

**MOBILE SOURCE AIR POLLUTION REDUCTION REVIEW COMMITTEE
MSRC AGENDA
Thursday, October 17, 2019 at 2:00 p.m.**

LOCATION

South Coast Air Quality Management District
21865 Copley Drive, Conf. Room CC8, Diamond Bar, CA 91765

TELECONFERENCE LOCATIONS

1. Los Angeles County MTA Headquarters, Henry Huntington Room, 3rd Floor
One Gateway Plaza, Los Angeles, CA 90012
2. City of Wildomar City Hall, Council Chambers
23873 Clinton Keith Road, Wildomar, CA 92595
(Public may attend at any of the above locations)

MSRC Committee Members

MSRC Chair

Larry McCallon
Member, Board of Directors, SBCTA
Representing San Bernardino County
Transportation Authority
Alternate: John Valdivia, Board of Directors,
SBCTA

Brian Berkson
Representing Riverside County Transportation
Commission

Jack Kitowski, CARB Staff
Representing California Air Resources Board
Alternate: Michael Carter, CARB Staff

MSRC Vice-Chair

Greg Winterbottom
Member, Board of Directors, OCTA
Representing Orange County Transportation
Authority
Alternate: Tim Shaw, Chair, Board of Directors,
OCTA

Ben Benoit
Member, SCAQMD Governing Board
Representing South Coast Air Quality
Management District

Vacant
Representing Regional Rideshare Agency
Alternate: Dolores Roybal Saltarelli, MTA Staff

Steve Veres, Member, LACCD Board of
Trustees
Representing Los Angeles County MTA
Alternate: Mark Yamarone, MTA Staff

Rex Richardson
Member, SCAG Reg. Council
Representing Southern California Association of
Governments
Alternate: Meghan Sahli-Wells, Member, SCAG
Reg. Council

Members of the public may address this body concerning any agenda item before or during consideration of that item (Gov't Code Section 548543.(a)). Please provide a Request to Address the Committee card to the Administrative Liaison if you wish to address the Committee on an agenda item. If no cards are available, please notify SCAQMD staff or a Committee Member of your desire to speak. All agendas for regular meetings are posted at District Headquarters, 21865 Copley Drive, Diamond Bar, California, at least 72 hours in advance of the regular meeting. Speakers may be limited to three (3) minutes each.

CALL TO ORDER

Opening Comments: Larry McCallon, MSRC Chair
Other MSRC Members
Naveen Berry, Asst. DEO/Science & Technology Advancement

STATUS REPORT

Clean Transportation Policy Update

Ravenstein

The Clean Transportation Policy Update provides information on key legislative and regulatory initiatives of potential interest to the MSRC. The report can be viewed at www.cleantransportationfunding.org.

CONSENT CALENDAR (Items 1 through 6)

Receive and Approve

1. Minutes of the June 20 and August 15, 2019 MSRC Meetings

Cedillo,
p. 1

June 2019 minutes to be distributed at meeting.

2. Summary of Final Reports by MSRC Contractors

Gorski,
p. 15

- City of Santa Monica, MS12060
(\$500,000 – Implement Westside Bikeshare Program)
- Los Angeles County MTA, MS16113
(\$1,875,000– Repower 125 Transit Buses with Near-Zero Natural Gas Engines)

Information Only - Receive and File

3. MSRC Contracts Administrator's Report

Ravenstein
p. 23

This report covers key issues addressed by MSRC staff, status of open contracts, and administrative scope changes from July 25 through October 9, 2019.

4. Financial Report on AB 2766 Discretionary Fund

Kampa
p. 56

Financial Report for September 2019.

For Approval – As Recommended

5. Consider Three-Year Term Extension by City of Baldwin Park, Contract #ML12045 (\$400,000 – Install CNG Station)

Ravenstein
p. 57

The City requests a three-year term extension due to unexpected delays associated with third party agencies' review and approval of the construction plans. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL**

ACTION CALENDAR (Items 6 through 8)

FY 2011-12 WORK PROGRAM

6. Consider Substitution of Five Level II Charging Stations for Two Level III Charging Stations and Term Extension to June 30, 2020 by City of Bellflower, Contract #ML12091 (\$100,000 – Install EV Charging Infrastructure)

Ravenstein
p. 61

The City indicates that the power supply at their new parking structure will not accommodate the specified Level III charging stations. The City requests to substitute the installation of five Level II stations for the two Level III stations, with no change to the contract value. The City also requests a term extension to June 30, 2020. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL**

FYs 2018-21 WORK PROGRAM

7. Consider Option to Extend the Technical Advisor's Contract for Another Two-Year Term or Initiate Request for Proposals

Ravenstein,
p. 64

The current contract for MSRC Technical Services with Raymond Gorski was executed in October 2017 and currently expires December 31, 2019. It contains a provision to extend the term for an additional two years to perform services from January 1, 2020 through December 31, 2021, for an amount not to exceed \$363,300. This item is to consider exercising this option or initiating a Request for Proposals for MSRC Technical Advisor Services. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS THAT THE MSRC EXERCISE THE CONTRACT OPTION**

8. Update on Implementation of the FYs 2018-21MSRC Work Program **Gorski**

MSRC staff will provide an update on progress in implementing the FYs 2018-21 Work Program, including but not limited to the Inland Ports (focused on distribution centers in the Inland Empire), Last Mile (focused on transportation following departure from distribution centers), Maritime Ports (focused on the Ports of Long Beach and Los Angeles), and Zero/Near-Zero Truck Cooperative (focused on creating a streamlined process to assist small businesses and encourage fleet turnover) work program elements.

OTHER BUSINESS

9. **Any member of the committee, on his or her own initiative or in response to questions posed by the public, may ask a question for clarification, may make a brief announcement or report on his or her own activities, provide a reference to staff regarding factual information, request staff to report back at a subsequent meeting concerning any matter, or may take action to direct staff to place a matter of business on a future agenda. (Govt. Code Section 54954.2)* **McCallon p. 66**

PUBLIC COMMENT PERIOD - (Public Comment on Non-Agenda Items, Pursuant to Government Code Section 54954.3)

At the end of the regular meeting agenda, an opportunity is provided for the public to speak on any subject within the Committee’s authority that is not on the agenda. Speakers may be limited to three (3) minutes each.

ADJOURNMENT

NEXT MEETING: Date: November 21, 2019, 2:00 p.m., Room CC8

Americans with Disabilities Act

The agenda and documents in the agenda packet will be made available, upon request, in appropriate alternative formats to assist persons with a disability (Gov’t Code Section 54954.2(a)). Disability-related accommodations will also be made available to allow participation in the MSRC meeting. Any accommodations must be requested as soon as practicable. Requests will be accommodated to the extent feasible. Please contact Penny Shaw Cedillo at (909) 396-3179 from 7:00 a.m. to 5:30 p.m., Tuesday through Friday, or send the request to pcedillo@aqmd.gov.

Pursuant to SB 343

All documents (i) constituting non-exempt public records, (ii) relating to an item on an agenda for a regular meeting, and (iii) having been distributed to at least a majority of the Committee after the Agenda is posted, are available prior to the meeting for public review at the South Coast Air Quality Management District, Public Information Center, 21865 Copley Drive, Diamond Bar, CA 91765.

Contacts: Cynthia Ravenstein, MSRC Contracts Administrator - (909) 396-3269
Ray Gorski, MSRC Technical Advisor – (909) 396-2479
Penny Shaw Cedillo, MSRC Administrative Liaison – (909) 396-3179

AGENDA ITEM #1

Minutes of the August 15, 2019 MSRC Meeting

**MOBILE SOURCE AIR POLLUTION REDUCTION REVIEW COMMITTEE
THURSDAY, AUGUST 15, 2019 MEETING MINUTES
21865 Copley Drive, Diamond, Bar, CA 91765 - Conference Room CC-8**

MEMBERS PRESENT:

(Chair) Larry McCallon, representing SBCTA
(Vice-Chair) Greg Winterbottom, representing OCTA
Brian Berkson, representing RCTC
Michael Carter (Alt.), representing California Air Resources Board
Dolores Roybal Saltarelli (Alt.), representing Regional Rideshare Agency (via v/c)
Tim Shaw (Alt.), representing OCTA
Mark Yamarone (Alt.), representing Los Angeles County MTA (via v/c)

MEMBERS ABSENT:

Ben Benoit, Jack Kitowski, representing California Air Resources Board
Rex Richardson, representing SCAG
Steve Veres, representing Los Angeles County MTA

MSRC-TAC MEMBERS PRESENT:

Steven Lee, Los Angeles County MTA
Rongsheng Luo, representing SCAG

OTHERS PRESENT:

Rubin Aronin, Better World Group Advisors
Dalina Clemente, City of Eastvale
Lauren Dunlap, SoCalGas/Sempra
Jennifer Farinas, OCTA
Ric Teano, OCTA
Louis Zhao, OCTA

SOUTH COAST AQMD STAFF & CONTRACTORS

Leah Alfaro, MSRC Contracts Assistant
Naveen Berry, Asst. Deputy Executive Officer
Ray Gorski, MSRC Technical Advisor-Contractor
Daphne Hsu, Senior Deputy District Counsel
John Kampa, Financial Analyst
Cynthia Ravenstein, MSRC Contracts Administrator
Paul Wright, Information Technology Specialist

CALL TO ORDER

- Call to Order

MSRC Chair Larry McCallon called the meeting to order at 2:03 p.m.

