governing Board approval. The application period will close on March 2, 2018.

Four applications have been received to date. The MSRC-TAC considered the recommendations of its Local Match Subcommittee and recommends approval of four awards totaling \$217,541 for the applications shown in Table 1, below.

Table 1 – Eligible Funding Requests

NO	Jurisdiction	Project Type(s)	Funding Request
1	City of Hidden Hills	Light duty zero-emission vehicles and EV charging infrastructure	\$49,999
2	City of Colton	Medium- and heavy-duty zero-emission vehicles	\$67,881
3	City of Signal Hill	EV charging infrastructure	\$49,661
4	City of Desert Hot Springs	Traffic signal synchronization	\$50,000
			\$217,541

A substantial number of local jurisdictions have confirmed their awareness of the Program by e-mail, telephone, or personal conversation. Due to the Program’s requirements for leadership education and project approval, local agencies may experience slightly longer lead times for application submittal than in recent prior Local Government Match Programs. MSRC staff anticipates receipt of a considerable number of applications in January.

AGENDA ITEM #13

Consider Work Plans Received Under the
CTC Partnership Program

MSRC Agenda Item No. 13

DATE: January 18, 2018

FROM: Kelly Lynn, MSRC-TAC TCM Subcommittee Chair

SUBJECT: Application Received under the CTC Partnership Program

SYNOPSIS: As an element of their FY 2016-'18 Work Program, the MSRC allocated \$8.0M to implement projects that have potential to enhance mobility while improving air quality in the South Coast District. The MSRC Program seeks to enter into partnerships with the County Transportation Commissions that have historically taken the lead in implementing mobility improvement strategies. The MSRC has targeted \$2.0M per County in MSRC **Clean Transportation Funding™** to be administered by each county's respective Transportation Commission.

The Riverside County Transportation Commission (RCTC) has submitted an application with two components. The first element is an investment of \$500,000 in MSRC **Clean Transportation Funding™** to implement a new weekend Freeway Service Patrols (FSP). The second element is an investment of \$1,500,000 in **Clean Transportation Funding™** to implement a new Vanpool Subsidy Program.

The MSRC-TAC recommends that the MSRC approve this funding request in the amount of \$2M to co-fund RCTC's FSP and vanpool programs as detailed in the following Staff Report.

WORK PROGRAM IMPACT: The MSRC has allocated \$8.0M in FY 2016-'18 Discretionary Funds to implement the CTC Partnership Program.

PROJECT OVERVIEW: As an element of their FY 2016-'18 Work Program, the MSRC allocated \$8.0M to partner with County Transportation Commissions (CTCs) to implement projects that have high potential to reduce significant numbers of automobile trips or remove impediments to efficient traffic

flow. The Riverside County Transportation Commission (RCTC) has submitted an application for two projects and is seeking MSRC **Clean Transportation Funding™** in the following amounts:

- \$1,500,000 for a new Vanpool Subsidy Program, and
- \$500,000 for new weekend Freeway Service Patrol (FSP) service

The following staff report will describe each of these programs in greater detail.

A. RCTC VANPOOL SUBSIDY PROGRAM

RCTC proposes to utilize \$1.5 million of the MSRC allocated funding to Riverside County to implement a long distance commuter vanpool program. The \$1.5 million MSRC funding request will be used to provide a new vanpool monthly subsidy of 50% of the monthly vanpool lease costs, not to exceed \$400 per month per vanpool. As a result of the MSRC contribution, RCTC anticipates enrolling 224 vanpools (60 CalVans and 164 traditional employer vanpools) by the end of FY 2019-20.

