

**TECHNICAL ADVISORY COMMITTEE OF THE MOBILE SOURCE AIR  
POLLUTION REDUCTION REVIEW COMMITTEE**

**AGENDA**

**Thursday, June 7, 2018 at 1:30 p.m.**

**LOCATION**

South Coast Air Quality Management District  
21865 Copley Drive, Conf. Room CC8, Diamond Bar, CA 91765

**Committee Members**

**MSRC-TAC Chair**

Dan York  
Alternate: Joe Indrawan  
Representing Cities of Riverside County

**MSRC-TAC Vice-Chair**

Anthony (AJ) Marquez  
Representing Orange County Board of Supervisors

**MSRC-TAC Members**

Cliff Thorne  
Alternate: Bill Habibe  
Representing Orange County Transportation  
Authority

Rongsheng Luo  
Alternate: Stephen Patchan  
Representing Southern California Association of  
Governments

Vacant  
Alternate: Alex Gann  
Representing Riverside County Board of  
Supervisors

Nicholas Nairn-Birch  
Representing California Air Resources Board

Kelly Lynn  
Alternate: Nicole Soto  
Representing San Bernardino County  
Transportation Authority

Vicki White  
Representing South Coast AQMD  
Alternate: Mei Wang

Jamie Lai  
Alternate: Linda Johnson  
Representing Cities of Orange County

Vacant  
Representing Cities of Los Angeles County

Steven Lee  
Alternate: Scott Page  
Representing Los Angeles County MTA

Lorelle Moe-Luna  
Representing Riverside County Transportation  
Commission

Andy Silva  
Representing San Bernardino County Board of  
Supervisors

Eddie Washington  
Alternate: Rick Teebay  
Representing Los Angeles County Board of  
Supervisors

Vacant  
Mechanical Expert

Sean O'Connor  
Representing Cities of San Bernardino County

Tim Olsen  
Alternates: Rhetta deMesa and Sam Lerman  
Air Pollution Control Expert

Martin Buford  
Representing Regional Rideshare Agency

**CALL TO ORDER**

Opening Comments: Dan York, MSRC-TAC Chair  
Other MSRC-TAC Members  
Fred Minassian, Asst. DEO/Science & Technology Advancement

**CONSENT CALENDAR (Items 1 through 4)**

**Receive and Approve**

- 1. Minutes for the April 5, 2018 and May 3, 2018 MSRC-TAC Meetings **Cedillo**  
Minutes to be distributed at the meeting if available.
  
- 2. **Summary of Final Reports by MSRC Contractors** **Gorski**
  - Bonita Unified School District MS12008 (\$175,000 - Construct New Limited-Access CNG Station)
  - Brea Olinda Unified School District MS12083 (\$59,454 - Install New CNG Infrastructure)
  - Los Angeles County MTA MS14001 (\$1,216,637 - Clean Fuel Transit Service to Dodger Stadium)
  - Arrow Services, Inc. MS16103 (\$100,000 - Construct a Limited-Access CNG Station)
  - City of Norwalk MS16114 (\$45,000 - Repower 3 Transit Buses)

**Information Only - Receive and File**

- 3. **MSRC Contracts Administrator’s Report** **Ravenstein**  
This report covers key issues addressed by MSRC staff, status of open contracts, and administrative scope changes from April 26, 2018 through May 30, 2018.
  
- 4. **Financial Report on AB 2766 Discretionary Fund** **Kampa**  
Financial Report for April 2018. Financial Report for May 2018 to be distributed at the meeting if available.

**ACTION CALENDAR (Items 5 through 10)**

- 5. Consider One-Year Term Extension by City of San Dimas, Contract #ML16042 (\$55,000 – Install EV Charging Infrastructure) Ravenstein

The City of San Dimas requests a one-year contract term extension due to the unanticipated need to install separate meters.
  
- 6. Consider Modified Scope of Work by City of Eastvale, Contract #ML18064 (proposed) (\$80,400 – Purchase Two Medium-Duty Zero Emission Vehicles and Install EV Charging Stations) Ravenstein

The City of Eastvale requests to procure two light-duty and one medium-duty zero emission vehicles, instead of the two medium-duty zero emission vehicles originally proposed, with no change to the total award amount.
  
- 7. Consider Modified Project Description and One-Year Term Extension by Riverside County Transportation Commission, Contract #MS16082 (\$590,759 – Extended Freeway Service Patrol (FSP) Service) Ravenstein

State Route 91 project schedule changes resulted in a much later start for the “Extended Service Period” FSP funded by the MSRC. The Riverside County Transportation Commission (RCTC) requests a no-cost, 12-month extension for Contract MS16082, as well as a modification to the scope to allow for reimbursement of extended FSP services beyond the construction period which concluded in March 2018.
  
- 8. Consider Contract Replacement by City of Bellflower, Contract #ML12051 (\$100,000 – Install EV Charging Infrastructure) Ravenstein

Due to the expiration of the City of Bellflower’s prior contract, the city requests a contract replacement to complete the remaining scope of work for the contract.

**FYs 2016-18 WORK PROGRAM**

- 9. Consider Modified/Corrected Awards to Cities of Santa Ana, Perris and Mission Viejo under the Local Government Partnership Program Patchan

As an element of their FYs 2016-18 Work Program, the MSRC previously awarded funding to the Cities of Santa Ana, Perris and Mission Viejo as part of the Local Government Partnership Program. Elements of these applications have subsequently been identified which could entitle these cities to higher awards. This action would increase the awards by a total of \$38,450 as follows: Santa Ana from \$365,000 to \$385,000; Perris from \$86,174 to \$94,624; and Mission Viejo from \$115,690 to \$125,690. All awards would remain at or below the amounts originally reserved for these cities. The MSRC-TAC Local Match Subcommittee is reviewing the applications. The specifics of the changes, as well as the Subcommittee’s recommendations, will be brought forward at the meeting.

10. Consider Funding for Applications Received under the Local Government Partnership Program

Patchan

As an element of their FYs 2016-18 Work Program, the MSRC allocated \$21,180,650 for a funding partnership with cities and counties to jumpstart implementation of the SCAQMD’s 2016 Air Quality Management Plan. A Program Opportunity Notice was released on September 1, 2017. Per the Program Opportunity Notice, each city and county within SCAQMD that participates in the AB 2766 Subvention Fund Program has a funding allocation reserved for its use. The primary eligible project categories focus upon zero- and near-zero-emission vehicles and their supporting infrastructure, with a few additional categories open to the smallest jurisdictions. The MSRC has previously funded applications totaling \$6,552,616. Nine additional applications, requesting a total of \$1,855,906, from the Cities of Buena Park, Orange (two applications), Culver City, Pasadena, Santa Monica, Beaumont, and Los Angeles, as well as the County of Riverside, are being brought forward for consideration. The MSRC-TAC Local Match Subcommittee is reviewing the applications and their recommendations will be brought forward at the meeting.

**OTHER BUSINESS**

11. *\*Any member of the committee, on his or her own initiative or in response to questions posed by the public, may ask a question for clarification, may make a brief announcement or report on his or her own activities, provide a reference to staff regarding factual information, request staff to report back at a subsequent meeting concerning any matter, or may take action to direct staff to place a matter of business on a future agenda. (Govt. Code Section 54954.2)*

York

**PUBLIC COMMENT PERIOD - (Public Comment on Non-Agenda Items, Pursuant to Government Code Section 54954.3)**

*Members of the public may address this body concerning any agenda item before or during consideration of that item (Govt. Code Section 54954.3(a)). All agendas for regular meetings are posted at District Headquarters, 21865 Copley Drive, Diamond Bar, California, at least 72 hours in advance of a regular meeting. At the end of the regular meeting agenda, an opportunity is also provided for the public to speak on any subject within the MSRC-TAC’s authority. Speakers may be limited to three (3) minutes each.*

**ADJOURNMENT**

**NEXT MEETING: Date: July 5, 2018, 1:30 PM, Conference Room CC8**

**Americans with Disabilities Act**

*The agenda and documents in the agenda packet will be made available, upon request, in appropriate alternative formats to assist persons with a disability (Govt. Code Section 54954.2(a)). Disability-related accommodations will also be made available to allow participation in the MSRC-TAC meeting. Any accommodations must be requested as soon as practicable. Requests will be accommodated to the extent feasible. Please contact Penny Shaw Cedillo at (909) 396-3179 from 7:00 a.m. to 5:30 p.m., Tuesday through Friday, or send the request to pcedillo@aqmd.gov.*

**Pursuant to SB 343**

*All documents (i) constituting non-exempt public records, (ii) relating to an item on an agenda for a regular meeting, and (iii) having been distributed to at least a majority of the Committee after the Agenda is posted, are available prior to the meeting for public review at the South Coast Air Quality Management District, Public Information Center, 21865 Copley Drive, Diamond Bar, CA 91765.*

Contacts: Cynthia Ravenstein, MSRC Contracts Administrator - (909) 396-3269  
Ray Gorski, MSRC Technical Advisor – (909) 396-2479  
Penny Shaw Cedillo, MSRC Administrative Liaison – (909) 396-3179

AGENDA ITEM #2

Summary of Final Reports by MSRC Contractors

## MSRC-TAC Agenda Item No. 2

Date: June 7, 2018  
From: Ray Gorski, MSRC Technical Advisor  
Subject: Final Reports Received and Reviewed

Five final reports were submitted for MSRC-TAC review and approval during May:

- Bonita Unified School District MS12008 (\$175,000 - Construct New Limited-Access CNG Station)
- Brea Olinda Unified School District MS12083 (\$59,454 - Install New CNG Infrastructure)
- Los Angeles County MTA MS14001 (\$1,216,637 - Clean Fuel Transit Service to Dodger Stadium)
- City of Norwalk MS16114 (\$45,000 - Repower 3 Transit Buses)
- Arrow Services, Inc. MS 16103 (\$100,000 – Construct New Public Access CNG Station)

A summary of each Final Report is attached. The MSRC staff has reviewed each Final Report and recommends approval.

**Contractor:** Bonita Unified School District  
**Contract Number:** MS12008  
**Contract Amount:** \$175,000  
**Title:** Bonita Unified School District CNG Station

Discussion: The MSRC Clean Transportation Funding program provided \$175,000.00 to offset the cost of constructing a new compressed natural gas (CNG) refueling station equipped with seven (7) fueling posts with dual hoses. The station is owned by the Bonita Unified School District (BUSD). The school district performed all normal purchasing practices to contract for the CNG fueling station as well as project management to oversee the construction and reporting associated with the project.

### **System Design and Specifications**

In November 2013, BUSD met with representatives from Southern California Gas Company (SoCalGas) to discuss the cost and timeframe for the installation of the District's CNG fueling station.

In March 2014, SoCalGas and their representatives presented a Tariff Proposal (to plan, design, construct, operate and maintain the CNG fueling station) to the school district that was attractive, but well out of the District's project budget range. After internal discussions, the District decided to hire a consultant and open their CNG fueling station project to outside bidders.

In April 2014, the Board of Education approved an agreement between BUSD and Natural Gas Vehicle Institute (NGVI), a consulting firm to help the District move the project to completion. Their services included:

- Initial site visit and evaluation of the CNG fueling station location
- Developing a list of costs, expenses and revenues expected for the project
- Correspond with the district to obtain necessary estimates and cost figures
- Calculate, develop and present payback period findings
- Accurate equipment sizing
- Development of fueling station equipment specifications
- Assistance with the development of a Request for Proposals (RFP)
- Development of bid criteria.

Natural Gas Vehicle Institute would also assist with the pre-bid conference, bid evaluation, provide a list of recommended bidders, and attend equipment commissioning and start up.

### **WORK PERFORMED**

In order to obtain the most cost effective pricing, BUSD released a call for bids prior to entering into an agreement for services. A notice to contractors was published and BUSD held a pre-bid conference in February 2015. The general contents and requirements of the Design/Build CNG fueling stations were reviewed during the job walk portion of the pre- bid conference with the building contractors.

Two contractors submitted bids for the project. After reviewing all documents and discussing both bids, BUSD recommended entering into an agreement with Allsup Corporation. In May 2015, the School Board approved an agreement between BUSD and Allsup to furnish all labor, materials, and complete all work required installing the equipment for the CNG fueling station project.

Allsup Corporation began construction in August 2015. Allsup Corporation began with the layout of underground conduit and saw cutting for the gas and electrical underground, demolishing asphalt, and construction of the concrete pad for equipment, and construction of time-fill stations.

#### **PROBLEMS ENCOUNTERED**

There was an approximately four (4) month delay in starting construction due to delays in receiving final approval and meter installation from SoCalGas. Meter installation was completed in October 2015.

#### **CONCLUSION**

This project was a success in that the District CNG station now has the ability to produce 70 GGE per hour and fuel all of its CNG buses at once overnight.

In 2012, BUSD had 10 CNG school buses. Through the course of the project, the District replaced five diesel buses with CNG school buses. The intent of the school district with successful project implementation is to eventually replace additional diesel buses with future available funding.

**Contractor:** Brea Olinda Unified School District  
**Contract Number:** MS12083  
**Contract Amount:** \$59,454  
**Title:** Installation of New CNG Infrastructure

Discussion: The MSRC, together with South Coast Air Quality Management District (SCAQMD), provided funding support to the Brea Olinda Unified School District for the installation of a new compressed natural gas (CNG) refueling station. This new CNG station supports the refueling of seven (7) Thomas 78 passenger buses.

The CNG infrastructure was installed at the Brea Olinda Unified School District's Maintenance & Transportation yard located at 565 N. Berry Street, Brea, CA 92821. The installation was completed on December 27, 2012 and was placed into operation in January 2013. The project encompassed the design, construction, and operation of a private compressed natural gas station with eight refueling stations used to dispense fuel to seven CNG transit buses utilized to transport students to and from school each day of the school year. The buses are refueled every night during the school week and on weekends following extended day field trips or athletic events, as needed, using eight dispensing hoses capable of delivering up to 30 DGEs per hour for a total of up to 700 DGEs per day.

#### **PROBLEMS ENCOUNTERED**

The District received a grant to purchase seven CNG buses that experienced numerous problems. This made it difficult to meet the throughput requirements of 25,200 diesel gallon equivalents (DGEs) per year for a period of five years as required by the original contract.

MSRC's Technical Advisory Committee (MSRC-TAC) reviewed the District's request to reduce the required annual throughput amount and was able to extend the contract terms over a period of eight years instead of five years to allow sufficient time to achieve a total throughput equal to the original required amount times three. Due to the longer operational requirement however, the throughput requirement was removed, but the CNG station and buses must remain operational for a period of eight years from the date of installation or through January 2021.

The District also received a reduced grant due to the purchase of remanufactured compressors. The MSRC's FY 2011-12 Alternative Fuel Infrastructure Program required the use of all new equipment so the grant was reduced by the cost of the remanufactured compressors for a total project cost of \$130,908. This did not impact MSRC's award value.

The District filed a change order of \$6,897.38 due to an issue encountered for installation of new fuel lines for the CNG fueling station. The decision was made to change the location of the lines 90 feet from the original designed fueling area to run along the backside of the property. This required 90.41 inches of additional trenching, stainless steel tubing, conduit, ground wire and labor. The change order was approved by the District's Governing Board on January 14, 2013 at the completion of the project.