Roll call was taken at the start of the meeting. The following members and alternates were present: MICHAEL CARTER, LARRY MCCALLON, DOLORES ROYBAL SALTARELLI, TIM SHAW, GREG WINTERBOTTOM, MARK YAMARONE.

- Opening Comments

Cynthia Ravenstein, MSRC Contracts Administrator presented a video from MSRC/Metro Day at the Dodgers where MSRC Member Jack Kitowski and Los Angeles City Councilmember Paul Krekorian, District 2 threw out the first pitches.

MSRC Chair Larry McCallon stated for the record that for Agenda Item #2, he does not have any financial interest, but is required to identify that he is a Member of the Board of Directors for Southern California Regional Rail Authority (Metrolink), which is involved in this item.

MSRC Vice-Chair Greg Winterbottom stated for the record that for Agenda Items #2 and #8, he does not have any financial interest, but is required to identify that he is a Member of the Board of Directors for the Orange County Transportation Authority, and a Member of the Board of Directors for Southern California Regional Rail Authority (Metrolink), which are involved in these items.

MSRC Alternate Dolores Roybal Saltarelli stated that she does not have any financial interest in Item #2 but is required to identify that she is employed by Los Angeles County Metropolitan Transportation Authority, which is involved in this item.

MSRC Alternate Mark Yamarone stated that he does not have any financial interest in Item #2 but is required to identify that he is employed by Los Angeles County Metropolitan Transportation Authority, which is involved in this item.

CONSENT CALENDAR (Items 1 through 7)**Receive and Approve Items****Agenda Item #1 – Minutes for the April 18, May 16 and June 20, 2019, MSRC Meetings**

The minutes of the April 18 and May 16, 2019 MSRC meetings were included in the agenda package. The June 20, 2019 meeting minutes were not available.

ON MOTION BY MSRC VICE-CHAIR GREG WINTERBOTTOM, AND SECONDED BY MSRC CHAIR LARRY MCCALLON, UNDER APPROVAL OF CONSENT CALENDAR ITEMS #1 THROUGH #7, THE MSRC UNANIMOUSLY APPROVED THE APRIL 18 AND MAY 16, 2019 MSRC MEETING MINUTES.

AYES: CARTER, MCCALLON, ROYBAL SALTARELLI, WINTERBOTTOM, YAMARONE.

NOES: NONE.

ACTION: Staff will include the April 18 and May 16, 2019 MSRC meeting minutes in the MSRC Committee Report for the September 6, 2019 South Coast AQMD Board meeting and will place a copy on the MSRC's website.

Agenda Item #2 – Summary of Final Report by MSRC Contractors

The MSRC received and approved a final reports summary this month, as follows:

- Orange County Transportation Authority, Contract #MS16112, to repower up to 98 transit buses
- Southern California Regional Rail Authority (Metrolink), Contract #MS18010, to implement Special Metrolink Service to Union Station
- Los Angeles County MTA, Contract #MS18025, for special bus and train service to Dodger Stadium
- Southern California Regional Rail Authority (Metrolink), Contract #MS18105, for special transit service to the Festival of Lights

ON MOTION BY MSRC VICE-CHAIR GREG WINTERBOTTOM, AND SECONDED BY MSRC CHAIR LARRY MCCALLON, UNDER APPROVAL OF CONSENT CALENDAR ITEMS #1 THROUGH #7, THE MSRC UNANIMOUSLY APPROVED THE FINAL REPORTS LISTED ABOVE.

AYES: CARTER, MCCALLON, ROYBAL SALTARELLI, WINTERBOTTOM, YAMARONE.

NOES: NONE.

ACTION: MSRC staff will file the final reports and release any retention on the contracts.

Agenda Item #3 – MSRC Contracts Administrator’s Report

The MSRC AB 2766 Contracts Administrator’s Report for May 30 through July 24, 2019 was included in the agenda package.

ON MOTION BY MSRC VICE-CHAIR GREG WINTERBOTTOM, AND SECONDED BY MSRC CHAIR LARRY MCCALLON, UNDER APPROVAL OF CONSENT CALENDAR ITEMS #1 THROUGH #7, THE MSRC UNANIMOUSLY VOTED TO RECEIVE AND FILE THE CONTRACTS ADMINISTRATOR’S REPORT FOR MAY 30 THROUGH JULY 24, 2019.
AYES: CARTER, MCCALLON, ROYBAL SALTARELLI, WINTERBOTTOM, YAMARONE.
NOES: NONE.

ACTION: Staff will include the MSRC Contracts Administrator’s Report in the MSRC Committee Report for the September 6, 2019 South Coast AQMD Board meeting.

Agenda Item #4 – Financial Report on AB 2766 Discretionary Fund

A financial report on the AB 2766 Discretionary Fund for July 2019 was included in the agenda package.

ON MOTION BY MSRC VICE-CHAIR GREG WINTERBOTTOM, AND SECONDED BY MSRC CHAIR LARRY MCCALLON, UNDER APPROVAL OF CONSENT CALENDAR ITEMS #1 THROUGH #7, THE MSRC UNANIMOUSLY VOTED TO RECEIVE AND FILE THE FINANCIAL REPORT FOR THE PERIOD ENDING JULY 2019.
AYES: CARTER, MCCALLON, ROYBAL SALTARELLI, WINTERBOTTOM, YAMARONE.
NOES: NONE.

ACTION: No further action is required.

Agenda Item #5 – Consider Reduced Scope and Value and 26-Month Term Extension by City of Hemet, Contract #ML12043 (\$60,000 – Purchase Two Heavy-Duty CNG Vehicles)

The City requests to remove tasks and funding associated with the purchase of the CNG vector truck. The City also requests a 26-month term extension due to delays associated with new

Finance Department procedures. THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL.

ON MOTION BY MSRC VICE-CHAIR GREG WINTERBOTTOM, AND SECONDED BY MSRC CHAIR LARRY MCCALLON, MSRC UNANIMOUSLY VOTED TO APPROVE THE REDUCED SCOPE AND VALUE AND 26-MONTH TERM EXTENSION FOR THE CITY OF HEMET, CONTRACT #ML12043.

AYES: CARTER, MCCALLON, ROYBAL SALTARELLI, WINTERBOTTOM, YAMARONE.

NOES: NONE.

ACTION: MSRC Staff will amend the above contract accordingly.

For Approval – As Recommended

Agenda Item #6 – Consider Revised Locations, Increasing Stations from Six to Twenty, and Two-Year Contract Term Extension for the City of Eastvale, Contract #ML16040 (\$110,000 – Install EV Charging Infrastructure)

As a result of lower than anticipated costs and proposed changes in the proposed locations, the City requests to increase the number of stations to be installed from six (two limited access and four public access) to twenty public access. The City also requests a two-year extension due to the location changes. THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL.

ON MOTION BY MSRC VICE-CHAIR GREG WINTERBOTTOM, AND SECONDED BY MSRC CHAIR LARRY MCCALLON, MSRC UNANIMOUSLY VOTED TO APPROVE REVISED LOCATIONS, INCREASED NUMBER OF STATIONS, AND TWO-YEAR CONTRACT TERM EXTENSION FOR THE CITY OF EASTVALE, CONTRACT #ML16040.

AYES: CARTER, MCCALLON, ROYBAL SALTARELLI, WINTERBOTTOM, YAMARONE.

NOES: NONE.

ACTION: MSRC Staff will amend the above contract accordingly.

ACTION CALENDAR (Item 7 through 10)**FYs 2016-18 WORK PROGRAM****Agenda Item #7 – Consider Exercising Option with Geographics for Hosting and Maintenance of the MSRC Website**

Cynthia Ravenstein, MSRC Contracts Administrator, reported that back in 2017 the MSRC entered its current contract with Geographics for design, hosting and maintenance of the MSRC website. The contract allowed for a two-year extension contingent upon allocation of funds by the MSRC and approval by the South Coast AQMD's Governing Board. There was an error when the contract was originally written. The contract actually does not expire until February 20, 2021, but there are no funds available to continue doing the work beyond July 2019. MSRC staff reviewed Geographic's performance over the term of the contract and found that they had worked well during the development phase. They created a flowchart, created and designed a beta version of the site, and took a lot of input. Subsequent to the launch of the site, they worked with staff to identify and resolve functionality issues. They also provided initial and supplemental training to MSRC staff and other authorized users such as the Better World Group. Following that initial launch and issue resolution period, they have been quick to respond to any problems that we have identified. They have fulfilled three task orders during this period and they are currently working on a fourth one. MSRC staff consensus was that Geographics is performing well and staff recommended that the contract option be exercised, increasing the contract amount by \$7,500. THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL.