RCTC's new vanpool subsidy program will target long distance commuters that travel more than 30 roundtrip miles per day and a minimum of 12 days per month. The program is patterned after successful vanpool programs implemented by the Los Angeles County Metropolitan Transportation Authority, the Orange County Transportation Authority, the San Diego Association of Governments, the Victor Valley Transit Authority (VVTA), and the SunLine Transit Agency. RCTC will deploy seven to 15 passenger vans and large sport utility vehicles through third-party leasing vendors. The driver and the vanpool's passengers are volunteers and are commuters traveling to and from their worksites. The Federal Transportation Administration (FTA) considers vanpooling a public transportation mode when seven to 15 passenger vehicles are subsidized on an ongoing basis and meet certain FTA public transit requirements. As a public transportation mode, FTA requires the reporting of vanpool ridership data into the National Transit Database (NTD), like other public transit modes.

Work Plan

RCTC has worked closely with neighboring vanpool agencies to understand development and operational approaches for a third party leasing vanpool model, and has learned from these agencies on how to improve the program based on their lessons learned. The vanpool program development and implementation will be very consistent with neighboring programs, and RCTC intends to take a two-pronged approach so as to attract as many vanpool participants to the program as possible.

Vanpools leased through the California Vanpool Authority (CalVans) - In May 2017, RCTC joined CalVans, a joint powers authority public entity created to provide vanpools primarily to farm/agricultural workers in areas underserved by public transit. Upon becoming a CalVans member, CalVans may now provide transportation for vanpools formed in the RCTC service area. CalVans charges each vanpool based on per mile charges for the mileage the vanpool travels each week. This weekly charge recovers agency overhead, CalVans staff to manage the program, as well as vehicle costs, insurance, maintenance, towing and fuel. CalVans does not require any direct reimbursement by its member agencies for the provision of vanpools in their service areas. Most CalVans member agencies incur very little administrative burden or support needs for the CalVans implementation. RCTC has worked closely with CalVans to establish and provide a monthly subsidy of up to \$400 per month to CalVans-formed vanpools in the RCTC Service area. CalVans believes that with the monthly subsidy, CalVans will form up

to 60 CalVans vanpools by the end of FY 2019-20. CalVans services are completely turn-key, in that CalVans provides the outreach and coordination with the vanpool groups; reviews the applications; provides the vehicles, maintenance, insurance and fuel; and reports directly into the NTD. CalVans will report all Commission-subsidized vanpools into the Riverside-San Bernardino urbanized area, and since CalVans is not an FTA recipient, all revenue generated as a result of the CalVans vanpools will be returned to the Commission. CalVans will provide a monthly invoice to RCTC for the subsidies expended, along with ridership and other data to support/justify the subsidy payment and will document all trip results and air quality benefits realized.

“Traditional” Employer Vanpools – These employer vanpools will be provided primarily through a private sector third-party leasing vendor, to be selected by RCTC through a competitive procurement process with an anticipated award on January 10, 2018. All vanpools formed under this Leasing Vendor (aka “Vendor”), will apply directly to the RCTC vanpool subsidy program through IE Commuter, RCTC’s online ridesharing/ride-matching system. Upon enrolling and approval by RCTC, these vanpools will also report monthly statistics through the IE Commuter system through the website or mobile application. Based on an extensive inventory performed during the Feasibility Study, it is anticipated that this effort will result in subsidizing 164 vanpools on a monthly basis by the end of FY 2019-20.

RCTC has contracted with WSP USA INC (WSP) to design, develop, implement and manage the vanpool program. In addition to contract support and expertise that the WSP team brings to the program, WSP will also provide a Vanpool Program Administrator who will be the day-to-day staff contact responsible for the program, through the vanpool application process and ongoing vanpool coordination, manage the Vendor and review all monthly and annual report submittal information. This position will also assist with the developing of MSRC quarterly and final reports.

RCTC will deploy advertising campaigns to raise program awareness and to enroll new vanpools. Any strategies deployed will be tracked, monitored and analyzed for their effectiveness. The MSRC will be acknowledged across all online properties, social media platforms, and various program collateral.