## EMISSION BENEFITS

Clean burning natural gas vehicles (NGV) provide a significant reduction in toxic air pollutant emissions compared to older diesel vehicles. The emissions of primary concern include regulated emission of hydrocarbons, oxides of nitrogen (NOx), carbon monoxide (CO) and carbon dioxide (CO<sub>2</sub>).

The California Air Resources Board (CARB) adopted measures that required all diesel vehicles operated within the state to meet specific c guidelines that reduce particulate matter in the air by January 2012. The District was operating seven 1986 diesel transit buses to transport students that did not meet these new requirements. The South Coast AQMD offered grants for the replacement of pre-1987 buses allowing the District to purchase seven new 2013 Thomas CNG buses that met the new emission standards. The new buses meet the 2010 EPA and CARB emissions standards criteria of 0.2 g/bph-hr NMHC + NOx or lower and 0.01g/bph-hr PM or lower. The buses are equipped with Cummins ISLG-280 HDX CNG engines that put out up to 13% lower greenhouse gases that conventional diesel engines.

### Annual Throughput Report

Time Period	Total Annual DGEs Dispensed
January 15, 2013 - December 31, 2013	13,969 DGEs
January 1, 2014 - December 31, 2014	14,569 DGEs
January 1, 2015 - December 31, 2015	17,165 DGEs
January 1, 2016 - December 31, 2016	19,308 DGEs
January 1, 2017 - December 31, 2017	19,488 DGEs

**Contractor:** Los Angeles County Metropolitan Transportation Authority  
**Contract Number:** MS14001  
**Contract Amount:** \$1,216,637  
**Title:** Dodger Stadium Express Service – 2013 – 2014 Seasons

Discussion: Dodger Stadium, home to the Los Angeles Dodgers Major League Baseball (MLB) team, is a sporting event venue located just north of Downtown Los Angeles. It is bordered by the communities of Solano Canyon, Echo Park, Chinatown, and Elysian Park. The maximum occupancy of Dodger Stadium is 56,000. The parking lot capacity is 20,000.

During each MLB season the stadium hosts near capacity crowds, with Dodger Stadium holding multiple records for the highest attendance in a season for approximately 82 scheduled home games and up to 10 post-season playoff games which are supported by the Dodger Stadium Express (DSE) service.

DSE service is used to mitigate the total gridlock situation encountered by attendees travelling to the stadium via Sunset Blvd. Sunset Blvd. is the main collector street that connects Vin Scully Ave. to the Dodger Stadium main gate. Average weekday PM peak hour LOS on Sunset Blvd. is level D (V/C = 0.879). The Los Angeles Department of Transportation (LADOT) has surveyed Sunset Blvd. on a game day, and the LOS is level F (V/C = 1.56).

For this contract period, the 2013 season opened on March 29, 2013 and the 2014 season opened on March 27, 2014. A total of 162 home games were serviced, plus an additional seven (7)-post season games during this contract period. For both seasons, Dodgers were successful in attaining playoff status and entering the post season.

Unfortunately, each season concluded without advancing to World Series status.

DSE service was also provided for two additional events that occurred during this contract period. The first was a hockey game held at Dodger stadium on January 25, 2014 and the second a concert on August 10, 2014 featuring Sir Paul McCartney. Both special events attracted significant crowds.

The DSE route begins at Union Station at the Patsaouras Transit Plaza. Buses depart from a loading area that is signed specifically for the service. Signage is also posted throughout Union Station including; the main lobby at the Alameda St., the entrance to the Metro Gold Line interface at Tracks 1 & 2, along the Metro Red Line platform, at the various parking levels, and on way finding kiosks.

After departing Patsaouras Transit Plaza, the route proceeds west on Vignes Street to Cesar Chavez, and then west on Cesar Chavez stopping to pick up patrons at Cesar Chavez Ave/ Broadway St., proceeding west on Sunset Blvd, the route turns north on Vin Scully Ave. For faster entry into the stadium, the bus route utilizes the guard shack lane for express lane entry.

In order to ease the flow of traffic, LADOT engineers install cones demarking the bus lane and separating travel from the regular flow of traffic. Only buses are permitted to travel in the westbound

direction between 4:00 pm and 7:00 pm. The parking enforcement personnel post signage extending parking restrictions to 8:00 pm.

LADOT also uses traffic enforcement officers for ticketing and towing vehicles that violate the posted parking restrictions. Once the inbound movement has completed, the coning is removed at 8:00 pm. Typically, afternoon and evening games only require parking restrictions on the westbound side. On game days that have an earlier starting time, LADOT makes adjustments on parking restriction times that affect both the westbound and eastbound directions. The program includes law enforcement personnel assisting in “clearing” the lanes throughout the inbound process.

Once inside Dodger Stadium, the route bears to the left utilizing a one-way inner ring roadway and proceeds to a specific alighting and boarding area at Lot G. The bus then continues on the one-way inner ring roadway to Lot P, at the upper deck level. This was a second stop implemented in 2014 to provide quick and easy access for upper deck/reserve deck fans to alight and board. Bus staging is also provided during the game, and allows for quick re-boarding for trips departing to Union Station. The return route during the game follows the same alignment as the trips to Dodger Stadium. The service from both lots travels out of Gate A (main gate on Vin Scully Drive) and travels along Cesar Chavez (stopping at Main St.) to Union Station.

Dodger fans holding pre-purchased tickets may ride to the stadium at no charge. Fans without game tickets may pay the regular Metro fare, or use other Metro prepaid media (day pass, weekly pass, monthly pass) to travel to the stadium.

Prior to each home stand, Dodger management provides Metro staff with an anticipated attendance level based on current ticket sales and projections based on a variety of factors. The number of buses used for the service varies based on an estimated attendance number. A minimum of seven (7) buses will be deployed for each game.

Beginning 90-120 minutes prior to the game start, buses operate on a “load-and-go” basis or every 10 minutes until the end of the second inning. Throughout the game, buses may travel between the stadium and stop approximately every 30 minutes from the third inning through the end of the seventh inning, at which time the frequency increases to 15-20 minutes. Buses are staged at the stadium to facilitate post game movement. Once the game is over, service is provided on a “load-and-go” basis.

Buses travel to Union Station and return back to Dodger Stadium for additional trips. The service continues operating up to 45 minutes after the game has ended.

Oftentimes, Dodgers will host special events at the Stadium (i.e. movie night, children running the bases, fireworks, etc.), service will continue to operate up to 20 minutes post special event or 45 minutes after the game has ended, whichever is greater.

Metrolink offers special train service on the Orange County line from Oceanside to Union Station when the Dodgers play against cross-town opponents, the Los Angeles Angels of Anaheim at Dodger Stadium. Metrolink trains depart from Union Station to Oceanside one hour after the last pitch.

### **Problems Encountered**

Since 2010, the Dodger organization and Metro have worked diligently to provide alternative public transit that has been focused on providing choices to the public to travel to Dodger Stadium for Major League baseball games and special events. We've incorporated walking and bicycle paths through major traffic points as options to driving in congested peak traffic times. Both organizations are committed to work cooperatively to develop sustainable operating plans for future events at Dodger Stadium.

DSE was designed to be located at Patsaouras Plaza however; the location at the Plaza has presented several difficulties. Line queuing was extremely difficult and as ridership increased, space became a significant issue. Metro also experienced several complaints from daily commuters on the crowding and inability to get through to continue their route of travel into Union Station. In the 2015 season, Metro will explore ways to relocate the service to the West Portal of Union Station.

The dedicated lane initially was implemented without law enforcement personnel to monitor compliance. It was discovered that without law enforcement present, vehicles continued to enter the bus only lane and impact travel for the service. Under these two seasons, their presence has greatly improved travel times.

### **Emissions Benefits**

New Flyer 40-foot low-floor buses were used for the event service. Each bus seats 38 passengers and accommodates an additional 17 standees (145% capacity). In addition, these buses are ADA compliant and can accommodate two (2) wheelchairs. The New Flyer bus is powered by a Compressed Natural Gas (CNG) Cummins ISL-G 320 8.9L engine.

Sunset Blvd. is the main collector street that connects Vin Scully Ave. to the Dodger Stadium main gate. Average weekday PM peak hour LOS on Sunset Blvd. is level D ( $V/C = 0.879$ ). The Los Angeles Department of Transportation (LADOT) has surveyed Sunset Blvd. on a game day, and the LOS is level F ( $V/C = 1.56$ ).

Further reducing emission is the fact that the start point for the service is Union Station. Thirty-one (31) bus lines and five (5) rail lines serve Union Station including: Metro, Foothill Transit, OCTA, Santa Clarita Transit, LADOT, Big Blue Bus, LAX Fly Away, and Torrance Transit. This area includes the Patsaouras Transit Plaza (15 lines), intersection of Cesar E. Chavez and Vignes St. (9 lines), El Monte Busway and Alameda St. (5 lines) and Alameda and Main Streets (2 lines). Union Station is also served by Metrolink, Amtrak, and Metro Rail Red, Purple and Gold Lines.

During the 2013 and 2014 baseball seasons, the DSE bus service carried 397,000 passengers. In addition, this service effectively reduced approximately 70,000 car trips and 3.88 million miles traveled. The majority of passengers that rode the DSE used public transportation to connect to this service at Union Station. Some fans came from as far away as Santa Barbara, San Diego, San Francisco, and the Central California region, including Modesto, Stockton, San Luis Obispo and Sacramento.

Metro staff has found that baseball fans are using transit more than ever to access the games. In 2010, 122,273 passengers rode the DSE to Dodger Stadium. By 2014, the passenger count increased to 210,677. This is a 72.3% increase over five-year timeframe.

Estimated Emissions Reduction from 2013 and 2014 Dodger Stadium Express

<b>Pollutant</b>	<b>2013 Tons Reduced</b>	<b>2014 Tons Reduced</b>
<b>ROG</b>	0.19	0.22
<b>NOx</b>	0.18	0.21
<b>CO</b>	0.51	0.6
<b>PM2.5</b>	0.15	0.18

**Contractor:** City of Norwalk – Norwalk Transit  
**Contract Number:** MS16114  
**Contract Amount:** \$45,000  
**Title:** Repower of Three Transit Buses with Near-Zero Natural Gas Engines

Discussion: The mission of Norwalk Transit System (NTS) is to serve the community by providing efficient transit service that is committed to quality, safety, and excellence.

Transportation accounts for about 33 % of Greenhouse Gas Emissions in the U.S. Ultimately, NTS' goal is to contribute to climate change by 1) reducing carbon outputs of motor vehicles and 2) through deployment of zero emission buses.

NTS requested \$45,000 in MSRC Clean Transportation Funding towards the purchase of (3) Cummins Westport ISL G NZ 8.9 liter natural gas engines as part of the acquisition of three (3) new Compressed Natural Gas (CNG) buses in 2017.

NTS entered into an Assignment & Assumption agreement with Erie Metropolitan Transit Authority (EMTA) for two (2) CNG buses. In addition, NTS is exercising the option with Jackson Transportation Authority (JTA) for one (1) CNG bus. These buses will replace the two (2) 2005 and one (1) 2006 New Flyer Hybrid Electric buses. By 2018, more than 60% of the fleet will be comprised of CNG buses.

The buses arrived to NTS in January 2018, with the engine scoped; the project has been completed satisfactorily, within budget and regulatory compliance.

#### **PROBLEMS ENCOUNTERED**

The project was completed without any hindrances or delays; the buses were actually delivered earlier than scheduled.

#### **EMISSION BENEFITS**

The mission of Norwalk Transit System (NTS) is to serve the community by providing efficient transit service that is committed to quality, safety and excellence. NTS' overall objective is to provide reliable transportation to the riding community by connecting residents to stations and stops for educational, employment and other activities and opportunities in the service area and the region. NTS routes connects patrons to many regional activity centers such as Los Angeles County Superior Court, Los Angeles county Regional Public Library, Los Angeles County Recorder's Office, State Employment Development Department, Norwalk City Hall, Cerritos College, and Rio Hondo College. Maintaining the buses and associated equipment will provide increased service reliability in ensuring the fleet has an overall higher mean distance between failures. Reliability is attractive not only to current customers who may consider taking NTS for additional trips but is attractive to potential customers who may consider taking public transportation if reliability is not degraded.

As previously stated, Transportation accounts for about 33 % of Greenhouse Gas Emissions in the U.S.

Ultimately, NTS' goal is to contribute to climate change by 1) reducing carbon outputs of motor vehicles and 2) through deployment of zero emission buses. An average private vehicle emission rate is about 1.0 pound of CO<sub>2</sub> per mile. An automobile driven by a single person 20 miles round trip to work will emit 20 pounds of CO<sub>2</sub>. Thus, for every person utilizing NTS transit service would result in reduction of greenhouse gas emissions. NTS has already contributed to reduction in emissions by changing fuel paths to CNG that emits up to 25% less greenhouse gas emissions (CO<sub>2</sub>) than diesel vehicles. Removal of the diesel/gasoline fueled buses from the fleet and incorporating zero and/or near zero mission technology will have most impact on the environment as this will remove diesel particulate matter (PM), hydrocarbons (HC), oxides of nitrogen (NOx) and carbon monoxide (CO) and other harmful air pollutants. All these smog-forming pollutants contribute to health risks including heart and lung disease.

Contractor: Arrow Services, Inc.  
Contract Number: MS16103  
Contract Amount: \$100,000  
Title: Construct New Public Access CNG Station

Discussion: The MSRC provided Clean Transportation Funding support to the Arrow Services, Inc. (ASI) new compressed natural gas (CNG) station project. This project encompassed the design, construction, and operation of a limited-public access CNG fueling station with 200 standard cubic feet per minute (SCFM) compression capability, ten time-fill dual-hose posts that are equipped with a total of 21 hoses, one quick fill capable hose and 12,200 standard cubic feet (SCF) of compressed gas storage.

The station is located at 14241 Proctor Avenue, La Puente, California, less than two miles from the 605 freeway and between the 10 and 60 freeways. This location provides excellent accessibility for Arrow's natural gas-fueled refuse trucks, which serve several residential neighborhoods within the vicinity, and the general public throughout the basin. In the first full month of station operation, throughput averaged 12,685 diesel gallon equivalents (DGE).

Currently it is averaging 14,380, at this current rate the station is projected to dispense over 172,643 DGE in the first full year of operation. The three-year contractual target is a minimum of 224,640 DGE per year, beginning in Year 3 of the contract. This target will be achieved as ASI continues to transition its fleet to natural gas operation; an additional eight CNG trucks are anticipated to meet this three-year target.

## **PROBLEMS ENCOUNTERED**

Below is a summary of challenges encountered during the implementation of this project:

- The primary setback was that the original construction and station design companies delayed project for four months with no progress on the project. Arrow had to terminate the construction agreement these companies and hire a new station builder and designer. The newly hired company that successfully completed the project was TruStar Energy CNG.
- Once the project was in the final design stage, the newly hired station design consultant designed and built the station with equipment previously ordered under the original contractors. When TruStar attempted to commission the station, they found that the Southern California Gas Company (SoCalGas) meter was too small to serve the compressor. As a result, SoCalGas replaced the meter with a larger meter, adding significant cost to overall station project, as well as a delay in schedule. Arrow covered the additional project costs, driving the overall project cost far above expectations.
- As is typical with CNG station projects, Southern California Edison (SCE) required an additional 45 days after the station was completed to install the electric meter.

- SoCalGas delayed first meter installation by 30 days that were not allocated in the schedule do to the retirement of their field planner.
- Permit approvals from the city took an extra 30 days beyond the original planned project schedule.

## **EMISSIONS BENEFITS**

Over the past 30 years, clean burning NGVs provided significant reductions in criteria and toxic air pollutant emissions compared to conventional gasoline and diesel vehicles. When NGVs were first introduced to the transportation market, initial NGVs reduced key pollutants emissions such as oxides of nitrogen (NOx) and particulate matter (PM) by up to 98 percent. More recently, the light-duty CNG-fueled Honda Civic, which unfortunately is no longer being produced, emitted half the NOx, 80 percent less non-methane hydrocarbon (NMHC) and 60 percent less carbon monoxide (CO) than the gasoline Civic. New CNG-fueled medium- and heavy-duty trucks and buses reduce NOx by more than 90 percent and PM by 98 percent, compared to older in-use diesel fueled versions. These benefits drive grant programs in California that fund the accelerated replacement of diesel fueled trucks and buses with natural gas technology, with grant funds targeted to cover the higher incremental cost of the cleaner technology over comparable diesel engines. It is noteworthy that natural gas technology's successful in-use operation in all vehicle classes over the past few decades contributed to CARB's ability to continually restrict vehicle and engine emissions, culminating in the current 0.2 and 0.01 gram per brake horsepower-hour NOx and PM standards, respectively, which have been met by both natural gas and diesel fuel technologies since 2010.

More recently, Cummins Westport Inc. certified its natural gas engine with both the U.S. EPA and CARB at the 90 percent NOx reduction level of 0.02 grams per brake horsepower-hour. This engine is currently available for medium heavy-duty vehicle applications, such as urban transit buses, school buses, and refuse trucks. Technologies such as these have the potential to further support the market deployment of medium- and heavy-duty natural gas trucks. By using both biomethane and low-NOX engines, natural gas trucks have the potential to reduce criteria pollutant and GHG emissions to levels near those of zero-emission battery and fuel cell electric vehicles.

All NGVs fueling at the Arrow station provide well-established environmental benefits, as evidenced by the South Coast Air Quality Management District's fleet rules, which require the use of clean fuels such as natural gas in a variety of fleet applications.

This new station supports state and local goals to increase petroleum fuel displacement in the region while enhancing air quality by reducing criteria pollutant and greenhouse gas emissions.

Below are photographs of the project station.

## **SUMMARY & RECOMMENDATIONS**

The successful design, construction and reliable operation of the ASI time-fill CNG station have been demonstrated during the station demonstration period. This station includes a 140 horsepower, 200 SCFM compressor and ten time-fill posts, with a total of 21 (20 time-fill and one quick-fill) hoses to provide simultaneous overnight fueling. Currently there are 18 ASI fleet vehicles using the time-fill system regularly on weeknights.

As a limited public access station, Arrow has arranged to allow fueling at this station by Nasa Service Inc., a refuse service company, when their drivers are in need of fuel.

The station construction and start-up followed well-established best practices for CNG station implementation (i.e., design, construction and commissioning). This station was designed to meet all applicable codes and standards for CNG fueling stations. These codes and standards were met in order to obtain approved plumbing, electrical and buildings permits and ultimately commission the station.

The actual measured throughput during the first month of data collection period was 12,685 DGE. Currently it is averaging 14,380, at this current rate the station is projected to dispense over 172,643 DGE in the first full year of operation. The three-year contractual target is a minimum of 224,640 DGE per year, beginning in Year 3 of the contract, which will be achieved once the planned additional eight CNG units are placed in service.

The GHG reduction benefits of natural gas as a transportation fuel are demonstrated by comparing the carbon intensity (CI) of natural gas to baseline fuels. According to the California Air Resources Board (CARB), "carbon intensity means the amount of lifecycle greenhouse gas emissions, per unit of energy of fuel delivered, expressed in grams of carbon dioxide equivalent per megajoule (gCO<sub>2</sub>e/MJ), where gCO<sub>2</sub>e/MJ is defined as grams of carbon dioxide per megajoule. In the case of CNG, CI is typically less than gasoline and diesel. According to the CARB's Low Carbon Fuel Standard (LCFS) regulation, the CI of CNG is 78.37 gCO<sub>2</sub>e/MJ. This compares with 102.01 gCO<sub>2</sub>e/MJ for diesel fuel and 98.47 gCO<sub>2</sub>e/MJ for gasoline. Based on current carbon intensity values, CNG provides a net reduction in greenhouse gas emissions of about 23 percent compared to gasoline and diesel.

A method to further reduce the CI of natural gas fuel is to procure natural gas that is derived from renewable feedstock, i.e., biogas, landfill gas or biomethane. Landfill gas (bio-methane) that is cleaned up to pipeline quality natural gas and compressed in California is rated by CARB with a CI of 46.42 gCO<sub>2</sub>e/MJ, far below existing pipeline natural gas. SoCalGas is investigating the availability of renewable feedstock for its pipeline. Should this become available, the CI of natural gas at this station would further improve (i.e., be lower than current estimates).

### **Recommendations**

Continued support for NGV implementation from state and local agencies in the form of vehicle buy-down incentives is important to ensure that existing and future natural gas fueling stations maximize their station throughput. The MSRC's support of low-NO<sub>x</sub> vehicle incentives is a great example of a

current program that will be instrumental in supporting the growth natural gas fueling station throughput.

AGENDA ITEM #3

MSRC Contracts Administrator's Report

MSRC-TAC Agenda Item No. 3

**DATE:** June 7, 2018

**FROM:** Cynthia Ravenstein

**SUBJECT:** AB 2766 Contracts Administrator's Report

**SYNOPSIS:** This report covers key issues addressed by MSRC staff, status of open contracts, and administrative scope changes from April 26 to May 30, 2018.

**RECOMMENDATION:** Receive and file report

**WORK PROGRAM IMPACT:** None

**Contract Execution Status**

**2016-18 Work Program**

On July 8, 2016, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On October 7, 2016, the SCAQMD Governing Board approved three awards under the Event Center Transportation Program and one award for a Regional Active Transportation Partnership Program. These contracts are executed.

On January 6, 2017, the SCAQMD Governing Board approved an award for development, hosting and maintenance of a new MSRC website. This contract is executed.

On April 7, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On June 2, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On July 7, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On September 1, 2017, the SCAQMD Governing Board approved one award under the Event Center Transportation Program and one award under the Natural Gas Infrastructure Program. These contracts are with the prospective contractor for signature or executed.

On October 6, 2017, the SCAQMD Governing Board approved two awards under the Event Center Transportation Program and one award under the Natural Gas Infrastructure Program. These contracts are executed.

On December 1, 2017, the SCAQMD Governing Board approved sole source awards for a Hydrogen Infrastructure Partnership Program, for a Southern California Future Communities Partnership Program, and for electric vehicle charging infrastructure planning analysis. These contracts are with the prospective contractor for signature. The MSRC has replaced the award to the California Energy Commission with a Program Opportunity Notice for the Hydrogen Infrastructure Partnership Program.

On February 2, 2018, the SCAQMD Governing Board approved one award under the Event Center Transportation Program, two awards under the Natural Gas Infrastructure Program, four awards under the Local Government Partnership Program, and two awards under the County Transportation Commission Partnership Program. These contracts are under development, with the prospective contractor for signature, or executed.

On March 2, 2018, the SCAQMD Governing Board approved one award under the Major Event Center Transportation Program, two awards under the Natural Gas Infrastructure Program, and one award under the Local Government Partnership Program. These contracts are under development, undergoing internal review, or with the prospective contractor for signature.

On April 6, 2018, the SCAQMD Governing Board approved one award under the Natural Gas Infrastructure Program and eight awards under the Local Government Partnership Program. These contracts are under development, undergoing internal review, or with the prospective contractor for signature.

On May 4, 2018, the SCAQMD Governing Board approved twenty-seven awards under the Local Government Partnership Program and one award under the County Transportation Commission Partnership Program. These contracts are under development or undergoing internal review.

#### **2014-16 Work Program**

On December 5, 2014, the SCAQMD Governing Board approved an award under the AB118 Enhanced Fleet Maintenance Program. This contract is executed.

On June 5, 2015, the SCAQMD Governing Board approved two awards under the Event Center Transportation Program and one award to provide low-emission transportation services to the Special Olympics World Games. These contracts are executed.

On September 4, 2015, the SCAQMD Governing Board approved 25 awards under the Local Government Match Program and one award under the Transportation Control Measure Partnership Program. These contracts are executed.

On October 2, 2015, the SCAQMD Governing Board approved 11 awards under the Local Government Match Program and one award under the Alternative Fuel Infrastructure Program. These contracts are executed.

On November 6, 2015, the SCAQMD Governing Board approved 37 awards under the Local Government Match Program. These contracts are with the SCAQMD Board Chair for signature or executed.

On December 4, 2015, the SCAQMD Governing Board approved one award under the Major Event Center Transportation Program, one award under the Alternative Fuel Infrastructure Program, and one award under the Transportation Control Measure Partnership Program. These contracts are executed.

On January 8, 2016, the SCAQMD Governing Board approved two awards under the Major Event Center Transportation Program, one award under the Local Government Match Program, and one award under the Transportation Control Measure Partnership Program. These contracts are executed.

On March 4, 2016, the SCAQMD Governing Board approved two awards under the Alternative Fuel Infrastructure Program. These contracts are executed.

On April 1, 2016, the SCAQMD Governing Board approved one award under the Major Event Center Transportation Program and five awards under the Transportation Control Measure Partnership Program. These contracts are executed.

On May 6, 2016, the SCAQMD Governing Board approved one award under the Major Event Center Transportation Program and one award under the Transportation Control Measure Partnership Program. These contracts are executed.

On June 3, 2016, the SCAQMD Governing Board approved one award under the Alternative Fuel Infrastructure Program. This contract is executed.

On October 7, 2016, the SCAQMD Governing Board approved ten awards under the Alternative Fuel Infrastructure Program and five awards under the Near-Zero Natural Gas Engine Incentives Program. These contracts are under development, with the prospective contractor for signature, or executed.

On January 6, 2017, the SCAQMD Governing Board approved an award under the Alternative Fuel Infrastructure Program and an award under the Near-Zero Natural Gas Engine Incentives Program. These contracts are executed.

#### **Work Program Status**

Contract Status Reports for work program years with open (including "Open/Complete") and/or pending contracts are attached.

#### ***FY 2004-05 Work Program Contracts***

One contract from this work program year is open.

#### ***FY 2004-05 Invoices Paid***

No invoices were paid during this period.

#### ***FY 2006-07 Work Program Contracts***

No contracts from this work program year are open; and one is in "Open/Complete" status.

*FY 2006-07 Invoices Paid*

No invoices were paid during this period.

***FY 2007-08 Work Program Contracts***

4 contracts from this work program year are open; and 2 are in “Open/Complete” status. One contract closed during this period: Los Angeles County Department of Public Works, Contract #ML08018 – Purchase Two Heavy-Duty CNG Vehicles.

*FY 2007-08 Invoices Paid*

No invoices were paid during this period.

***FY 2008-09 Work Program Contracts***

One contracts from this work program year is open; and 5 are in “Open/Complete” status. One contract passed into “Open/Complete” status during this period: City of Long Beach Fleet Services Bureau, Contract #ML09036 – Purchase 35 Natural Gas Refuse Trucks.

*FY 2008-09 Invoices Paid*

No invoices were paid during this period.

***FY 2010-11 Work Program Contracts***

4 contracts from this work program year are open; and 33 are in “Open/Complete” status. 3 contracts closed during this period: California Cartage Company, Contract #MS1101 – Retrofit Two Heavy-Duty Off-Road Vehicles; City of Glendale, Contract #ML11028 – Purchase 10 Heavy-Duty Natural Gas Vehicles; and CR&R, Contract #MS11017 – Expand CNG Station in Garden Grove.

*FY 2010-11 Invoices Paid*

No invoices were paid during this period.

***FY 2011-12 Work Program Contracts***

12 contracts from this work program year are open, and 33 are in “Open/Complete” status. One contract closed during this period: City of La Palma, Contract #ML12048 – Purchase 2 Medium-Duty LPG Vehicles.

*FY 2011-12 Invoices Paid*

No invoices were paid during this period.

***FYs 2012-14 Work Program Contracts***

35 contracts from this work program year are open, and 25 are in “Open/Complete” status. One contract closed during this period: Top Shelf Consulting, Contract #MS14089 – Enhanced Fleet Modernization Program.

*FYs 2012-14 Invoices Paid*

One invoice in the amount of \$125,000.00 was paid during this period.

***FYs 2014-16 Work Program Contracts***

74 contracts from this work program year are open, and 16 are in “Open/Complete” status. 2 contracts closed during this period: Coachella Valley Association of Governments, Contract

#ML16033 – Street Sweeping Operations in Coachella Valley; and City of Buena Park, Contract #ML16049 – Install Class I Bikeway.

*FYs 2014-16 Invoices Paid*

Six invoices totaling \$538,187.50 were paid during this period.

***FYs 2016-18 Work Program Contracts***

14 contracts from this work program year are open.

*FYs 2016-18 Invoices Paid*

One invoice in the amount of \$373.00 was paid during this period.

***Administrative Scope Changes***

3 administrative scope changes were initiated during the period of April 26 to May 30, 2018:

- County of Los Angeles, Department of Public Works, Contract #ML14026 (Install CNG Station – Castaic) – One-year no-cost term extension
- County of Riverside, Contract #ML14068 (Implement “Open Streets” Events) – Reallocate \$6,639 between tasks
- City of Irvine, Contract #ML14033 (Purchase Two Heavy-Duty Natural Gas Vehicles) – One-year no-cost term extension

**Attachments**

AGENDA ITEM #5

Contract Modification Request by  
City of San Dimas

MSRC-TAC Agenda Item No. 5

**DATE:** June 7, 2018

**FROM:** Cynthia Ravenstein

**SUBJECT:** One-Year Term Extension by City of San Dimas, Contract #ML16042

**SYNOPSIS:** The City requests a one-year contract term extension as part of the FYs 14-16 Local Government Match Program due to the unanticipated need to install separate meters for the charging stations.

**FINANCIAL IMPACT:** None

**RECOMMENDATIONS:** None

**ATTACHMENTS:** Contractor’s letter requesting modification

---

**DISCUSSION:**

**Contractor:** City of San Dimas  
**Project Title:** Install Electric Vehicle Charging stations  
**MSRC Funding:** \$55,000  
**Project Term:** April 1, 2016 to December 31, 2020  
**Current Request:** One-year term extension  
**Previous Requests:** One-year term extension

Project Description: The MSRC awarded the City \$55,000 to install a total of four “Level II” type, publicly accessible electric vehicle (EV) charging stations. The majority of the site design and permitting has been completed; nothing has been paid to date on this contract.

Previous Request: The City indicated that a major renovation of their downtown area, which included updates to the underground electrical circuits, had delayed their installation of the stations. The City requested a one-year contract term extension. This modification was processed administratively.

Contract Request: The City now indicates that recent feedback from Southern California Edison (SCE) requires the installation of separate meters for the EV charging stations. Not only does this require additional work to complete the project, but also additional time for SCE review of the plans. The project is expected to be ready to bid in June 2018. The City requests a one-year contract term extension to complete the project.