ON MOTION BY MSRC ALTERNATE MICHAEL CARTER, AND SECONDED BY MSRC VICE-CHAIR GREG WINTERBOTTOM, MSRC UNANIMOUSLY VOTED TO APPROVE TO EXERCISE THE OPTION AND INCREASE THE CONTRACT VALUE BY \$7,500 FOR GEOGRAPHICS, CONTRACT #MS18003.

AYES: CARTER, MCCALLON, ROYBAL SALTARELLI, WINTERBOTTOM, YAMARONE.

NOES: NONE.

ACTION: MSRC Staff will amend the above contract accordingly.

FYs 2018-21 WORK PROGRAM

[MSRC Member Brian Berkson arrived during the discussion of item #8.]

Agenda Item #8 – Consider Application Received under the Major Event Center Transportation Program

Ray Gorski, MSRC Technical Advisor, reported this item was submitted by the Orange County Transportation Authority (OCTA) to continue the Orange County Fair Express. They are requesting a total of \$468,298 to implement the 2019 and 2020 seasons of the OC Fair Express. As you are aware, the 2019 season has just concluded. There's no prohibition against the MSRC considering this for 2019, as long as it's understood that OCTA did act at risk and they've made their representations fully aware of that. This would provide shuttle service between nine transportation centers and the OC Fair. Over the course of the last several years, OCTA has been diligent in assessing the effectiveness of their pickup locations and has made adjustments to maximize the ridership of their service. This program will utilize near zero buses; however, they will also deploy one hydrogen fuel cell zero-emission bus. The outreach and coordination is truly extensive, covering all media forms to ensure that they have excellent ridership. We don't have the numbers for the entire 2019 service to date, but we did receive a preliminary indication that their ridership is actually up from last year. The MSRC is asked to fund \$468,298 and that will be matched with \$517,813 in co-funding. This program has been successfully implemented for the past several years, and according to what we've heard, successfully implemented this year also.

MSRC Vice-Chair Greg Winterbottom added, at week five, we were up about 4.3% at about 89,000 rides and it really is a popular service. We hear how important it is. It takes you right into the fairground.

MSRC Chair Larry McCallon asked, how is the hydrogen bus?

PUBLIC COMMENT: Ric Teano, OCTA replied, it's been running well. There were some initial hiccups with the cooling and we're having challenges with the range.

PUBLIC COMMENT: Jennifer Farinas, OCTA added, regarding the hydrogen use, primarily it was meant to run on the street in stop and go traffic. We saw some challenges with range because we were running the service on the freeway. The range that we were expecting was just reduced a little bit, so we had to reroute the hydrogen bus. It was placed on an Anaheim route at the beginning and we just changed it to a different route to allow for better service.

PUBLIC COMMENT: Ric Teano, OCTA commented, correct me if I'm wrong, I recall a challenge in getting the hydrogen fuel.

PUBLIC COMMENT: Jennifer Farinas, OCTA replied, temporarily we had a mobile fueling facility. It is our intention in the future that once our hydrogen fueling facility is working on base that we will fill them there but our fueling stations weren't open and running yet.

Naveen Berry, Asst. Deputy Executive Officer asked, what is the timeline? I think Trillium is the one that's putting in the hydrogen station.

PUBLIC COMMENT: Louis Zhao, OCTA replied, my understanding is they're going through the preliminary reviews of the facilities right now. I believe we should be launching it in the fall of this year and that should for the most part solve all the fueling issues we've be running into.

Mr. McCallon asked, is there only one bus?

PUBLIC COMMENT: Louis Zhao, OCTA replied, we will have a total of 10 buses in our fleet, however right now we're only operating one.

PUBLIC COMMENT: Ric Teano, OCTA added, we spent a lot of time and effort making sure the first bus is perfect before we give the go ahead and start the others that are on the purchase order. So that's been the case for quite some time. It appears that staff is comfortable with what they have, that the issues are ironed out so we can give them the green light pretty soon on getting all the other buses.

Mr. McCallon asked, are you getting electric buses also?

PUBLIC COMMENT: Ric Teano, OCTA replied, we're pursuing funds for battery electric. Our intention is to explore both avenues. We as an organization remember being burned with the LNG/CNG kind of thing. We don't want to do the same thing. We are pursuing grants to help out with the battery electric.

Mr. Berry added, the South Coast AQMD's Clean Fuel Program is funding the buses but the stations are mainly being funded ARB grants.

ON MOTION BY MSRC VICE-CHAIR GREG WINTERBOTTOM, AND
SECONDED BY MSRC MEMBER BRIAN BERKSON, MSRC
UNANIMOUSLY VOTED TO APPROVE AN AWARD TO ORANGE COUNTY
TRANSPORTATION AUTHORITY (OCTA) IN AN AMOUNT NOT TO
EXCEED \$468,298 FOR EXPRESS BUS SERVICE TO THE ORANGE
COUNTY FAIR FOR 2019 AND 2020 FAIR SEASONS.

AYES: BERKSON, CARTER, MCCALLON, ROYBAL SALTARELLI,
WINTERBOTTOM, YAMARONE.

NOES: NONE.

ACTION: This item will be considered by the South Coast AQMD Board at its September 6, 2019 meeting.

Agenda Item #9 – Consider Recommendation for Programmatic Outreach Services for the MSRC

Cynthia Ravenstein, MSRC Contracts Administrator, reported the MSRC released an RFP for Programmatic Outreach Services on May 3rd with a deadline in June. There were two proposals evaluated. An evaluation panel composed of MSRC-TAC members reviewed the proposals. They found that the Better World Group Advisors demonstrated a clear understanding of the MSRC. They have been the outreach coordinators for quite some time. Better World Group Advisors also demonstrated a clear understanding of the MSRC's target audience and the work to be performed. They have a depth of experience performing such work for the MSRC, as well as other government agencies, non-profit organizations and businesses. Better World Group Advisors offered many new ideas to help promote the MSRC's Work Programs, demonstrating their understanding of the MSRC's new emphasis on regional goods movement issues. For example, they suggest replacing bi-annual Work Program development workshops with regional workshops to provide investment ideas and opportunities to advance near-zero and zero-emission heavy-duty vehicle and infrastructure projects. Better World Group Advisors proposed a total cost of \$250,000 for the base three-year contract period and proposed an increase of approximately 10% for labor costs for the two-year option period. Taking into account the MSRC's past experience with this contractor, the evaluation panel deemed the proposed costs acceptable. The MSRC-TAC considered the panel's recommendations and recommends an award to Better World Group Advisors, for a not-to exceed amount of \$250,000 for the base three-year period commencing January 2020, with a one-time two-year term option. If the MSRC chooses to exercise the option, the contract value would be increased in an amount to be determined at that time, with funds allocated from the appropriate Work Program year.

ON MOTION BY MSRC VICE-CHAIR GREG WINTERBOTTOM, AND
SECONDED BY MSRC MEMBER BRIAN BERKSON, MSRC
UNANIMOUSLY VOTED TO APPROVE A CONTRACT NOT TO EXCEED
\$250,000 FOR THE BETTER WORLD GROUP ADVISORS.
AYES: BERKSON, CARTER, MCCALLON, ROYBAL SALTARELLI,
WINTERBOTTOM, YAMARONE.
NOES: NONE.

ACTION: This item will be considered by the South Coast AQMD Board at its September 6, 2019 meeting.

Agenda Item #10 – Update on Timelines for MSRC’s Regional Goods Movement Program

Ray Gorski, MSRC Technical Advisor, presented an update on what has transpired since the last MSRC meeting and which will most importantly give you an indication of what the next steps are. An awful lot has happened over the last several weeks and we are making rapid progress towards initiating implementation. There are four specific subcategories under the Regional Goods Movement Program: 1) Zero/Near-Zero Truck Cooperative, this subcategory is targeting the operators of primarily drayage transportation, including those which are disadvantaged that operate down in the Port area. The intent is to get them out of their older dirtier trucks and into cleaner trucks. We’re shooting for a minimum emissions threshold of near zero, which is the 0.02 gram NOx natural gas truck; 2) Inland Ports, this subcategory is looking at the warehouse distribution network, which is primarily in San Bernardino/Riverside counties. When we talk about Goods Movement, we often times think of the activity at the Maritime Ports. But those containers don’t stay there, they transfer along major corridors and end up in the Inland Empire, where they’re broken down and subsequently put on their way all over the United States. Because while 40% of containerized traffic comes in through the San Pedro Bay ports, the Inland Ports are an essential component; 3) Last Mile; this subcategory is looking at the distribution within your neighborhood. It’s the trucks that bring products to the stores we all shop at. We’re looking to do zero-emission technology implementation and that really is going to be rather broad, it’s not just the trucks, it’s the infrastructure that supports them as well as optimization and efficiency improvements to reduce the vehicle miles traveled overall; and finally 4) the last subcategory is Maritime Ports. They published their own Clean Air Action Plan and they’ve suggested that to fulfill their stated mission, which is to have zero-emission cargo handling equipment by year 2030 and zero-emission drayage trucks by year 2035, they’ll need on the order of over a billion dollars. They are very anxious to partner with the MSRC to have some funding sent their way. We’re looking at this from a very broad-based regional perspective; not all the money is going to go to any one entity or one location. Goods Movement affects everybody and we’re advocating that the money be distributed broadly.

Individuals have been hosting us to talk about potential opportunities for partnerships and other stakeholder involvement. So, we’ve gone out to LA Metro; we’re going to have a follow-up meeting with them on the 28th of August. We’ve been out to SCAG; we also went to SBCTA to talk about the Inland Port work and we had some good feedback from the County Transportation Commission there. We’re working very closely with the South Coast AQMD, and with the Air Resources Board. They were gracious enough to put together a whole working group on their end. We’re hoping to partner and leverage each other’s funding to make this program broader and more successful. Of course, we’re working with the Maritime Ports, both Long Beach and Los Angeles. LACI, which is the LA Cleantech Incubator, we met with them yesterday and there are some real opportunities working with that organization. Interestingly, even though the first two letters are LA, they’re really starting to look more regionally at Orange County and the Inland Empire because they too recognize that when you’re thinking Goods Movement, it goes across the entire South Coast region. We’ve talked with Southern California Edison because of their Make Ready Program. They have billboards up, talking about the hundreds of millions of dollars that they currently have to help put in electric charging infrastructure. We certainly want to take

advantage of that, so that when we have electrification projects, we're partnering to the extent feasible with SCE to help leverage some of the funding that they have. We have been in contact with technology and infrastructure providers. We still have couple on deck we want to speak to, we're arranging meetings with OCTA and also with Riverside because they're both essential stakeholders and we want to get their perspective.

We actually do have some ideas for how to move out on all four of those subcategories. These ideas involve multiple stakeholders and they leverage other funds. We feel that they implement our objectives from an emission reduction standpoint and we're pretty excited that we're moving towards that point where we can actually get going. We are going to convene some working groups, as many as necessary, the first one will be the Near Zero Truck Cooperative, Phase 1, most likely on September 10th at 9:00 a.m. This is a program that we're developing, and it has the following essential partners: South Coast AQMD, Air Resources Board, LA Metro, Clean Energy and the LA Cleantech Incubator. It doesn't mean that there can't be other entities participating in this program, but as staff we feel these are some of the essential partners because they'll have tasks to implement. We are putting together a program which is working directly with the South Coast AQMD, to implement a program that's going to help get greater numbers of near-zero trucks deployed in and around the Port area. There are also phases 2 and 3 that we're looking at, those would be focusing more on the zero-emission trucks. Those are under development and in all honesty that category has significant overlap with the Maritime Port category. If you look at what the Ports' priorities are relative to their adopted Clean Air Action Plan, and the statements which have been made by both the Mayors of Los Angeles and Long Beach, they have pretty much said that they are going to move forward to ensure they have electrified drayage by 2035. The Ports are very interested in working with the MSRC to have a program that can move containers in zero-emissions mode.

MSRC Vice-Chair Greg Winterbottom asked, what do you expect to come from it right now? Mr. Gorski replied, what we're going to get out of this program if we're successful, is a true partnership between the South Coast AQMD, the MSRC, County Transportation agencies, public entities, private entities, and the focus is going to be on transitioning operators out of their existing diesel trucks into, at a minimum, a natural gas near-zero truck. It's focused on actual deployment of vehicles. Mr. Winterbottom asked, we're looking for money to sort of help them do that? Mr. Gorski replied, we're looking to pull all the funds that are available. One of the requirements of this program is that everyone brings money to the table. It's not only MSRC money, it's to be going to be the South Coast AQMD, Federal and other local money, pulled together to launch a single program, which is broader than any one entity could do on their own. Mr. Winterbottom asked, what are you thinking the pots are going to look like when you're done? Mr. Gorski replied, no idea. For Phase 2, it's a hundred million, easy. For the first phase, it's going to be a little bit of what the demand is. We feel that the program has the ability to be expanded and by partnering and working together with the District, MSRC and with the infrastructure providers with targeting areas that the trucks will be utilized, we feel that we can accomplish more together than any single entity could by themselves.

Mr. Berry asked, with LA Metro's involvement, is that more of the I-710 corridor? Mr. Gorski replied, absolutely the I-710 corridor. The LA Metro component will probably fall between both the near-zero as well as a zero-emission demonstration. That's why I mentioned that there are really potentially three components because when you look at the I-710 and the mitigation strategies to offset the construction related emissions, it's almost its own little subcategory in and of itself. The work with the Zero-Emission Truck Cooperative is going to be focused on deployments of zero-emission drayage trucks, the largest number ever attempted anywhere, that's going to take a little more time to develop. There's an opportunity, we've already engaged with LA Metro and there's a follow-up meeting on August 28th. We're looking at some mitigation strategies for the trucks that come out of the port that go down the I-710 corridor. The South Coast AQMD deserves a lot of credit because they've been a good partner and are offering to have the MSRC work with them on an existing program.

MSRC Member Brian Berkson asked, as you are zoning in on the working groups and the participants, I want to make sure we're not excluding the cities that border the freeways, all the main ones that go into the Inland Empire. The county has a lot of knowledge and information, but the local cities know even more about their specifics and I just want to see if we open the door to invite them to either this or another working group.

Mr. Gorski commented, when we started this, we had Regional Goods Movement. Then we broke it down into four subcategories and now we're starting to take those subcategories and put together what we hope is a viable program. We want to do this so that the MSRC can start to take some meaningful action at the policy level this calendar year. We've forced ourselves to keep momentum building and make sure that we can get some of these programs started before the calendar year closes. For the Inland Ports, we had a meeting with the leadership of SBCTA and really talked through what the potential barriers are, what the scope of the program is, and we've come up with an initial approach that we're going to suggest to a working group. At this point, we believe we really only need the MSRC-TAC members involved. If MSRC members want to be involved, that triggers the Brown Act, which means we have to make it a public meeting. What we're putting together is a more of a classic multi-phased procurement strategy and we will start with a Program Opportunity Notice (PON) because there are so many warehouse distribution centers in the greater San Bernardino/Riverside area. It's not possible for your staff to actually go out and visit each one. So, what we're doing in concert with our outreach coordinator is put together the PON which is going to be sent to all of them. It's going to ask them to help us identify what their needs are, what they think we can do, what resources could they bring to the table, and basically just try to get our arms around this very broad, very complex issue. We feel by going through this multi-phase program, if something really looks good, the MSRC will have flexibility to enter into negotiations with that entity right then and there. We can also send out a future RFP to get more specific proposals in. That was the recommendation we received from SBCTA. This one actually is going to have probably at least four elements to it. It's going to have the trucks, which access that center. We could potentially get some demonstrations with some of the more advanced technology, longer distance zero-emission vehicles or the near-zero natural gas trucks. But it's going to focus on the cargo handling equipment which is utilized at the warehouse distribution centers, and that includes the yard tractors which move containers around.

It will look internally within the warehouse distribution center, all of them operate forklifts and other types of equipment, looking for them to electrify inside. And it will also be looking at operational efficiency, if there is anything that can be done to streamline their operations to manage better the number of trucks, the amount of traffic which is encroaching upon people's neighborhoods out there. If we can do anything in that respect, that would be beneficial. We're going to make sure there's broad notification of the availability of what's going on and then try to identify specific target areas within that overall complex for your project partners.

MSRC Chair Larry McCallon commented that South Coast AQMD is looking at rulemaking in this area and they are realizing that there are different business models out there and that some of the warehouses aren't owned by the people that run the trucks. So, notifying the warehouses isn't necessarily going to notify the people that we may need to talk to us. Mr. Gorski replied, I have a list with hundreds of entities that was provided from the South Coast AQMD. These are the folks that they believe are impacted by the indirect source rule that includes trucking companies and distribution centers. Mr. McCallon noted, for the record, I'm still opposed to the indirect source rule.