Proposed Budget

Project Element Descriptions	MSRC Request	RCTC Measure A	Total Costs
Vanpool Subsidies	\$1,500,000	\$208,000	\$1,708,000
Total Program - Direct Expenses			\$1,708,000

RCTC will match the MSRC funding with funds from Measure A’s Commuter Assistance Program. Not included in the budget summary above, is an additional \$935,000 that RCTC will expend in Measure A funding for staff and consultant support, and RCTC project management costs as well as \$175,000 in marketing and outreach strategies and \$182,000 in asset management. To keep the MSRC budget/contract simple for RCTC to manage/report on and for MSRC to administer, those internal administrative/project management costs are not included in the above MSRC program budget table.

Implementation Schedule

The following schedule has been provided by RCTC for the Vanpool Subsidy Program:

Project Tasks	Start	Finish
1. MSRC Review, Approval and Contract Execution	December 2017	February 2018
2. Program Development, Online System Development and Development of a Marketing Plan/Outreach Strategies	December 2017	June 2018
3. Online System Testing and Begin to Enroll Vanpools	January 2018	June 2018
4. Quarterly Performance Reports*	March 2018	August 2020
5. Implementation of Program	May 2018	September 2020
6. Marketing Outreach and Advertising Strategies	August 2018	August 2020
7. Final Report and Project Close Out	October 2020	December 2020

B. WEEKEND FREEWAY SERVICE PATROLS

RCTC proposes to utilize \$500,000 of the MSRC allocated funding to Riverside County, to implement new weekend FSP Service. The purpose of the FSP program is to provide continuously roving tow truck services patrolling along designated freeway segments (referred to as beats) to relieve freeway congestion and facilitate the rapid removal of disabled vehicles as well as vehicles involved in minor accidents on local freeways. In addition to providing congestion relief and improved safety, FSP provides significant savings with respect to hours of delay and fuel consumption thereby reducing the amount of vehicle emissions. As a result of the MSRC contribution, RCTC anticipates the service is projected to provide over 6,300 assists and save 95,000 hours of traffic delay and 168,000 gallons of fuel during the proposed two-year project.

Work Plan

A benefit-cost analysis was performed for two very congested highway segments (Beat 4 and Beat 8) that operate along SR-91 and SR-60 within the cities of Riverside and Moreno Valley. Given the length of the two beats, RCTC recommends applying two tow trucks for the proposed weekend service. Both beats projected very favorable benefit-cost ratios in excess of 7:1. For reference, this is over double the minimum benefit-cost ratio that the state requires (benefit-cost of 3:1) of FSP providers statewide in order to initiate new FSP service.

Beats	Hwy	Limits	Length	Average Daily Traffic (Weekend)	Projected Delay Savings (Hrs)	Projected Fuel Savings (Gal)	Projected Benefit Cost
Beat 4	SR-91	Magnolia Ave. to 60/91/215 Interchange	11 miles	202,080	42K	77K	7.2
Beat 8	SR-60	Central Ave. to I-215 at Alessandro Blvd to SR-60 at Theodore St.	12 miles	148,978	53K	91K	8.9

In order to maintain optimal service levels and application of MSRC funds, RCTC is proposing a flexible approach to hours that provides for up to eight (8) hours per weekend day per truck. The project would start with a base schedule of 10am – 6pm on Saturdays and Sundays. RCTC will evaluate the service hours after the first six (6) months and assess if any schedule adjustments are warranted. Given a maximum (8) hour service schedule per weekend day, it is projected that the \$500,000 request will provide for 27 months of weekend FSP operations on Beat 4 and Beat 8.

The Public Outreach Plan (Outreach) will provide maximum outreach for and recognition of the MSRC’s co-funding of the weekend service. Outreach will include but is not limited to the following online properties/media and program collateral:

- RCTC Website (rctc.org): Freeway Service Patrol information page within www.rctc.org
- RCTC FSP Survey Website (tellrctc.org): Motorist that receive FSP service are provided with a FSP brochure and a FSP survey card, that provides program information and directs users to tellrctc.org to provide comments or feedback on their recent experience with FSP, respectively.
- Year End Recognition Email: A year-end email recognizing the MSRC, will be sent to all survey responders that received MSRC funded FSP services (and provided positive comments and an email address).
- RCTC Social Media: RCTC will acknowledge the MSRC across its various social media properties.