RE: MSRC Local Government Match Program Progress Report and Request for Extension - Contract No. ML16042

Dear Mr. Mackenzie:

The City of San Dimas is writing to provide a second Progress Report update regarding Contract No. ML16042 for the MSRC Local Government Match Program. The project involves installing four (4) Level II electric vehicle charging stations that can charge up to seven (7) electric vehicles at a time across three (3) specified locations throughout the City, including the two Municipal Parking Lots in the City's Downtown (nearest 135 and 165 E Bonita Ave.) and the Municipal Yard public parking lot (301 S Walnut Ave.).

To date, the City has met with Southern California Edison (SCE) twice to review and confirm power sources at the designated locations. The City made adjustments to the electrical infrastructure at the 165 E Bonita Ave. location in response to the first meeting with SCE, as detailed in the June 30, 2017 Progress Report letter.

However, the City received new information from SCE in the last field meeting. SCE is requiring the installation of separate meters because the stations will be on a separate rate from the existing meters. This adds additional work to accomplish the project. This also requires SCE to review the plans. SCE's plan review time takes approximately 8 to 12 weeks. **Therefore, the City is writing to request a second and final one-year extension to the contract period, following the below schedule:**

<b>Task</b>	<b>Original Contract</b>	<b>Extension 1 - Amendment A</b>	<b>Extension 2 - Requested</b>
Site Design & Permitting	Month 3	Month 15	Month 27 <i>(July 2018)</i>
Submit Public Outreach Plan	Month 4	Month 16	Month 28 <i>(August 2018)</i>
Complete EV Station Installations & Enter Into Service	Month 6	Month 18	Month 30 <i>(October 2018)</i>
Implement Public Outreach Plan	Month 8	Month 20	Month 32 <i>(December 2018)</i>
Quarterly Reports	Month 4	Month 16	Month 28 <i>(August 2018)</i>
Final Report	Month 9	Month 21	Month 33 <i>(January 2019)</i>

**Thus far, the City has Accomplished:**

Task 1      Site Design & Permitting

The City entered into an agreement with PBS Engineering for electrical engineering design services for electric vehicle charging stations at the specified locations. The designs are 75% complete.

The plans were complete prior to the new information received from SCE. These updates are being implemented now and will be routed through plan checks with SCE and the City's Building and Safety Department.

Percent Completed this Reporting Period	75%
Percent Complete	75%

Task 2      Bid Process

Once the site designs/ plans are approved and permitting is complete from SCE and the City's Building and Safety Department, the project will be ready to bid. We anticipate this will take place in June 2018.

Percent Completed this Reporting Period	0%
Percent Complete	0%

Task 3      Pre-Construction Meeting

The City will meet with the awarded contractor to review the scope of work and contract in detail prior to commencing construction.

Percent Completed this Reporting Period	0%
Percent Complete	0%

Task 4      Construction

The City anticipates construction will take no more than three months, commencing in July 2018.

Percent Completed this Reporting Period	0%
Percent Complete	0%

Task 5      Enter Into Service

The City anticipates the electric vehicle charging stations will enter into service by September 2018 at which time the Public Outreach Plan implementation will begin.

Percent Completed this Reporting Period	0%
Percent Complete	0%

**Issues During Current Reporting Period:**

To reiterate, the issues experienced during this reporting period are regarding SCE's additional requirements for separate meters, which increase the scope of work and plan review time. The result is the City is currently updating the plans to address this. **However, as this requires additional time, the City is requesting an additional one-year extension to this contract, ML16042.**

**Work Planned for Next Reporting Period:**

1. Complete and submit the site design plans for approval and permitting to SCE and the City's Building and Safety Department;
2. Order the electric vehicle charging stations and meter boxes to account for lead time, and have in advance of commencing construction;

3. Bid and award the project, hold pre-construction meeting, and commence construction; and
4. Prepare and submit the Public Outreach Plan.

Thank you for your review and consideration of this extension. If you have any questions or need additional information, please contact me at (909)394-6244 or via e-mail at sgeschwind@ci.san-dimas.ca.us.

Sincerely,

Sasha Geschwind  
Environmental Services Coordinator

03-18-07 sng

CC: Krishna Patel, Director of Public Works

AGENDA ITEM #6

Contract Modification Request by  
City of Eastvale

MSRC-TAC Agenda Item No. 6

**DATE:** June 7, 2018

**FROM:** Cynthia Ravenstein

**SUBJECT:** Modified Project Description by City of Eastvale, Contract #ML18064 (proposed)

**SYNOPSIS:** The MSRC awarded funding to the City of Eastvale to purchase two medium-duty zero emission vehicles (ZEVs) and to install electric vehicle (EV) charging stations. Due to changes in City priorities, the City requests to modify the project description to the procurement of two light-duty ZEVs and one medium-duty ZEV, in addition to the EV charging stations, with no change to the total award amount, as part of the FYs 2016-18 Local Government Partnership Program.

**FINANCIAL IMPACT:** None

**RECOMMENDATIONS:** None

**ATTACHMENTS:** Contractor's revised implementation plan

**DISCUSSION:**

**Contractor:** **City of Eastvale**

**Project Title:** Purchase Two Medium-Duty ZEVs and Install EV Charging Stations

**MSRC Funding:** \$80,400

**Project Term:** Not yet executed

**Current Request:** Procure two light-duty ZEVs and one medium-duty ZEV instead of two medium-duty ZEVs

**Previous Requests:** None

**Project Description:** The MSRC awarded the City of Eastvale a total of \$80,400 to purchase two medium-duty ZEVs (\$71,722) and to install limited access EV charging stations (\$8,678). A contract has not yet been executed to effectuate this award.

**Contract Request:** Subsequent to the award, the City's vehicle procurement priorities have changed. Instead of purchasing two medium-duty ZEVs, the City requests to procure two light-duty ZEVs and one medium-duty ZEV. There would be no change in the EV charging stations project element, nor would there be any change in the total award amount. In accordance with the terms of the MSRC's FYs 2016-18 Local Government Partnership Program, each of the light-duty vehicles would be eligible for reimbursement of 50% of the net purchase cost (after any

manufacturer, federal, and State rebates and incentives), not to exceed \$10,000 per vehicle. The medium-duty ZEV would be eligible for 50% of the net purchase cost, not to exceed \$100,000. Any unused funding would revert to the AB 2766 Discretionary Fund.

## City of Eastvale

### PROJECT IMPLEMENTATION PLAN (Revised)

#### Zero Emission Vehicles Purchases – Light Duty

The City proposes to purchase zero emission vehicle(s) for the City staffs. The City is interested in purchasing two light duty zero emission vehicles, and will be shopping for a vehicle that will be eligible for reimbursement through MSRC 2017 Local Government Partnership Program.

#### Zero Emission Vehicles Purchases – Medium Duty

The City proposes to purchase zero emission vehicle(s) for the City staffs. The City is interested in purchasing medium duty zero emission vehicle, and will be shopping for a vehicle that will be eligible for reimbursement through MSRC 2017 Local Government Partnership Program.

#### Electric Vehicle Charging Infrastructure (EVSE) Installation – Private Access

The City installed two EVCE at one of the Fire Stations in the City to be utilized by the City employees. Two (2) Dual JuiceBox Pro40C were installed. The cost of the installation was \$17,355.