Mr. Gorski continued, for the Last Mile, we've been out working with a couple organizations. We've sat down with SCAG and they have quite an interest and have done quite a bit of work in the past on the last mile from the goods movement perspective. We're suggesting that the MSRC strike a partnership with SCAG, as well as some other entities, to jointly confront the last mile issue. We're suggesting SCAG because they've done a lot of work in this area and have already established relationships with some of the organizations that would potentially participate, for example, in a zero-emission free zone or a Go Zone, using their vernacular. We met with the LA CleanTech incubator, they're also extremely interested in working with SCAG and the MSRC on this. They've also identified last mile delivery as a necessary component of a Regional Goods Movement Program and have been working with the end-user stakeholders, the big-box companies and the delivery companies. As far as geographic locations, we definitely are thinking of having this demonstrated on a multi-county basis, but there's definitely a desire to see what we can do in the Orange County area. When you look at some of the other categories, some of them just don't touch Orange County and we feel it's essential because there are quite a few warehouses out there.

Mr. McCallon commented, this is an interesting area because Amazon delivers to my house, they come in personal vehicles, Budget trucks or whatever. Mr. Gorski replied, Amazon is interesting because they put in a large order for zero-emission vans.

Mr. Gorski continued, that one of the things we discussed yesterday that's beneficial, is to put together some programs which at the end provide a template or a way that they can be replicated in other areas. Lessons learned are going to be important. Given some of the timing of our stakeholder partners, we feel that this will probably really pick up steam in the November/December timeframe, because everyone's busy on the Regional Transportation Plan (RTP).

I'm not sure on Maritime Ports because that's a super easy one. The ports have identified tremendous need within the cargo handling equipment area, and it's won't be difficult at all to provide them incentives because they have so many outstanding programs that can utilize MSRC money. When you talk about the overall drayage truck fleet from a priority basis, the ports will tell you zero-emission drayage trucks. If you're looking at our first category, focus initially on the near-zero truck then transition to zero-emission truck. We will probably knock off both the Maritime Ports and the Truck Cooperative categories in one set of programs for the MSRC's investment. The relative timing for the Truck Cooperative is to move out ASAP. September is going to be the Working Group and we hope to come back in October to the MSRC to give real information and steps for moving forward. For the Inland Ports, we will have our internal working group meeting, after that we will be coming to the MSRC for permission to put together the initial solicitation documents that which will be broadly distributed within the Inland Empire. For the Last Mile, there's a small delay because our stakeholder partners have some pressing priorities right now. This one probably won't kick up until the very last part of calendar year 2019. And the Maritime Ports is going to launch immediately along with the Truck Cooperative.

ACTION: No further action is required.

Agenda Item #11 – Other Business

No other business was introduced.

PUBLIC COMMENT PERIOD

Public comments were allowed during the discussion of each agenda item. No comments were made on non-agenda items.

ADJOURNMENT

There being no further business, the MSRC meeting adjourned at 2:51 p.m.

NEXT MEETING

Thursday, September 19, 2019, at 2:00 p.m., Room CC8.

AGENDA ITEM #2

Summary of Final Reports by MSRC Contractors

MSRC Agenda Item No. 2

Date: October 17, 2019
From: Ray Gorski, MSRC Technical Advisor
Subject: Final Reports Received and Reviewed

Two (2) Final Reports have been submitted for MSRC review and approval:

- City of Santa Monica, MS12060 (\$500,000 – Santa Monica/Westside Breeze Bikeshare Program)
- Los Angeles County MTA, MS16113 (\$1,875,000 – Repower 125 Transit Buses with Near-Zero Natural Gas Engines)

A summary of each Final Report is attached. The MSRC-TAC has reviewed both Final Reports and recommends approval.

Contractor: City of Santa Monica
Contract Number: MS12060
Contract Amount: \$500,000
Title: Santa Monica/Westside Breeze Bikeshare Program

Discussion

With the help of MSRC **Clean Transportation Funding™**, Santa Monica launched LA County's first bike share system – the Breeze Bike Share throughout Santa Monica and Venice.

The grant supported initial equipment purchase, system expansion of 10 and 100 additional stations and bicycles, respectively, as well as the following program elements:

- Siting and installation of stations in Venice and Santa Monica Campuses;
- Development of marketing strategy and program rollout;
- Operational adjustments through the first years of operation;
- Data collection and analysis; and
- Integration of Breeze with other Westside bike share systems in UCLA, Beverly Hills, and West Hollywood.

On November 12, 2015 the city rolled out the citywide system consisting of a total of 500 bikes, 75 stations, and 7 kiosks for in street sign-up. The launch event attracted hundreds of participants and garnered news coverage from dozens of media outlets.

Over the subsequent 18 months the city worked with the operator to plan, site, and install an additional 11 stations, including three more kiosks. The City created a facility use agreement with Santa Monica College (SMC) to place 4 stations on SMC property to ensure students would be able to utilize Breeze while commuting between various SMC sites throughout the City. The City also worked with the Los Angeles Department of Transportation and Councilmember Mike Bonin's Office to expand bike share beyond the Santa Monica border by installing five stations to the Venice neighborhood in Los Angeles. Further, the city made several adjustments to the system, which included expanding and relocating stations, adjusting the fare structure based on community feedback, upgrading equipment, and testing and adjusting all kiosk equipment. Throughout this process the City maintained an open dialog with community members and bike share users to fine-tune the system to improve operational efficiencies and provide the best bike share service possible.

Following the launch of Breeze, the cities of Beverly Hills and West Hollywood, and UCLA took advantage of the "regional guarantee" provision of Santa Monica's bike share operations contract to launch local bike share systems with the same operator and terms and conditions in their jurisdictions. The City worked with these partner agencies, the operator, and technology provider to enable the integration of the four bike share systems into one contiguous Sub- regional Bike Share

Network. The Sub- regional Bike Share Network was integrated in April 2018 and connected the bike share systems into a combined service area, gives users equal access to all bikes throughout the service area, improves the user experience by allowing users to travel between jurisdictions without incurring additional fees, and expands the reach of bike share regionally.

Over the first three years of operation the bike share program has been wildly successful amongst residents, workers, and visitors in Santa Monica. Breeze Bikes are regularly ridden throughout the entire City of Santa Monica and beyond. Between the citywide launch and December 31st, 2018 the system attracted 86,720 subscribers who rode 1,881,806 miles on 819,160 trips. To date Santa Monica residents account for roughly 48 percent of the total trips taken, while both LA County residents and visitors account for roughly 26 percent respectively.

The program generates revenue from subscribers and the title sponsorship from hulu, which together pay for the program’s annual operating costs. Over this time period Breeze Bike Share operations have been financially self-sustaining.

The Breeze Bike Share system shows peak ridership in summer months. Ridership steadily increased from 2016 to 2017, however due to the arrival of other shared mobility options (i.e. Metro Bike Share, Bird Scooters in 2017) and the launch of Santa Monica’s Shared Mobility Pilot Program (2018), which permitted four companies—Bird, Jump, Lime, Lyft —to operate dockless shared e- scooters and e-bikes, Breeze ridership experienced declining ridership in 2018. The vast increase in shared mobility options in the City has led to lower monthly Breeze ridership overall. As a new service in Santa Monica, between 2016 and 2018 the City established program baseline expectation for ridership, revenue generation, and operations, and saw considerable ridership growth. During that time the City and operator worked to fine-tune the system to maximize operational efficiency, customer usefulness, and safety. The unforeseen arrival of other dockless shared mobility options to Santa Monica and the rapidly evolving shared mobility market place significantly impacted Breeze ridership in 2018. The City is in the process of evaluating the Shared Mobility Pilot Program and Breeze Bike Share. While a number of factors impact the bike share, several key elements can ensure the long-term success of the of Breeze Bike Share program.

	2016	2017	2018
Jan	12,424	18,352	19,421
Feb	17,651	17,489	17,309
Mar	21,376	28,186	17,249
Apr	20,413	29,593	22,512
May	24,938	28,804	21,854
Jun	26,075	31,275	20,734
Jul	36,478	38,170	20,515
Aug	33,086	32,679	20,056
Sep	29,040	29,012	17,526

Bike Infrastructure and safe places to ride encourage ridership. Bike share as a service alone will not grow bike ridership. Without adequate bike infrastructure people will feel unsafe and ridership will not grow. While Santa Monica boasts 110 miles of bike lanes and protected paths, and recently installed 20 miles of green high visibility lanes, in the Breeze annual user survey lack of bike

infrastructure was the second most common barrier to using bike share cited by respondents. The most common barrier cited the need for more bikes and bike share stations. As the City continues to grow and invest in the bike network we anticipate that shared mobility ridership will continue to grow.

Flexibility and clarity in pay structure encourages ridership. 97 percent of the Breeze users subscribe to the Pay-as-you-go Plan because the plan has low upfront front costs. Many users are uncertain about how often they will use the system and the Pay-as-you-go plan allows them to try the bikes without making a financial commitment. Additionally, the Breeze Bikes allows the City to charge Pay-as-you-go users prorated by the minute instead of a fixed amount per trip.

Under this structure users know that they will be charged for only what they use, whether its 10 minutes or 200 minutes a month. Because the Breeze system is a publicly owned system, the City is able to ensure a consistent fare structure that is not subject to potential rate hikes as has been seen in private shared mobility services.

Flexible equipment improves the user experience and expands access for all users. Breeze bikes allow users to lock their bikes at hubs, or at public bike racks outside of hubs for a \$1.00 fee. This flexibility does not limit users to a zone only served by stations. While system flexibility helps to drive ridership, it is not without complications. At times users “free lock” the bikes meaning that they do not affix the bike to a stationary object like a public bike rack or signpost. When free locking occurs bikes are more susceptible to being knocked over and damaged.

Ongoing system sponsorship ensures the long-term solvency of the program. The City of Santa Monica was able to procure a title sponsorship from Santa Monica based streaming service hulu during fall of 2015 in anticipation of the system launch. Over the first three years of operation Breeze Bike Share has been self-sustaining—not requiring a city subsidy—because of the sponsorship fee in combination with a high fare box recovery. The financial success of the program has enabled the city to plan for growth by reinvesting any net revenue back into the program, which is being evaluated as part of the broader shared mobility context.

Lasting partnerships with local community based organizations is critical for the success of the system launch and program development over time. The City of Santa Monica relied heavily on community partners to assist city staff conduct outreach regarding the system launch and initial implementation. Community based organizations were essential in helping educate the broader community about the program in public meetings and planning workshops. As well, community partners have served as a conduit of ongoing feedback about various adjustments that have helped refine the user experience and operational experience. For instance, through relationships with Santa Monica Spoke and Community Corp of Santa Monica the city received feedback that lead to fare structure adjustments after the first six months of operation, the creation of the low-income rate, and targeted outreach/education campaigns.

Bike share is a tool to encourage cycling in general and should promote other local bike businesses. After the system launch some bike businesses initially perceive bike share to be in direct competition with their business because it can serve as an alternative to owning a private bike or bike rental. The city views bike share as means of elevating and supporting the growth of all bike industries in Santa Monica. To address concerns, the City worked with local bike industry businesses to locate bike share stations away from bike shops and rental companies, put information about bike rentals and shops on the bike share website, and run cross- promotions to help drive bike share business to bike shops. Since the launch of Breeze the citywide bike count rebounded 26 percent from the previous year (2015) and grew 5 percent since a Santa Monica ridership high counted in 2013.

Contending with the rapidly evolving shared mobility marketplace, municipally owned bike share can ensure stability of service. In recent months many private shared mobility operators have doubled fares or unexpectedly pulled out of markets, leaving users without service or unable to afford the service that they have come to rely on. As largely venture capital funded shared mobility services continue to evolve, agency owned and/or operated bike share systems can ensure reliable service and consistent fare structures for users.

Contractor: Los Angeles County Metropolitan Transportation Authority (LA Metro)
Contract Number: MS16113
Contract Amount: \$1,875,000
Title: Repower 125 Transit Buses with Near-Zero Natural Gas Engines

Discussion

The LA Metro Central Maintenance Facility (CMF) initiated an engine retrofit program to reduce emissions on a significant amount of the fleet of over 2,000 buses. LA Metro entered into a contract with Cummins Engine Company for 395 Near Zero Emission Natural Gas Fueled Heavy Duty Engines. The CMF was tasked with replacing the Cummins ISLG 280 horse power (hp) engines installed in the fleet of NABI 45-foot series composite buses with new "Near zero" emission engines operating on Renewable Compressed Natural Gas (RCNG)

The MSRC awarded **Clean Transportation Funding™** to support the replacement of 125 Cummins ISLG 280 hp engines with the new lower emissions Near Zero engines. LA Metro initiated the replacement of the Cummins ISLG 280 horsepower (hp) engines in early 2018 and completed the installations of the 125 engines in March 2019. The full complement of 125 repowered buses was placed into service with no outstanding performance or reliability issues.

While the repowered buses continue to perform well in revenue service without issue, the process of performing the repower was technically complex. A summary of significant challenges encountered in converting from the Cummins ISLG 280 horsepower engines to the new Near Zero engines are as follows:

- Engine Control Electrical Harnesses - the new engines come equipped with Malfunction Indicator Lights (MIL lights), along with other sensors that require connection to the bus onboard control systems. The connection to these systems required the design, manufacturing, and installation of new electrical harnesses for the retrofitted buses.
- Emissions Control Catalyst - to achieve the lower emissions, the Near Zero engines require a special emissions control catalyst. The shape and mounting of the catalyst was drastically different from the original ISLG 280 engines, which resulted in the need to modify the muffler compartment to support the new catalyst system.
- Engine Cooling System - the heat rejection of engines varies based upon the engine models, so Metro needed to conduct extensive testing of engine cooling systems to ensure that the engine coolant would remain within the manufacturers recommended operating temperatures with severe high ambient temperatures that can occur during the hot summer months in the Los Angeles Basin. LA Metro worked in conjunction with Cummins Engine Company to test and certify the engine cooling systems prior to retrofitting the engines.

- Engine Model Changes - while the previously noted challenges were difficult to overcome, the difficulties were doubled when Cummins replaced their ISLG Near Zero engine with their new L9N Near Zero engine. The tasks that were originally completed for the ISLG Near Zero engine retrofit (harnesses, catalyst, engine cooling system, etc.) had to be completed a second time to support the changes to the L9N Near Zero engine.

Photographs & Outreach

LA Metro documented the Near Zero Engine retrofit project with photographs showing new engines upon arrivals, engines installed in power plant packages with engine cooling systems, transmissions, and accessory systems, and installation of the engines into the buses.

LA Metro informed the public of the MSRC support for the retrofit program by installing the following MSRC logo/decal onto the interior head sign panel of each bus, distributing a news release to Metro's

media list of 535 media outlets plus trade publications, and posted the news release on Metro's web. The placement of the MSRC decal on the interior head sign panel ensured that the decals were not damaged by the cleaning materials used on the exterior of the bus, and ensured that the decal was on display for each person as they entered and exited the front of the buses equipped with the Cummins Near Zero engines.

The replacement of the Cummins ISLG 280 horse power (hp) engines installed in the fleet of North American Bus Industries (NABI) 45-foot series composite buses with new "Near zero" emission engines operating on Renewable Compressed Natural Gas (RCNG) resulted in significant emissions benefits for Los Angeles and the South Coast Basin. The Near Zero natural gas engines reduce NOx by 90 percent and greenhouse gases by nine percent compared to the standard ISLG CNG-powered engine that came with the buses when originally manufactured by NABI. The Cummins Near Zero engines were the only CNG mid-range engine to receive emissions certifications from the Federal Environmental Protection Agency (EPA) and California Air Resources Board (CARB) for meeting the 0.02 g/bhp-hr optional Near Zero NOx emissions standard at the initiation of the project.

AGENDA ITEM #3

MSRC Contracts Administrator's Report

MSRC Agenda Item No. 3

DATE: October 17, 2019

FROM: Cynthia Ravenstein

SUBJECT: AB 2766 Contracts Administrator's Report

SYNOPSIS: This report covers key issues addressed by MSRC staff, status of open contracts, and administrative scope changes from July 25 to October 9, 2019.

RECOMMENDATION: Receive and file report

WORK PROGRAM IMPACT: None

Contract Execution Status

2016-18 Work Program

On July 8, 2016, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On October 7, 2016, the SCAQMD Governing Board approved three awards under the Event Center Transportation Program and one award for a Regional Active Transportation Partnership Program. These contracts are executed.

On January 6, 2017, the SCAQMD Governing Board approved an award for development, hosting and maintenance of a new MSRC website. This contract is executed.

On April 7, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On June 2, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On July 7, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On September 1, 2017, the SCAQMD Governing Board approved one award under the Event Center Transportation Program and one award under the Natural Gas Infrastructure Program. These contracts are executed.

On October 6, 2017, the SCAQMD Governing Board approved two awards under the Event Center Transportation Program and one award under the Natural Gas Infrastructure Program. These contracts are executed.

On December 1, 2017, the SCAQMD Governing Board approved sole source awards for a Hydrogen Infrastructure Partnership Program, for a Southern California Future Communities Partnership Program, and for electric vehicle charging infrastructure planning analysis. These contracts are executed. The MSRC has replaced the award to the California Energy Commission with a Program Opportunity Notice for the Hydrogen Infrastructure Partnership Program.

On February 2, 2018, the SCAQMD Governing Board approved one award under the Event Center Transportation Program, two awards under the Natural Gas Infrastructure Program, four awards under the Local Government Partnership Program, and two awards under the County Transportation Commission Partnership Program. These contracts are executed.

On March 2, 2018, the SCAQMD Governing Board approved one award under the Major Event Center Transportation Program, two awards under the Natural Gas Infrastructure Program, and one award under the Local Government Partnership Program. These contracts are executed.

On April 6, 2018, the SCAQMD Governing Board approved one award under the Natural Gas Infrastructure Program and eight awards under the Local Government Partnership Program. These contracts are executed.