Proposed Budget

Project Element Descriptions	MSRC Request	RCTC	Total Costs
Towing (FSP Operators)	\$500,000	0	\$500,000
California Highway Patrol Supervision	0	\$133,000	\$133,000
Total Program - Direct Expenses			\$633,000

At the conclusion of this project, staff will have over two years of real world performance data for weekend service on Beat 4 and Beat 8. Staff proposes to continue funding of Beat 4 and Beat 8 with

anticipated incremental funding from SB1 and SAFE funds (from potential savings on the call box side) if the real world data demonstrates that funding of provides the greatest benefit with the funds available.

Implementation Schedule

Project Tasks	Start	Finish
1. MSRC Review, Approval and Contract Execution	December 2017	March 2018
2. RCTC Board Approval	February 2018	March 2018
3. Develop Outreach Materials	February 2018	March 2018
4. Begin FSP Weekend Service and Outreach	April 2018	June 2020
5. Quarterly Performance Reports*	July 2018	April 2020
6. Service Schedule Assessment (after first 6 mos. of service)	October 2018	October 2018
7. Final Report and Project Close Out	July 2020	July 2020

TCM SUBCOMMITTEE RECOMMENDATION: The TCM Subcommittee reviewed both projects submitted by RCTC. The TCM Subcommittee unanimously recommends that RCTC be awarded a total of \$2,000,000 in MSRC **Clean Transportation Funding™**.

SOLE SOURCE JUSTIFICATION: The MSRC and AQMD strive to award Clean Transportation Funding on a competitive basis. However, AQMD and MSRC procurement policies recognize that at times it is necessary to award a contract on a sole-source basis. The AQMD’s Procurement Policy and Procedure stipulates the conditions under which a sole-source award is justified.

The sole source justification applicable to the RCTC projects submitted under the CTC Partnership Program is defined in AQMD Procurement Policy and Procedure Section VIII.B.2.C; *“the required services are available from only one source”*.

The Riverside County Transportation Commission is the Service Authority for Freeway Emergencies (RC-SAFE) for the County of Riverside and in accordance with state law the only entity authorized to implement freeway service patrols within Riverside County.

Further, RCTC is the Riverside County member of CalVans, a joint powers authority public entity created to provide vanpools in areas underserved by public transit. As a CalVans JPA member, RCTC/CalVans is responsible for vanpools formed in the RCTC service area.

AGENDA ITEM #14

2018 Clean Fuels/Clean Technologies
Conference Calendar

Clean Fuels and Clean Technologies Conference Calendar for 2018

January 2018

- Jan 9 Connect2Car:CES, Las Vegas, NV Website:
<http://www.sae.org/events/ces/>
- Jan 22-25 National Biodiesel Conference & Expo, Fort Worth, TX Website:
<http://www.biodieselconference.org/gala/>
- Jan 24-26 SAE-Government/Industry Meeting, Washington, DC Website:
<http://www.sae.org/events/gim/>

February 2018

- Feb 6-7 Rethink Methane Conference & Expo, Sacramento, CA. Website:**
<http://rethinkmethane.org/>
- Feb 20-22 Hybrid and Electric Vehicle Technologies Symposium, San Diego, CA Website:
<http://www.sae.org/events/hybridev/>
- Feb 28-Mar 2 Climate Leadership Conference, Denver, CO Website:
<https://www.epa.gov/climateleadership/climate-leadership-awards>

March 2018

- Mar 26-29 International Battery Seminar & Exhibit, Fort Lauderdale, FL Website
<http://www.internationalbatteryseminar.com/>

April 2018

- Apr 9-10 Greening the Golden State, Sacramento, CA Website:**
<https://www.green-technology.org/green-california-summit-2018/>
- Apr 10-12 WCX World Congress Experience (Auto & Mobility Industry), Detroit, MI. Website:
