### **ACTION CALENDAR (Items 5 through 10)**

 Consider Modified Project List and Seven-Month Term Extension by Southern California Association of Governments (SCAG) (\$2,500,000 – Implement "Go Human" Program) Ravenstein

Some of the previously approved projects have opted out of the Program. SCAG requests to substitute projects within the same counties as those projects being replaced: Chino in place of Redlands, Riverside in place of Hemet, South El Monte in place of Rancho Palos Verdes, and Los Angeles in place of El Segundo. Additionally SCAG requests a seven-month term extension to accommodate the substitutions as well as delays in some of their matching projects.

 Consider Modified Station Specifications, Contract Value Reduction and One-Year Term Extension by City of South Pasadena, Contract #ML16025 (\$180,535 – Expand CNG Station and Purchase Heavy-Duty CNG Vehicle) Ravenstein

The City of South Pasadena requests to substitute the installation of an all-in-one unit with additional buffer storage for the installation of a separate compressor and storage vessels. As the new configuration would have a lower total cost, the contract value would be reduce by \$20,000. The City further requests a one-year contract term extension.

### FYs 2016-18 WORK PROGRAM

7. Consider Funding for Applications Received under the Local Government Partnership Program

Patchan

As an element of their FYs 2016-18 Work Program, the MSRC allocated \$21,180,650 for a funding partnership with cities and counties to jumpstart implementation of the SCAQMD's 2016 Air Quality Management Plan. A Program Opportunity Notice (PON) was released on September 1, 2017. Per the PON, each city and county within SCAQMD that participates in the AB 2766 Subvention Fund Program has a reserved funding allocation. The primary eligible project categories focus upon zero-and near-zero-emission vehicles and their supporting infrastructure, with a few additional categories open to the smallest jurisdictions. The MSRC has previously funded applications totaling \$782,021. Twenty-seven additional applications requesting a total of \$5,061,695 in funding are being brought forward for consideration. The MSRC-TAC Local Match Subcommittee is reviewing the applications and their recommendations will be brought forward at the meeting.

8. Consider Funding for Application Received under the Major Event Center Transportation Program

Lynn

As an element of their FYs 2016-18 Work Program, the MSRC allocated \$5 million to fund projects assisting venues not sufficiently served by transportation service. A Program Announcement was released on March 3, 2017. To date, the MSRC has awarded a total of \$3,660,133. One additional application is being brought forward for consideration: The Rose Bowl and Foothill Transit are requesting \$788,124 for special shuttle service in support of various events in 2018 and 2019, including the Arroyo Seco Music & Arts Festival. The TCM Subcommittee is reviewing the application and their recommendations will be distributed under separate cover.

9. Consider Work Plan Received under the CTC Partnership Program

Lynn

As an element of their FYs 2016-18 Work Program, the MSRC allocated \$8,000,000 for a program to partner with the region's County Transportation Commissions (CTCs) to implement transportation-related air quality improvement projects within their respective jurisdictions. The MSRC approved a solicitation document in November 2017 seeking work plans from CTCs to partner with the MSRC. \$2,000,000 is reserved for each CTC. To date, the MSRC has approved awards totaling \$2,000,000. An additional work plan requesting \$2,000,000 has been received from San Bernardino County Transportation Authority for a Metrolink San Bernardino Line Fare Discount Program. The TCM Subcommittee is reviewing the work plan and their recommendations will be distributed under separate cover.

10. Consider Early Termination of Natural Gas Infrastructure Program and Reallocation of Fund Balance to Hydrogen Infrastructure Program

Kato

As an element of their FYs 2016-18 Work Program, the MSRC allocated \$4 million to fund new and expanded CNG and LNG refueling stations, as well as modifications to vehicle maintenance facilities and technician training. A Program Announcement was released on June 2, 2017, with a closing date of June 29, 2018. To date, the MSRC has funded applications totaling \$1,056,500. In consideration of the relatively lackluster response to the natural gas infrastructure program, the MSRC-TAC Infrastructure Subcommittee is recommending that it be terminated early. All funds remaining, after the resolution of any outstanding applications, are recommended to be reallocated to the Hydrogen Infrastructure Program for which the Program Opportunity Notice was recently released.

### AGENDA ITEM #2

Summary of Final Report by Transit Systems Unlimited

### MSRC-TAC Agenda Item No. 2

Date: April 5, 2018

From: Ray Gorski, MSRC Technical Advisor Subject: Final Report Received and Reviewed

One final report was submitted for MSRC-TAC review and approval during March:

 Transit Systems Unlimited, Inc., MS16084 (\$565,600 – Implement Hollywood Bowl Union Station Shuttle Service)

A summary of this Final Report is attached. Staff has reviewed this Final Report and recommends approval.

Contractor: Transit Systems Unlimited, Inc.

Contract Number: MS16084
Contract Amount: \$565,600
Actual Expenditure: \$396,930

Title: Implement Hollywood Bowl Union Station Shuttle Service

Discussion: Under the MSRC's Major Event Center Program, Transit Systems Unlimited (TSU) implemented shuttle service between Union Station and the Hollywood Bowl. The service was designed to offer a convenient alternative to the automobile for Hollywood Bowl patrons who lived in the greater downtown Los Angeles area or could access Union Station using other public transit.

The program was designed to use eight (8) buses and ten-minute headways. This proposed plan, however, was modified due to lack of shuttle service utilization. Instead, TSU operated six (6) buses for 2016 Hollywood Bowl at 15-minute intervals, and five (5) buses for 2017 at 20-minute intervals from Union Station, with the exception of sold out performances where six buses were used. As a result of the reduced operations, the program used \$396,930 of the \$565,600 awarded.

It should be noted that TSU did experience a 40% increase in Hollywood Bowl Union Station ridership between the 2016 and 2017 seasons. The Los Angeles Philharmonic, however, did elect to end the pilot program at the conclusion of the 2017 season.

Compared to other Hollywood Bowl Shuttle routes, the Union Station service lacked adequate levels of ridership. TSU has suggested that two factors contributed to the lower than expected use:

- Inconsistency with the Shuttle Pickup Location at Union Station During the 2016 Hollywood Bowl season, the Union Station pickup was at the top of the facility next to the train tracks. During the 2017 Hollywood Bowl season, the Union Station pickup was at berth 9 of Patsouras Plaza. In the opinion of TSU, this lack of consistency in shuttle pickup location impacted the formation of a stable base of shuttle patrons;
- 2. Overall Ridership Erosion due to the Availability of Shared Ride Services TSU has stated that there has been an overall reduction in the number of patrons using park and ride services due to the increase in the availability of shared ride services. This has resulted in a year over year reduction in shuttle service utilization.

Shuttle Service Marketing & Outreach: The Hollywood Bowl has a very popular website and the Union Station Shuttle was marketed on this site. Season ticket holders were marketed through the brochures that get mailed out in March and April of each year. Additionally, there were the take-one baby pamphlets that also promoted the shuttle service. Additionally, show promotional materials that were periodically sent out before and during the season included the Union Station Shuttle information. Like every progressive venue, the Hollywood Bowl has a Twitter, Facebook, and Instagram accounts that were often used to urge patrons to use "Park and Ride" lots, including Union Station.

In the opinion of TSU, the Hollywood Bowl Union Station Shuttle Service is a service that should be revisited in the near future when construction in the Union Station area is completed, specifically when the Vignes entrance to the 101 Freeway northbound is opened. There is significant population growth in the downtown area that could make the Union Station – Hollywood Bowl connection more convenient than taking the Red Line to the Hollywood and Highland Shuttle. The major advantage is to the proximity to rail and other mass transportation services that all connect at Union Station.

Contract Modification Request by Southern California Association of Governments

## MSRC-TAC Agenda Item No. 5

**DATE:** April 5, 2018

FROM: Cynthia Ravenstein

**SUBJECT:** Modified Project List and Seven-Month No-Cost Term Extension

by Southern California Association of Governments (SCAG),

Contract #MS18002

**SYNOPSIS:** Some of the previously approved projects have opted out of the

Program. SCAG requests to substitute projects within the same counties as those projects being replaced: Chino in place of Redlands, Riverside in place of Hemet, South El Monte in place of Rancho Palos Verdes, and Los Angeles in place of El Segundo. Additionally SCAG requests a seven-month term extension to accommodate the substitutions as well as delays in some of their

matching projects.

FINANCIAL IMPACT: None

**RECOMMENDATIONS:** None

**ATTACHMENTS:** Contractor's letter requesting modification and proposed

modified project list

### **DISCUSSION:**

Contractor: **Southern California Association of Governments**Project Title: "Go Human" Regional Active Transportation Program

MSRC Funding: \$100,000

Project Term: June 9, 2017 to November 30, 2018

Current Request: Substitute projects and seven-month term extension

Previous Requests: None

<u>Project Description</u>: The MSRC allocated \$2.5 million to partner with SCAG on their broad-based regional active transportation outreach, education and demonstration program dubbed "Go Human". The MSRC's allocation was based upon SCAG's commitment to provide matching funds of at least an equivalent amount. Additionally, 80% of the MSRC's contribution was to be split equally amongst projects in the Los Angeles, Orange, Riverside, and San Bernardino Counties, with the remainder of the MSRC's funding awarded competitively. Contract #MS18002 was executed to effectuate the award, and the MSRC approved the specific list of

projects in August 2017. A few of the individual projects have been completed, but nothing has been paid to date on this contract.

<u>Contract Request</u>: SCAG indicates that the Cities of Redlands, Hemet, Rancho Palos Verdes and El Segundo have opted out of the program. In keeping with the MSRC's specified geographic funding split, SCAG has identified projects within the same counties and proposes to substitute those projects for the withdrawn projects. Thus, a City of Chino open streets event would replace the Redlands project; a City of Riverside temporary active transportation demonstration event would replace the Hemet project; and a City of Los Angeles safe routes to school demonstration would replace the El Segundo project. The funding originally allocated to Rancho Palos Verdes would be re-allocated to augment the previously approved South El Monte open streets event.

SCAG further requests a seven-month term extension to accommodate the substitutions as well as delays in some of their matching projects.

Re: Amendment Request Contract MS18002

Dear Ms. Ravenstein-

SCAG is requesting a contract amendment for contract number MS 18002 to update the contract termination date, project schedule and project list. To summarize, SCAG is submitting an amendment request to:

- Extend the contract deadline to the end of fiscal year 2018/19 (June 30, 2019). The timeline request provides the necessary schedule flexibility for SCAG to implement not only all of the MSRC funded projects but all of the contract's matching projects.
- Revise the respective deadlines for various elements on the Project Schedule reflected in Attachment 1. The revised Project Schedule is attached.
- Identify cities to replace the cities of Redlands, El Segundo, and Rancho Palos Verdes. Due to unforeseen circumstances, the cities of Redlands, El Segundo and Rancho Palos Verdes have opted out of the Go Human program. As a result, SCAG is requesting the following amendments to the Project List (attached):
  - o Replace city of Redlands with City of Chino
  - o Replace city of Hemet with City of Riverside
  - Replace city of Rancho Palos Verdes with city of South El Monte. This funding will be added to the existing city of South El Monte event.
  - o Replace City of El Segundo with city of Los Angeles

SCAG appreciates MSRC's consideration of these proposed amendments and looks forward to delivering high quality events with impactful outcomes as well as raising the visibility of our respective agencies and the innovative work being executed.

If you have any questions, please don't hesitate to contact me.

Regards,

Stephen Patchan Program Manager

Contract Modification Request by City of South Pasadena

## MSRC-TAC Agenda Item No. 6

**DATE:** April 5, 2018

FROM: Cynthia Ravenstein

**SUBJECT:** Modified Station Specifications, \$20,000 Contract Value

Reduction, and One-Year Term Extension by City of South

Pasadena, Contract #ML16025

**SYNOPSIS:** The City requests to substitute the installation of an all-in-one unit

with additional buffer storage for the installation of a separate compressor and storage vessels, as well as a one-year contract term extension, as part of the FYs 14-16 Local Government Match

Program.

Contractor: City of South Pasadena

Project Title: Expand CNG Station and Purchase Heavy-Duty CNG Vehicle

MSRC Funding: \$180,535

Project Term: June 22, 2016 to April 21, 2023

Current Request: Modified station specifications and one-year term extension

Previous Requests: None

<u>Project Description</u>: The MSRC awarded the City \$180,535 to: purchase a heavy-duty CNG vehicle (\$30,000) and expand their existing CNG station (\$150,535). No work has been completed and nothing has been paid to date on this contract.

<u>Contract Request</u>: The City indicates that in discussions with their selected vendor for the station expansion, in comparison to the original proposed addition of a compressor and additional storage vessels, it was recommended that they could achieve equal or better performance as well as a better use of the limited available space by installed an all-in-one unit with additional buffer storage. The modified project cost would be \$260,000, representing a decrease from the original cost estimate of \$301,070. Therefore, should the MSRC approve this modification, the contract value would need to be reduced by \$20,000 to \$160,535. The \$20,000 would revert to the AB 2766 Discretionary Fund. The City further requests a one-year contract term extension to implement the revised project.

Re: Modification to Contract ML-16025 for Compressed Natural Gas (CNG) Station Upgrade Project

Dear Leah Alfaro:

The City of South Pasadena would like to request a modification to the Scope of Contract No. ML-16025 for upgrade the City's CNG fueling station. The City of South Pasadena was awarded a grant of \$150,535 to add a second compressor to their CNG fueling station since the existing station is no longer adequate to serve the City's growing CNG fleet. Following the award, the City solicited bids for an additional compressor, three additional ASME storage vessels and additional time fill posts. In 2017, the bid was awarded to Clean Fuel Connection, Inc. (CFCI) who met all of the City's requirements.

The City intends to operate the station using the new compressor and additional storage vessels but keep the existing compressor for emergency backup. During the site design discussions, CFCI indicated that, by adding 30 gge of buffer storage to the proposed Galileo Nanobox, they could eliminate the need for the three proposed new storage vessels. The buffer storage in the Nanobox is used to start up the compressor for either direct fill or to fill the larger storage vessels. A copy of the Nanobox specification is attached.

The performance of the new compressor will be equal too, or better than, the performance of the original configuration under Contract ML-16025. This is possible because the Galileo Nanobox can fill vehicles directly on demand in addition to filling the existing storage vessels when no vehicles are being fueled. Based on the calculations performed by the Galileo engineers, the revised configuration should be more than adequate for the current and projected fueling needs of the City. The new compressor with buffer storage will be slightly more costly than the original configuration but this additional cost will be compensated by the elimination of the three storage vessels. An addition benefit of the new configuration is that it makes better use of the very

limited physical space available for the station expansion. Therefore, the City respectfully requests:

- 1. Modification to the scope of Contract No. ML-16025 to eliminating the three storage vessels.
- 2. Extension of one more year to meet MSRC's five-year operational requirement from 4/21/23 to 4/21/24, due to redesign the project.

Should you have any questions regarding this project, please contact Rafael Casillas at (626) 403 7246 or email: <a href="mailto:reasillas@Southpasadenaca.gov">reasillas@Southpasadenaca.gov</a>. Thank you for your consideration.

Consider Funding for Applications Received under the Local Government Partnership Program

MSRC-TAC Agenda Item No. 7

**DATE:** April 5, 2018

**FROM:** Stephen Patchan, Chair

MSRC-TAC Local Government Match Subcommittee

**SUBJECT:** Review FYs 2016-18 Local Government Match Program Applications Received &

Recommend Funding Awards

SYNOPSIS: The MSRC allocated a total of \$21,180,650 of MSRC Clean Transportation

Funding™ to the FYs 2016-18 Local Government Partnership Program. Per the Program Opportunity Notice, each city and county within SCAQMD that participates in the AB 2766 Subvention Fund Program has a funding allocation reserved for its use. While the last day to submit an application is August 2, 2018, applications are to be considered as they are received. The MSRC has previously funded thirteen applications totaling \$782,021. Twenty-seven additional applications requesting a total of \$5,061,695 are being brought

forward for consideration.

**RECOMMENDATION:** The Local Government Match Subcommittee is reviewing the applications and

their recommendations will be brought forward at the meeting.

FISCAL IMPACT: A total of \$21,180,650 in MSRC Discretionary funding was reserved for the Local

Government Partnership Program under the FYs 2016-18 Work Program. If the Subcommittee's recommendation is approved, \$15,336,934 will remain

available.

**DISCUSSION:** As an element of their FYs 2016-18 Work Program, the MSRC developed and implemented the Local Government Partnership Program. This Program represents a significant departure from prior MSRC programs such as the Local Government Match Program, in that it is not competitive. Each city and county within SCAQMD which participates in the AB 2766 Subvention Fund Program has a pro-rata funding allocation reserved for its use. The Program directly supports the SCAQMD's 2016 Air Quality Management Plan (AQMP) by focusing MSRC investments on AQMP measures, and local government leadership will be educated on the region's air quality challenges and the regional blueprint for achieving healthful air. A total of \$21,180,650 in MSRC Discretionary Funds was allocated. The Program offers to co-fund qualifying light-, medium- and heavyduty zero-emission vehicles (ZEVs); near-zero-emission heavy-duty vehicles; alternative fuel Infrastructure projects; and electric vehicle charging infrastructure. Cities with smaller populations—those who are eligible for a maximum MSRC funding contribution of \$50,000—may propose projects within any of the above categories but also for traffic signal synchronization, bicycle active transportation, and first mile/last mile strategies.

The solicitation mechanism is a Program Opportunity Notice (PON). The PON was released on September 1, 2017 concurrent with SCAQMD Governing Board approval. The application period was originally scheduled to

close on March 2, 2018. However, at their February 15, 2018 meeting, the MSRC acted to extend the deadline to August 2, 2018.

The MSRC has previously funded thirteen applications totaling \$782,021. Twenty-seven additional applications requesting a total of \$5,061,695, as shown in Table 1 below, are being brought forward for consideration.

Table 1 – Funding Requests

NO	Jurisdiction	Project Type(s)	Funding Request
8	City of Anaheim	Light-duty ZEVs and EV charging infrastructure	\$221,500
10	City of Redlands	Medium/heavy-duty ZEV and EV charging infrastructure	\$87,000
17	City of Agoura Hills	EV charging infrastructure	\$50,000
18	City of West Hollywood	EV charging infrastructure	\$50,000
19	City of San Fernando	Light-duty ZEV and signal synchronization	\$30,000
20	City of Yorba Linda	EV charging infrastructure	\$87,990

39	City of Moreno Valley	Near-zero heavy-duty vehicle	\$25,000
41	City of Beaumont	Near-zero heavy-duty vehicle	\$25,000
42	City of Riverside	Expand CNG stations	\$383,610
43	City of Eastvale	Medium/heavy-duty ZEVs and EV charging infrastructure	\$80,400
_			\$5,061,695

<sup>\*</sup>Application numbers non-sequential due to submission of incomplete applications, applications for which clarification needed to be sought, etc. Some cities have requested less than their full funding allocation, but the remainder will continue to be reserved for them until the close of the application period.

The MSRC-TAC Local Match Subcommittee is considering the applications and will bring forward their recommendations at the meeting.