On May 4, 2018, the SCAQMD Governing Board approved twenty-seven awards under the Local Government Partnership Program and one award under the County Transportation Commission Partnership Program. These contracts are executed.

On June 1, 2018, the SCAQMD Governing Board approved six awards under the Local Government Partnership Program, one award under the Natural Gas Infrastructure Program, and one award under the County Transportation Commission Partnership Program. These contracts are with the prospective contractor for signature or executed.

On July 6, 2018, the SCAQMD Governing Board approved nine awards under the Local Government Partnership Program. These contracts are executed.

On September 7, 2018, the SCAQMD Governing Board approved nineteen awards under the Local Government Partnership Program, three awards under the County Transportation Commission Partnership Program, one award under the Major Event Center Transportation Program, and twenty awards under the Natural Gas Infrastructure Program. These contracts are under development, with the prospective contractor for signature, or executed.

On October 5, 2018, the SCAQMD Governing Board approved forty-eight awards under the Local Government Partnership Program and one award under the Hydrogen Infrastructure Program. These contracts are with the prospective contractor for signature, with the SCAQMD Board Chair for signature, or executed.

On November 2, 2018, the SCAQMD Governing Board approved two awards under the Local Government Partnership Program. These contracts are executed.

2018-21 Work Program

On April 5, 2019, the SCAQMD Governing Board approved an award under the Major Event Center Transportation Program. This contract is executed.

On September 5, 2019, the SCAQMD Governing Board approved an award under the Major Event Center Transportation Program. This contract is under development.

Work Program Status

Contract Status Reports for work program years with open and/or pending contracts are attached.

FY 2010-11 Work Program Contracts

2 contracts from this work program year are open; and 18 are in “Open/Complete” status. 2 contracts closed during this period: KEC Engineering, Contract #MS11055 – Repower 5 H.D. Off-Road Vehicles; Bear Valley Unified School District, Contract #MS11079 – Install New Limited Access CNG Station.

FY 2010-11 Invoices Paid

One invoice in the amount of \$30,000.00 was paid during this period.

FY 2011-12 Work Program Contracts

8 contracts from this work program year are open, and 19 are in “Open/Complete” status. 4 contracts closed during this period: Murrieta Valley Unified School District, Contract #MS12010 – Install New Limited Access CNG Station; Disneyland Resort, Contract #MS12035 – Purchase One Medium-Heavy Duty Vehicle; 99 Cents Only Stores, Contract #MS12072 – Install New CNG Station; and Arcadia Unified School District, Contract #MS12074 – Expand Existing CNG Station.

FY 2011-12 Invoices Paid

No invoices were paid during this period.

FYs 2012-14 Work Program Contracts

20 contracts from this work program year are open, and 30 are in “Open/Complete” status. 2 contracts passed into “Open/Complete” status during this period: City of San Fernando, Contract #ML14062 – Expand Existing CNG Station; and City of Duarte, Contract #ML14067 – Purchase Two Electric Buses. One replacement contract is pending execution.

FYs 2012-14 Invoices Paid

2 invoices totaling \$385,679.00 were paid during this period.

FYs 2014-16 Work Program Contracts

50 contracts from this work program year are open, and 27 are in “Open/Complete” status. 2 contracts closed during this period: City of Fountain Valley, Contract #ML16009 – Install EV Charging Infrastructure and City of Anaheim, Contract #ML16045 – Maintenance Facility Modifications. One contract passed into “Open/Complete” status during this period: Orange County Transportation Authority, Contract #MS16112 – Repower up to 98 Transit Buses. One replacement contract is pending execution.

FYs 2014-16 Invoices Paid

7 invoices totaling \$1,085,195.70 were paid during this period.

FYs 2016-18 Work Program Contracts

128 contracts from this work program year are open, and 4 are in “Open/Complete” status. 3 contracts closed during this period: Foothill Transit, Contract #MS18008 – Special Transit Service to LA County Fair; Southern California Regional Rail Authority (SCRRA), Contract #MS18010 – Special Metrolink Service to Union Station for LA Rams Games; and SCRRA, Contract #MS18105 – Special Metrolink Service to the Festival of Lights. One contract passed into “Open/Complete” status during this period: City of Duarte, Contract #ML18033 – Purchase One Heavy-Duty ZEV.

13 invoices totaling \$1,169,855.71 were paid during this period.

Administrative Scope Changes

11 administrative scope changes were initiated during the period of July 25 to October 9, 2019:

- City of Bellflower, Contract #ML12091 (Install EV Charging Stations) – Three-month term extension
- City of San Fernando, Contract #ML14062 (Expand CNG Station) – Reduce value by \$61,412 due to lower than anticipated cost
- Banning Unified School District, Contract #ML18112 (Install Limited Access CNG Station) – One-year term extension
- City of Agoura Hills, Contract #ML18040 (Install EV Charging Stations) – Reduce stations from four to two and value from \$50,000 to \$17,914
- County of Los Angeles, Contract #ML14030 (Bicycle Infrastructure & Education) – Three-month term extension
- City of Malibu, Contract #ML18044 (Install EV Charging Stations) – One-year term extension
- City of Torrance, Contract #ML16039 (Install EV Charging Stations) – One-year term extension
- San Bernardino County Transportation Authority, Contract #MS16096 (Install EV Charging Stations) – Extend term to June 30, 2020
- City of Beaumont, Contract #ML18081 (Install EV Charging Stations) – One-year term extension
- Los Angeles County Metropolitan Transportation Authority, Contract #MS16090 (Implement Transit Station Improvements) – Six-month term extension
- Southern California Association of Governments, Contract #MS18015 (Implement Future Communities Program) – Extend term to August 31, 2021

AGENDA ITEM #5

Contract Modification Request by
City of Baldwin Park

MSRC Agenda Item No. 5

DATE: October 17, 2019

FROM: Cynthia Ravenstein, MSRC Contracts Administrator

SUBJECT: Three-Year Term Extension by City of Baldwin Park, Contract #ML12045

SYNOPSIS: The City requests a three-year term extension due to unexpected delays associated with third party agencies' review and approval of the construction plans, as part of the FY 2011-12 Local Government Match Program.

FINANCIAL IMPACT: None

RECOMMENDATIONS: The MSRC-TAC reviewed the request and recommends approval

ATTACHMENTS: Contractor's letter requesting modification

DISCUSSION:

Contractor: City of Baldwin Park

Project Title: Install CNG Station

MSRC Funding: \$400,000

Project Term: February 14, 2014 to June 13, 2022

Current Request: Three-year term extension

Previous Requests: Eighteen-month term extension

Project Description: The City was awarded \$400,000 under the MSRC's FY 2011-12 Local Government Match Program towards the installation of a publicly accessible, fast-fill CNG station. The construction contract has been awarded and construction is expected to be complete in October 2019; nothing has been paid to date.

Previous Request: Subsequent to contract execution, the City undertook a partnership with the County of Los Angeles to build the station. The County committed \$400,000. In August 2016, the City stated that necessary coordination on the project had caused delays, and they requested an 18-month contract term extension. The MSRC-TAC Scope Changes Subcommittee considered the City's request and recommended that further consideration be delayed until the City submitted confirmation that they had executed an agreement with the County for the

project. The City/County agreement was signed by the City in April 2016, and signed by the County in February 2017. The MSRC considered and approved the City's request in May 2017.

Contract Request: The City indicates that the prospective CNG station location is adjacent to property owned by the Los Angeles County Department of Public Works (hence, the County's interest in partnering on the station). Unexpected delays arose associated with third parties' review and approval of the construction plans. There were issues with sound mitigation and utilities relocation for the County. Also, there were last minute relocations of gas lines and electric panel requests from the Gas Company and So Cal Edison which contributed to the delays. The City now expects construction to be complete in October with the station open to the public in December. In order to allow for fulfillment of the five-year operational requirement, with a small contingency for any further unanticipated delays, the City requests a three-year contract term extension.

Recommendations: The MSRC-TAC reviewed the request and recommends approval.

Samuel Gutierrez, Director of Public Works

Attention: Cynthia Ravenstein, MSRC Contracts Administrator

**Re: City of Baldwin Park
Contract #ML12045-Development and Operation of a New CNG Station**

Dear Ms. Alfaro:

Please accept this letter as the City of Baldwin Park's (City's) request to extend the MSRC contract's expiration date from June 13, 2022 to June 13, 2025 that includes five years of operations. The City is currently in the construction phase and is approximately 80 percent complete with a public opening date scheduled for December 2019. The City attributes the delay in project completion due to unexpected time needed involving third party agencies (Los Angeles County Department of Public Works, The Gas Company, Southern California Edison) review and approval of the construction plans. The site is owned by the City of Baldwin Park, however, the adjacent property is owned by Los Angeles County Department of Public Works and used as a regional office and maintenance yard. Issues that delayed the project mainly dealt with sound mitigation and utilities relocation; however, other issues included re-evaluation of noise abatement report by LA County and last minute relocations of gas lines and electric panel requests by The Gas Company and So Cal Edison also played a factor in the delays. Preliminary design was completed in August 2018 with construction contractor award in December 2018.