AGENDA ITEM #7

Contract Modification Request by  
Riverside County Transportation Commission

MSRC-TAC Agenda Item No. 7

**DATE:** June 7, 2018

**FROM:** Cynthia Ravenstein

**SUBJECT:** Modified Project Description and One-Year Term Extension by Riverside County Transportation Commission (RCTC), Contract #MS16082

**SYNOPSIS:** State Route 91 project schedule changes resulted in a much later start for the “Extended Service Period” Freeway Service Patrol (FSP) funded by the MSRC. RCTC requests a no-cost, 12-month extension, as well as a modification to the scope to allow for reimbursement of extended FSP services beyond the construction period which concluded in March 2018, as part of the FYs 2014-16 County Transportation Commission Partnership Program.

**FINANCIAL IMPACT:** None

**RECOMMENDATIONS:** None

**ATTACHMENTS:** Contractor’s letter requesting modification

---

**DISCUSSION:**

**Contractor:** **Riverside County Transportation Commission**

**Project Title:** Extended Freeway Service Patrol

**MSRC Funding:** \$590,759

**Project Term:** September 3, 2016 to August 2, 2018

**Current Request:** Modify project description to allow for FSP beyond construction period and one-year term extension

**Previous Requests:** None

**Project Description:** The MSRC awarded RCTC \$590,759 to implement extended FSP service during mid-day periods and weekends. This service was to go beyond the regular FSP service already provided Monday through Friday during peak commute hours, and be provided during the expansion of State Route 91 from the Orange County Line to Lincoln Avenue, and State Route 91 from Lincoln Avenue to Magnolia Avenue, including the State Route 91 and Interstate 15 interchanges. RCTC proposed that MSRC funding be used during the last phase of construction, with other funding sources covering the earlier phases. State Route 91 construction concluded in March 2018. \$257,160 has been paid to date under this contract.

Contract Request: RCTC indicates that State Route 91 project schedule changes resulted in a much later start than anticipated for the “Extended Service Period” of FSP funded by the MSRC. RCTC requests that the project description be changed to allow funding for extended FSP services beyond the construction period. RCTC also requests a one-year term extension.

May 31, 2018

Mr. Matt Mackenzie  
MSRC Contracts Administration  
Clean Transportation Funding from MSRC  
21865 Copley Drive  
Diamond Bar, CA 91765

Subject: Contract Number MS16082

State Route 91 (SR-91) project schedule changes resulted in a much later start for the “Extended Service Period” Freeway Service Patrol (FSP) funded by the MSRC; therefore, the Riverside County Transportation Commission (Commission) respectfully requests a no-cost, 12-month extension for Contract MS16082. The Commission also requests a modification to the scope to allow for reimbursement of extended FSP services beyond the construction period that concluded in March 2018.

The requested extension will afford continued FSP service on the weekends along the SR-91 from the Orange County line to Magnolia Avenue, including the SR-91 and Interstate 15 interchanges, which to date has assisted thousands of motorists and has had positive impacts to congestion, safety, and air quality.

Thank you for your consideration. Please contact me at (951) 787-7943 if you have any questions or concerns regarding this request.

Sincerely,

Brian Cunanan  
Commuter and Motorist Assistance Program Manager

AGENDA ITEM #8

Contract Replacement Request by  
City of Bellflower

MSRC-TAC Agenda Item No. 8

**DATE:** June 7, 2018

**FROM:** Cynthia Ravenstein

**SUBJECT:** Authorize Issuance of New Contract to Complete Work Initiated by City of Bellflower under Contract #ML12051

**SYNOPSIS:** The MSRC awarded the City \$270,000 to install fifteen Level II electric vehicle charging stations; this was subsequently modified to \$100,000 for two fast charge stations. The MSRC authorized an extension, but the contract lapsed on May 6, 2018 without the City returning the modification documents. The City has now requested to complete the project. Staff recommends that, should the MSRC wish to grant the City's request, a new contract be executed to complete the project.

**FINANCIAL IMPACT:** \$100,000 towards the charging stations is committed under #ML12051, and will become available to fund a replacement contract if so authorized by the MSRC.

**RECOMMENDATIONS:** None

---

**DISCUSSION:** The MSRC originally awarded the City \$270,000 to install fifteen Level II electric vehicle charging stations; Contract #ML16035 was executed to effectuate the award. This was subsequently modified to \$100,000 for two fast charge stations. No work has been completed and nothing has been paid to date on this contract.

In January 2018, the City requested a one-year contract term extension. Due to the impending contract expiration on February 6, 2018, a three-month term extension was processed administratively in order to allow sufficient time for the MSRC to consider the remainder of the extension request. At their March 15, 2018 meeting, the MSRC approved an additional nine-month extension. However, the contract lapsed on May 6, 2018 without the City returning the contract modification documents.

When MSRC staff followed up with the City on May 12, 2018, City staff indicated that the modification documents might have been misplaced, and on May 15, 2018, the City submitted a request to complete the project.

SCAQMD has expressed concerns regarding executing extensions of lapsed contracts, so the modification could not be executed. SCAQMD recommends that a new contract be executed to complete the project, should the MSRC wish to grant the County's request.

Nothing has been paid to date on the previous contract, so the new contract value would be \$100,000.

**Re: Contract #AB2766/ ML 12051 EV Charging Infrastructure – Contract Replacement Request**

Dear Ms. Alfaro:

Please accept this letter as the City of Bellflower's (City's) contract replacement request for the amendment extending the MSRC contract's expiration date through December 6, 2019. Should you have any questions regarding this request, please do not hesitate to contact me at 562-804-1424, extension 2233 or at [biniguez@bellflower.org](mailto:biniguez@bellflower.org).

Sincerely,

AGENDA ITEM #11

2018 Clean Fuels/Clean Technologies  
Conference Calendar

## Clean Fuels and Clean Technologies Conference Calendar for 2018

June 2018

- June 4-7      Advanced Automotive Battery Conference, San Diego, CA. Website:  
<http://advancedautobat.com/us/>
- June 4-7      Transforming Mobility for the 21<sup>st</sup> Century-ITS 27<sup>th</sup> Annual Meeting, Detroit MI.**  
**Website: <https://itsdetroit2018.org/program/>**
- June 6-7      xEV Battery Technology, San Diego, CA. Website:  
<http://www.advancedautobat.com/aabc-us/automotive-batteries.html>
- June 6-7      EV Technology for Specialty Transportation, San Diego, CA. Website:  
<http://www.advancedautobat.com/aabc-us/ev-transportation.html>
- June 12      National Fuel Cell & Hydrogen Forum, Washington D.C. Website:**  
**[http://content.energycentral.com/events/34307/?utm\\_source=2018\\_05\\_24&utm\\_medium=eNL&utm\\_content=247485&utm\\_campaign=CONFWATCH](http://content.energycentral.com/events/34307/?utm_source=2018_05_24&utm_medium=eNL&utm_content=247485&utm_campaign=CONFWATCH)**
- June 20-21    SAE Automated & Connected Vehicle Systems Testing Symp. Greenville S.C. Website:  
<https://www.sae.org/attend/automated-and-connected-vehicle-systems-testing-symposium>
- June 27      National Fuel Cell Symposium, Sacramento, CA. Website:  
<http://www.nfcrc.uci.edu/3/default.aspx>
- June 25-29    27<sup>th</sup> World Gas Conference, Washington D.C. Website:  
<http://email.foundrydigital.com.au/t/ViewEmail/r/050E3A977463D65A2540EF23F30FEDE/3F56A6A1176C29D0A0F01D70678E0DEE>

August 2018

- Aug 16      Women in Green Forum, Los Angeles, CA. Website:**  
**<https://www.eventbrite.com/e/9th-annual-women-in-green-forum-registration-40850311381>**

September 2018

- Sept 24-27    Hydrogen + Fuel Cells North America, Anaheim, CA. Website:  
<https://www.h2fc-fair.com/usa/>
- Sept 25-26    Prevention First 2018-Onshore/Offshore Pollution Prevention Symposium, Long Beach CA. Website: <http://www.slc.ca.gov/About/PF.html>**