The City fully expects construction to be completed by October 2019 with final inspection completed by October 2019 and Ribbon Cutting/Grand Opening Ceremony by November 2019. A delivery timeline of the CNG station is shown below.

- CNG Unit Ordered - February 2018
- CNG Unit Delivered - August 2018
- Submitted Final Plans - August 2018
- Specifications Finalization - October 2018
- Released Bid Solicitation - November 5, 2018
- Bid Opening - December 5, 2018
- Construction Award - December 19, 2018
- Construction Complete - Estimated October 2019
- Inspections Complete - Estimated October 2019
- Ribbon Cutting / Grand Opening Ceremony - Estimated October / November 2019
- Open to the Public - December 2019

The City is requesting a time extension until June 13, 2025 to allow for the City to complete five years of operations, as described in the funding agreement.

Should you have any questions regarding this request, please do not hesitate to contact me at 626-960-4011, extension 460 or at sgutierrez@baldwinpark.com.

Sincerely,

AGENDA ITEM #6

Contract Modification Request by
City of Bellflower

MSRC Agenda Item No. 6

DATE: October 17, 2019

FROM: Cynthia Ravenstein, MSRC Contracts Administrator

SUBJECT: Substitute Five Level II Charging Stations for Two Level III Charging Stations and Extend Term to June 30, 2020 by City of Bellflower, Contract #ML12091

SYNOPSIS: The City indicates that the power supply at their new parking structure will not accommodate the specified Level III/Fast Charge charging stations. The City requests to substitute the installation of five Level II stations for the two Level III stations, with no change to the contract value. The City also requests a term extension to June 30, 2020, as part of the FY 2011-12 Local Government Match Program.

FINANCIAL IMPACT: None

RECOMMENDATIONS: The MSRC-TAC reviewed the request and recommends approval

ATTACHMENTS: Contractor's letter requesting modification

DISCUSSION:

Contractor: **City of Bellflower**

Project Title: Install EV Charging Stations

MSRC Funding: \$100,000

Project Term: October 5, 2018 to January 4, 2020

Current Request: Substitute five Level II charging stations for two Level III charging stations and extend term to June 30, 2020

Previous Requests: ML12091 is a replacement contract for ML12051. Under ML12051: scope and value reduction and one-year term extension; substitution of two fast chargers for eight Level II chargers, reduced contract value, and six-month extension

Project Description: The City was originally awarded \$270,000 under the MSRC's FY 2011-12 Local Government Match Program to install fifteen Level II electric vehicle charging stations; this was subsequently modified over the course of various actions to \$100,000 for the

installation of two fast charge stations. No work has been completed and nothing has been paid to date on this contract.

Previous Requests: The City indicated that transfer of the project between departments delayed progress, and they requested a one-year contract term extension. Additionally, the City requested to reduce the number of charging stations to be installed from 15 to 8, with a corresponding reduction in contract value from \$270,000 to \$170,000. The City also proposed to install the stations in a greater number of locations to heighten public awareness. The MSRC approved the entirety of the City's request. Later, the City indicated that they now believed fast chargers would be more popular, and experience a greater turnover, than the Level II charging stations specified by the contract. The City requested approval to substitute the installation of two fast chargers for the eight Level II chargers, coupled with a corresponding contract value reduction from \$170,000 to \$100,000, as well as a one-year term extension in order to complete the work. The MSRC approved the request, but the contract lapsed without the City returning the modification documents. The MSRC authorized a replacement contract.

Contract Request: The City indicates that the power supply at their new parking structure will not accommodate the specified Level III charging stations. The City requests to substitute the installation of five Level II charging stations for the two Level III stations, with no change to the contract value. Their letter indicates that two of these stations would be installed at the parking structure, and three would be installed at a separate City parking lot. The City further requests that the contract term be extended to June 30, 2020.

Because there will only be two weeks between the September MSRC meeting and the contract termination date, a three-month contract term extension was processed administratively in order to allow sufficient time for the MSRC to consider the remainder of the extension request as well as the other changes.

Recommendations: The MSRC-TAC reviewed the request and recommends approval.

Subsequent to the MSRC-TAC's review, the City has clarified that they actually plan to install three Level II stations at the parking structure and two Level II stations at the parking lot. There would still be a total of five stations.

Re: Contract # ML 12091 EV Charging Infrastructure

Dear Ms. Alfaro:

Please accept this letter as the City of Bellflower's (City's) request to extend the MSRC contract's expiration date to June 30, 2020. The reason for the request is due to the actual construction schedule for the new public parking structure. At the time of our original request for modification of the scope and extension of the expiration date, the City did not have a definitive timeline for construction since the City had just released the Request for Proposals for design/build proposals for the construction of the parking structure located on the NW corner of Mayne St. and Bellflower Blvd. The new parking structure is now under construction with completion anticipated by February 2020, including installation of the EV charging stations.

During construction, it was determined that the power supply at the site will not accommodate the proposed "Level III/fast" EV charging stations. The City would also request a modification of the scope to install five (5) new ChargePoint Level II EV charging stations instead of the proposed two (2) Level III/fast EV charging stations. A total of two (2) ChargePoint Level II EV charging stations would be installed at the new parking structure and a total of three (3) ChargePoint Level II EV charging stations would be installed at the City parking lot located at assessor's parcel number 7109-010-903. The total project cost would remain the same.

Should you have any questions regarding this request, please do not hesitate to contact me at 562-804-1424, extension 2233 or at biniguez@bellflower.org.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bernardo Iniguez", is written over a blue scribble.

Public Works Manager

AGENDA ITEM #7

Consider Option to Extend Contract for
MSRC Technical Advisory Services

MSRC Agenda Item No. 7

- DATE:** September 19, 2019
- FROM:** Dan York, MSRC-TAC Administrative Subcommittee Chair
- SUBJECT:** Consider Option to Extend the Technical Advisor’s Contract for an Another Two-Year Term or Initiate Request for Proposals
- SYNOPSIS:** The current contract for MSRC Technical Services with Raymond Gorski was executed in October 2017 and currently expires December 31, 2019. It contains a provision to extend the term for an additional two years to perform services from January 1, 2020 through December 31, 2021, for an amount not to exceed \$363,300. Should the MSRC elect not to exercise the option, it would be necessary to develop and release a new Request for Proposals (RFP) for MSRC Technical Advisor Services. The MSRC-TAC Administrative Subcommittee reviewed Mr. Gorski’s performance and found it to be excellent over the last two years.
- RECOMMENDATION:** The MSRC-TAC considered recommendations from its Administrative Subcommittee and recommends that the MSRC execute the two-year option for Contract #MS18007, extending the term to December 31, 2021 and increasing the contract amount by \$363,300 for a new total contract amount not to exceed \$713,300.
- FISCAL IMPACT:** The \$363,300 contract value increase will be allocated as follows: 75% of the contract amount (\$272,475) to be allocated as part of the FYs 2018-21 Work Program, and 25% of the contract amount (\$90,825) to be divided between the FY 2019-20 Administrative Budget (\$22,706), the FY 2020-21 Administrative Budget (\$45,413), and the FY 2021-22 Administrative Budget (\$22,706).

Discussion:

Following an open RFP process in 2017 to solicit Technical Advisor services, the MSRC selected Raymond Gorski to perform as its independent contractor to provide technical advisor services for the MSRC. The contract was for \$350,000 for an initial period from October 1, 2017 through December 31, 2017, and included an option clause for a two-year term extension. The option clause provided for an approximate 3.8% COLA adjustment for a not-to-exceed contract amount of \$363,000. Funding specifics for the option period would be as follows:

- a. 75% of the contract amount (\$272,475) would be allocated as part of the FYs 2018-21 Work Program; and
- b. 25% of the contract amount (\$90,825) to be divided between the FY 2019-20 Administrative Budget (\$22,706), the FY 2020-21 Administrative Budget (\$45,413), and the FY 2021-22 Administrative Budget (\$22,706).

Prior to considering exercising the one-time option, the MSRC-TAC Administrative Subcommittee evaluated Mr. Gorski's performance in closed session at their August 1, 2019 meeting. The Subcommittee reported back that they had evaluated Mr. Gorski's performance as excellent over the last two years.

Recommendations: The MSRC-TAC considered recommendations from its Administrative Subcommittee and recommends that the MSRC exercise the option clause, extending the term to December 31, 2021, and allocating an additional \$363,300 in funding for a new total contract amount not to exceed \$713,300.

Next Steps: If approved by the MSRC, this item will be included in the next Work Program Board letter going to the SCAQMD Board for consideration.

AGENDA ITEM #9

2019-2020 Clean Fuels/Clean Technologies
Conference Calendar

Clean Fuels and Clean Technologies Conference Calendar for 2019-2020

October 2019
